**FADE IN:**

**EXT. PLANET UTGARD OUTER SOLAR SYSTEM - TIMELESS SPACE**

The planet Utgard (pronounced - oot-guard) (Neptune) is silhouetted with the background of outer space darkness, while orbiting and rotating on its planetary axis, in its own space time continuum, where it is surrounded by three planetary rings, one of which appears as a strangely twisted gray wire, as seen from its moon Triton.

A spacecraft suddenly appears as a small speck traveling upwards through the atmosphere, coming from a very small Northern luminous area in polar region of the planet.

**CLOSE IN** on the huge spacecraft as it arrives at the planetary ring, which looks like a gigantic circular twisted gray wire. A Trident emblem can be seen on the spacecraft, along with the symbols identifying the spacecraft as Utgardian Jotun space ship, STARKADHR.

A strange laser beam like ray is emitted from the spacecraft towards the planet's twisted-wire like moon ring, where some kind of bizarre energy is suddenly absorbed from the wire back into the spacecraft's propulsion system that results in the entire ship becoming momentarily luminous with a strange color.

As the glowing light fades, the spacecraft slowly backs away from this strange Utgardian solar ring and repositions itself for a trajectory course towards the inner solar system planet named Midgard (Earth). The spacecraft instantly disappears with extreme speed.

**INT. SPACECRAFT STARKADHR -- MOMENTS LATER**

The Jotun spacecraft control center is manned by TEN tall very pale white **UTGARDIANS**, dressed in robe-like garments who appear very busy monitoring and piloting the space craft. These intelligent creatures have very large dark eyes and handsome features. The control center is circular surrounding a holographic positioning chart of the solar system's planets, with the sun at the center of the holograph, which zooms in and out with visual repositioning coordinates of the spacecraft as the ship speeds towards the third planet.

One of the ten Utgardians, named **FARBAUTI** stands up from his control chair, walks over to a portal hatch and presses a button on the wall, which opens the entrance portal to the spacecraft's Captain's briefing room, where he enters.

**INT. SPACECRAFT STARKADHR'S BRIEFING ROOM -- MOMENTS LATER**

**(ANGRBODA, CAPT. YMIR, FARBAUTI, SURT, LOGI, LAUFEY, MIDGARD-LOKI)**

The Utgardian Captain of the ship Starkadhr, **CAPTAIN YMIR** (ee-meer), is sitting at a table with **FIVE OTHER UTGARDIANS**, one of whom is the Supreme Commander of the Utgardian fleet named **SURT** (sert), a much darker skin coloured Utgardian.

The other four Utgardians in attendance are **MIDGARD-LOKI** (mid-guard low-kee) the Jotun Ambassador to Midgard, ship's officers **LOGI** (lo-ghee), and **LAUFEY** (lou-fee), and the Jotun female science officer, **ANGRBODA** (anger-bo-da).

**Farbauti** the Control Center technician comes into the room interrupting the meeting with an announcement.

**FARBAUTI**

Captain Ymir, all ten of the ancient Midgardian sea creatures from Niflheim have been fully briefed on their mission.

**CAPTAIN YMIR**

Good.

**Farbauti** turns and leaves the Captain's Briefing Room by the same door that he enters. The five Jotun ship's officers continue their counsel.

**SURT**

Ymir, I have reviewed the ancient visual-audio records of our space fleet during the first encounter with the aliens who now create paradox. This is dangerous situation which must be handled delicately.

**CAPTAIN YMIR**

I am aware of the three futures which may become one of our solar system's destiny's. The situation in any of the three is bleak unless there is a fourth destiny we can create.

**ANGRBODA**

I agree with your assessment. It appears the alien's deciphered our data bases of information on the Midgardian planet. At the time of their colonization, the oceanic **Nidhøgg** (pronounced - nid-hug) was identified by us, as the highest intelligent

species. Humans were identified as experimental, therefore, the aliens ignored the atmospheric surface until now.

**MIDGARD-LOKI**

So, what you are telling me is the alien reasoning for colonization of the oceans of Midgard was to subjugate the highest form of Midgardian intelligent species?

**CAPTAIN YMIR**

Precisely. The Nidhøgg became enslaved and are used extensively by the aliens.

**LOGI**

I have reviewed many of the audio-visual records, as Surt has. I observed in the last transmission from our captured spacecraft an indication that the aliens are capable of peace. The proof of this is the Utgardian child who was rescued by the humans. They allowed our captive survivors to live and reproduce.

**LAUFEY**

What you are saying Logi, is that the aliens have to had simulated an atmosphere and temperature in their oceanic Midgardian dwellings to accommodate both Jotun and Midgardian life forms?

**LOGI**

Yes.

**CAPTAIN YMIR**

That is true. The human visual-audio records tell us much too. The aliens possess weaponry similar to the Asgardians and they have tremendous body speed, with an ability to live both on the surface and in the ocean. The alien leader spoke to humans in human languages. This means the aliens have studied humans. The Zy aliens also said their species were everywhere. This means the Zy species must have multiplied and established other colonies under the

**oceans. This is why we have brought our Midgardian serpents, the Nidhøgg to scout and identify the locations of the alien oceanic colonies.**

#### **MIDGARD-LOKI**

**I have been appointed ambassador to Midgard. I fear to tell the humans of the three destinies of our solar system as predicted by drinking from the fountain of Mimir (mee-meer). Only one destiny offers hope, if we can alter the events in this destiny to create a fourth future and it is confusing to decipher.**

#### **CAPTAIN YMIR**

**We have a fourth destiny which is certain with the Jotun vessel Starkadhr. No matter which destiny becomes the future, there is still the fourth future. And, that future will prevail no matter what happens as long as we know what to do and when to do it. We do!**

#### **LOGI**

**If the aliens are capable of peace. Then, isn't it our mission to try one more time, to seek peace with these creatures, by taking precautions and proceeding in a manner not to provoke them, as was done by both the Utgardians and the humans in each of our first encounters.**

#### **ANGRBODA**

**This is why Midgard-Loki has come. He must persuade the humans to engage in a second encounter to seek peace with the aliens. From the visual-audio data I have studied, this is going to be difficult, as the alien perception of peace dictates that their species is the dominate species with zero tolerance of other life forms, except leadership. This was our error as well as the human's. At the moment a second peace encounter occurs, destiny branches off towards the destiny we must secure for our species survival.**

### **CAPTAIN YMIR**

**That is very true. In the beginning, when the Zy aliens first came aboard our spacecraft, in peace, they displayed a well disciplined and dignitary attitude until all but one of vessels was boarded with their species. We had to self destruct our own vessels to avoid alien contamination of our solar system. The aliens only succeeded in securing the one vessel, which brought them to Midgard.**

### **SURT**

**Ymir, do you think the aliens went to Midgard instead of Utgard, because they feared the Jotuns? And, is it possible they allowed our species to survive on Midgard to show us a future and capability of peace and this is why the third future exists?**

### **CAPTAIN YMIR**

**I agree with Midgard-Loki that the third future is confusing. By reviewing the translations of the alien mental thought processes, their violence towards other species is hidden in an emotional frequency identified by our electrical magnetic analyzer as peaceful. To their species, their instinctual actions are peaceful. In our reality, their actions were miscalculated, deadly and unacceptable. The big question is, can the aliens be taught that their actions are deadly to both human and the Utgardian species? So to answer your questions Surt, I do not know why the Zy aliens chose Midgard over Utgard. And, because the Zy have never attempted to contact Utgard, the purpose of assuring the survival of our captives is unknown.**

### **MIDGARD-LOKI**

**My mission is going to be very difficult. For the first time in human history, our existence will become known publicly. Can humans accept the Jotuns as allies in an effort to sustain peace and hope for the**

**third future by peaceful co-existence with the alien life forms which have colonized Midgard?**

#### **SURT**

**Let us beware, that this alien species has somehow deciphered Jotun data on our captured vessel and acted on the information by colonizing Midgard. The seized Jotun vessel also contained a star blaster. That is why I am here! It is clear by the human visual-audio data the alien life forms have weapons, constructed with their technology and not ours. We do not know if the Yggdrasil [ig-dra-sill] energy field was discharged or if the weapon was damaged before the vessel's capture. If it's active, the aliens have the potential to destroy the entire planet. In one of the three future's this event will happen, so we must assume, that the aliens are aware of this Utgardian weapon and that it is active. It must be deactivated or destroyed.**

#### **MIDGARD-LOKI**

**This is another issue the humans will not be happy with.**

#### **CAPTAIN YMIR**

**We should all get back to our stations. Shortly, we will be releasing the Nidhøgg into the Midgardian oceans to begin their missions. Then, we will rendezvous with the humans to consult on a new plan to establish some kind of a second peaceful contact with the aliens, where we can also secure the release of any Utgardian captives still alive.**

### **EXT. PLANET MIDGARD (EARTH) - INNER SOLAR SYSTEM - CONTINUOUS**

**The Utgardian spacecraft STARKADHR is entering the Midgardian atmosphere and descends into sub-orbital altitude over the Pacific Ocean, where the coast lines of Central America can first be seen.**

**CAMERA ZOOMS IN DOWNWARD off the coast of Costa Rica and a few miles from Coco Island.**

**CAMERA ANGLES ON** Utgardian spacecraft STARKADHR hovering over the ocean, when TWO huge 170 foot long WOLF EELS serpent-like looking creatures (GrinOlsson's Kraken - Nidhøgg) are released from the under carriage of the space craft. The Nidhøgg large heads have two (one on each side) long whisker like tentacles protruding from the sides of its head, dive head first downwards, right into the crystal clear oceanic waters creating a gigantic splash by their enormous size, as they disappear into the depths.

The Utgardian vessel suddenly rises straight up, angles for a new atmospheric course, and disappears into the horizon.

**DISSOLVE TO:**

**EXT. MIDGARD - NORTH ATLANTIC OCEAN - CONTINUOUS**

The huge circular entrance with the Trident Emblem embedded on the underwater oceanic trench wall still marks the entrance to the alien city.

**EXT. MIDGARD - ALIEN KRAKEN OCEANIC CAVERN CITY - CONTINUOUS**

**WIDE ANGLE ON** the strange looking alien structures created as houses and businesses which are lining cavern boulevards, in this underground alien city. Many canals stream through the city from a large central lake. Some unknown kind of substance coating all the cavernous walls that are shaped and structured into a huge dome-like appearance, which surrounds the entire city region on a colossal standard. Structures and streets, also are coated with this same strange substance that makes the entire city, glow with light, as if daylight on the surface, yet different. Thousands and thousands of alien creatures are everywhere creating a perception of over-population of the city as they come and go about their business.

Positioned high along the cavernous domed walls are strange weapons that have alien warriors continually in position and on guard. Numerous tunnels entrances to the alien city can be seen, with hoards of aliens coming and going to and from this city on both land, and from the canals, where they surface or disappear into the depths like fish.

In one area of the alien city, are rows of glass-like cages of many types of marine life and surface species, including some humans and Utgardians, as if some sort of zoo or farm.

**CLOSE IN** on alien maintenance keepers entering many of the captive cages from various styles of individual entrance doors with the speed of a blur. The maintenance keepers are continually either removing a species being held or adding and filling an empty cage with new captives.

Once the alien's task of securing or removing a specific species in a respective cage, the aliens disappear by exiting the cage from the same door used for entrance. The cage is suddenly filled with oceanic water or an atmosphere respective to the survival of the species being contained.

One alien structure stands out among all of the structures as it emits a strange different colored luminous blue brightness to represent the alien leader ZY's residence.

**DISSOLVE TO:**

**INT. ALIEN LEADER ZY'S RESIDENCE COUNCIL ROOM - CONTINUOUS**

**(ALL ZY COUNCIL MEMBERS, ZY,ZY-1, ZY-2, ZY-9, ZY-13, ZY-23)**

The alien life form leader ZY is sitting at the end of a -large oval like table in council with TWENTY-FIVE other ZY-KRAKEN ALIEN LIFE FORMS. The alien's mane of stranded worm like hair, and their huge razor sharp teeth, with a second mouth that speaks, and is attached to a tongue like protrusion coming from the first mouth, adds a strange element to these horrific creatures, and their intelligence. Human charts, maps and gadgets sit in front of the Zy council members.

A huge visual monitor is mounted on the wall, displaying both oceanic and surface terrain of the world.

TWO ZY WARRIOR GUARDS stand by the entrance door with strange alien weapons in hand.

Zy speaks with a very concerned alien voice, as his second mouth protrudes from the end of a snake like tongue, which turns towards each of the other members, just as a human turns his head to speak to another.

**ZY**

**(hissing like sound)**

**It is crucial to our survival that we secure Kraken.... Peace with humans.**

**ZY-1**

**Nidhøgg species is not dominate species of planet. Utgardian data was not correct or humanoids have evolved into the superior intelligent sub-species.**

**ZY-2**

**Utgardian species does not do well on Midgard. Much difficulty to sustain life.**

**ZY -9**

**(to ZY-2)**

**Utgardian species can not survive long in atmosphere. Limited food sources.**

**ZY**

**Nidhøgg serves us well and is dominate in aquatic atmosphere. We taught Nidhøgg, Kraken. Data is correct. Humanoid genetic code altered. Must be experiment or mutation. We teach human Kraken. Experiment on new human intelligence must be successful on surface of planet.**

**ZY-13**

**Our species suffer. Situation critical.**

**ZY-23**

**All of our Kraken species colonies on planet now suffer. Situation critical. We must act now! We must have contact with human and other surface species.**

**ZY-9**

**Soon! Other Zy colony leaders send message. They contact humans. We must contact humans too.**

**ZY**

**(to all)**

**We have human leader prisoner. We send him back with message of Kraken to humans.**

**ALL ZY COUNCIL MEMBERS**

**(hissing in unison)**

**Kraaaaken...Peace!**

**The alien leader Zy stands up and points to the two warrior guards standing by the entrance door and flicks his wrist and sharp fingers with a circular motion. The two guards exit the room.**

**EXT. KRAKEN ALIEN ZOO - GLASS CAGES OF HUMANS -- CONTINUOUS**

**(JETHRA RAMA)**

**In a section of the Zy-Kraken alien zoo, which contains many species of Midgardian creatures, are two long row of numerous cages containing**

disheveled and unkempt humans which is separated by a walk way, filled with Kraken aliens who appear at first to be spectators, until the time when an alien points to a human inside of the glass cage. A back entrance door is opened and the specific human who is being pointed at, is suddenly seized and taken from view.

Moments later the Alien spectators are given large wrapped packaged boxes, who take their bought products and leave.

TWO ZY WARRIOR GUARDS come into view, walking down the walk way between the glass cages, when they suddenly stop in front of a cage containing a single human male who just happens to be JETHRA RAMA, an unknown survivor of the first human encounter with these alien creatures of Peace.....Kraken.

Jethra is now a long bearded and wild haired sub-species who once was the Sikh U.N. Peace Corps Executive Officer and commanded SSA1. Rama is now, naked, in an almost animalistic state of psychosis with a heavy case of fear confined in a glass cage where he has observed all.

Both Warriors point to Jethra then add a curled swirl to their wrist and fingers, in some kind of symbolic gesture.

The cage hatch from the back opens. JETHRA RAMA begins screaming wildly as he's forcibly escorted out of his cage being held by his hands and arms. The two alien zoo maintenance warriors and Rama disappear behind the hatch as the portal closes.

The two maintenance warriors suddenly appear with Jethra Rama in the walk way, before the two warrior guards. Rama is now dressed in his old disheveled uniform. The two Warrior Guards take possession of Rama and disappear in almost a blur, by carrying him in the air, yet, they are slower to accommodate their fragile captive.

**INT. ALIEN LEADER ZY'S RESIDENCE COUNCIL ROOM -- CONTINUOUS**

**(JETHRA RAMA, ZY)**

The door to the Kraken Leader's residence council room sudden opens. The two alien warrior guards appear off to the side of the huge oval table with Jethra Rama brought before and standing next to their leader Zy.

Jethra Rama appears facially stunned, psychotic, and shocked that he is still alive by looking over his body, as he is released by his captors.

Zy points to the huge monitor mounted on the wall. Jethra Rama turns around to see what object the alien leader is pointing to.

The monitor begins to show alien video recordings of his ship being struck by alien weapons where his encapsulate chair is flung out of the space craft with tremendous force.

The video shows another view of his encapsulated chair, hidden behind debris and his limp body is held by a seat belt in an upward position. Suddenly he is surround by a huge group of warrior aliens who remove him from the encapsulation with terrific precision blasts from their weapons to free him and take him away.

Jethra Rama now realizes what happened and turns towards the alien leader Zy.

**ZY**

You are human leader?

**JETHRA RAMA**

I am Captain Jethra Rama of the United Nations SSA1. Yes, I am a human leader.

**ZY**

Kraaken. Peace. We want contact with humans and other species of the second atmosphere.

**JETHRA RAMA**

We, humans came in peace. We, humans came in Kraken. Your species attacked and killed my species. This is not peace.

**ZY**

We are everywhere on this planet. Our situation is critical. All Zy must secure Peace with humans. Secure Kraken with humans. We send you with this message to all leaders of humans. Kraken.

Jethra Rama has a shocked look of disbelief by hearing the words of his release.

**JETHRA RAMA**

You are going to release me?

**ZY**

Yes. Take message and go.

**EXT. OCEAN OFF TASMANIA, AUSTRALIA -- AFTERNOON**

**(AUSTRALIAN FISHING CAPTAIN, CREWMEMBER 1, CREWMEMBER 2, CREWMEMBER 3)**

**An Australian fishing boat is reeling in its net off the coast of Tasmania. THREE CREW MEMBERS stand ready on deck manning the hydraulics reel and guiding the incoming net, as the CAPTAIN man's the wheelhouse. There are no fish coming on board.**

**CREWMEMBER 1**

**Mates, I don't know what going on in our fishing grounds, but there's no fish.**

**CREWMEMBER 2**

**I've never seen anything like this! And, I've been fishing for years!**

**CREWMEMBER 3**

**(shouting)**

**Captain! There's no fish! We're going home broke!**

**AUSTRALIAN FISHING CAPTAIN**

**(optimistically)**

**We're going to stay out one more day!  
Finish reeling in the net. I know another fishing ground which will have some fish.**

**The last of the fishing net comes on board. The fishing vessel's engines rev up as the boat changes course towards a new fishing ground.**

**Suddenly just off the bow of the fishing boat, a huge 170 foot ferocious looking WOLF EEL breaches the ocean surface perpendicular to the vessel.**

**INT. AUSTRALIAN FISHING BOAT - CONTINUOUS**

**The Fishing boat Captain with his crew who are standing by his side in the wheelhouse, fears a collision with the sea monster and pulls the throttle back reversing the boat's engine.**

**CREWMEMBER 1**

**Look at the teeth on that creature! What the hell is that?**

**The second crewmember reaches back for a mounted rifle on the aft wheelhouse wall.**

**CREWMEMBER 2**

**Let me get the rifle out! Maybe we can take that home!**

**CREWMEMBER 3**

**It looks like dollar signs to me!**

**AUSTRALIAN FISHING CAPTAIN**

**You dumb shits! That thing is three times bigger than our boat!**

**Suddenly the sea creature just in front of the Australian fishing boat disappears under the waves.**

**Not a moment later, the boat begins to lift out of the water, with wood breaking creaks and splinters, as two arm-like tentacles wrap themselves around the boat and now begin to pull the vessel into the depths below the ocean surface. The Captain grabs the radio and begins to radio for help.**

**AUSTRALIAN FISHING CAPTAIN (CONT'D)**

**Mayday! Mayday!**

**Crewmember One grabs the Captain and yanks him from the radio and throw a life vest into his chest.**

**CREWMEMBER 1**

**There's no time!**

**Each of frantic crew grabbed their life vests as they feel the boat being swallowed into the ocean, and see the strength of the two tentacle arms grasp splintering the center deck with its grasp. They rush out the wheelhouse door.**

**EXT. AUSTRALIAN FISHING BOAT - CONTINUOUS**

**(ALIEN, FISHING CAPTAIN, CREW MEMBERS 1,2, AND 3)**

**All four fishermen jump off of the fishing boat deck to safety in the water, and begin to swim next to each other, as the last part of their vessel sinks under the waves.**

**Warm ocean water is splashing in the fishermen's faces as the bob on the ocean surface.**

**CREWMEMBER 2**

**Damn, a minute ago we were safe on board our boat. What happened?**

A strange look comes across Crewmember 2's face as he looks at the Captain and Crew members 1 and 3. Then, Crew members 1 and 3 look at each other in a puzzled look. Abruptly, all three members of the Captain's crew are pulled fiercely under the ocean waves, leaving the Captain as the sole survivor.

Just as abruptly a horrific looking ALIEN face surfaces just in front of the Captain's face.

P.O.V. OF CAPTAIN LOOKING INTO THE ALIEN CREATURE'S EYES, when the creature speaks only one word.

ALIEN 1  
(hissing sound)  
Kraaken.

Fearful terror rips across the helpless Captain's shocked face. The alien disappears below the waves.

DISSOLVE TO:

EXT. OCEAN OFF TASMANIA, AUSTRALIA - LATER

An Australian Coast Guard Aircraft is flying overhead of the lone fishing captain survivor.

INT. AUSTRALIAN COAST GUARD AIRCRAFT COCKPIT -- CONTINUOUS

(AUSTRALIAN pilot, CO-PILOT, RADIOMAN)

An Australian PILOT and CO-PILOT are seated in the cockpit of an Albatross, with a RADIOMAN seated behind him, when the Co-Pilot spots the surviving fishing boat Captain.

AUSTRALIAN CO-PILOT  
Down below at two o'clock we have a survivor!

AUSTRALIAN PILOT  
This is our thirteenth search and rescue mission this week and our first live survivor.

The radioman is talking in the background as the pilot and co-pilot are talking.

AUSTRALIAN RADIOMAN  
(speaking into headphone)

**We have a live survivor!**

**AUSTRALIAN CO-PILOT**

**I know. There are a lot of fishing boats missing. And, what is really strange, is we only find one body, the Captain's body, whose drowned. We never find any crew members, and the fisherman's talk at the pub's is that there's no fish. Strange!**

**EXT. OCEAN OFF TASMANIA, AUSTRALIA -- MOMENTS LATER**

**(AUSTRALIAN FISHING CAPTAIN, AUSTRALIAN CREWMAN 1)**

**WIDE CAMERA ANGLE as the Australian Coast Guard Float Plane with its side door open, with two crew men standing by the door to assist, lands next to the Surviving Captain.**

**From the open seaplane door, One of the Crewmen throws the Captain a life line. The Captain frantically grasps it and hastily assists himself while the two crewmen are pulling him up on board.**

**AUSTRALIAN FISHING CAPTAIN**

**(psychotically frantic)**

**There's Kraken here! Get the hell out of here quick!**

**AUSTRALIAN CREWMAN 1**

**What are you talking about?**

**Abruptly, two tentacles come from under the seaplane and wrap themselves around the plane's hull, with an uplifting motion on the plane then, pulling the seaplane into the depths of the ocean.**

**The Crew members and surviving Captain have a confused frantic fear as they look into each other's faces, eye to eye.**

**A blurry figure flashes from the ocean surface, as this unknown creature rushes on board through the seaplane door, just as the plane's hull begins to crumble with a crunching sound.**

**Mass quantities of red human blood splatter out the seaplane door just before the sea plane is finally and suddenly pulled downwards into the ocean depths.**

**EXT. CANADIAN COAST OFF NOVA SCOTIA -- AFTERNOON**

**(CANADIAN CAPTAIN, CREWMAN 1 and 2)**

**A single small Canadian Lobster boat slowly drifts as TWO CREWMEN are pulling up empty lobster pots from the depths of the ocean.**

**The two crewmen are talking between themselves quietly, as the Captain stays in the wheelhouse slowly piloting the boat.**

**CANADIAN CREWMAN 1**

**First no cod. So, I sign on to go lobster fishing. Now, this is the second day and we have no lobster. Something just isn't right?**

**CANADIAN CREWMAN 2**

**If the government closes the lobster season, our family is going to starve. I can't afford to work on board anymore. I'm going to have to get another job when we get back into port.**

**CANADIAN CREWMAN 1**

**Me too! Even the Captain is worried about paying for the fuel.**

**Without warning FOUR HUGE 170 WOLF EELS rise to the surface not thirty feet from the boat, surrounding the little fishing boat just like a pack of submarines, on the forward, aft, port, and starboard sides of the small Canadian vessel.**

**The two crewmen with terrified expressions drop the last pot they'd just brought on board to the deck. They both grab two long staffed gaff hooks mounted on the aft side of the wheelhouse and rush into the safety of the wheelhouse.**

**INT. SMALL CANADIAN FISHING BOAT WHEELHOUSE -- CONTINUOUS**

**(CANADIAN FISHING BOAT CAPTAIN, crewmen 1 and 2, TWO ALIEN LIFE FORMS, RAMA)**

**The CAPTAIN has a complete shock of fear expression on his face as he stops his engines with his eyes locked on the huge sea serpent which has risen just in front of the bow of his boat.**

**CAMERA P.O.V. of the Captain, sees a huge wolf eel head and mouth are directly in front of him, with its two tentacle like arms just rising out of the sea, like arms. The eyes of the creature look like it is in some kind of hypnotic state, almost motionless.**

**His two crew have just rushed into the wheelhouse, each holding a gaff hook.**

**CANADIAN CREWMAN 2**

Captain, those sea monsters have our boat surrounded. What are they?

**CANADIAN FISHING BOAT CAPTAIN**

These creatures my lad, I believe are the ancient mythological sea serpents called, Kraken or Nidhøgg.

**CANADIAN CREWMAN 1**

Captain, I thought those were giant squids?

**CANADIAN FISHING BOAT CAPTAIN**

(softly, controlled fear)

There are many descriptions, lad. But, what are these creatures up to? Put your life vests on very slowly. That thing is looking straight at us and my instincts tell me, one way or the other, we're in deep shit.

One of the crewman lifts up one of the wheelhouse bench covers, pulling out three life vests, handing one vest to his mate, and one vest to the Captain.

**CAMERA P.O.V.** of the Captain, sees the wolf eel opens its mouth exposing huge razor sharp teeth, and a hollow throat is clearly seen, as the creature widens its mouth open.

Inside of the mouth, are seen, long and slender, milky white cocoon like pod nodules lining the throat with some kind of creature wriggling and moving inside of each nodule.

Unexpectedly, **TWO ALIEN LIFE FORMS (ALF's)** emerge and appear mysteriously from their respective pods. The two creatures move across the tongue of the huge serpent to a third odd shaped but more rounded pod nodule. The two alien creatures reach into the pod and pull, a human figure out, who is wearing a helmet and what appears to be some kind of air tank. The fluid oozing out of the human pod is a strange different color from that of the alien pods. The human collapses into the alien creatures arms, unconscious, but alive.

The wolf eel nudges closer to the fishing boat, using its tongue as a plank, while its two tentacles grab hold of the Canadian fishing vessel as stabilizers.

The two alien life forms holding the human between them come forward and rush on board standing onto the bow. They ALF's look directly into

the Captain and crewmen's eyes, speaking in a hissing tone, but totally understood by the human fishermen.

**TWO ALIEN LIFE FORMS**  
(simultaneously)  
Kraaken. Peace!

The ALF's turn leaving the fishing boat where they are abruptly back on board their biological troop carrier. The ALF's walk inside of the Nidhøgg's (pronounced nid-hug) mouth of the huge sea serpent. The tentacles release their hold of the small fishing boat, as the creatures mouth closes and the wolf eel suddenly submerges. The other three Nidhøgg follow the first and disappear from the ocean surface.

The ocean waters are now again calm, as if nothing had ever happened.

**CANADIAN FISHING BOAT CAPTAIN**  
Get that guy in the wheelhouse!

The two crew members rush out of the wheelhouse excitedly.

**CANADIAN CREWMAN 1**  
Yes, sir Captain!

**CANADIAN CREWMAN 2**  
What the hell is this all about?

**EXT. SMALL CANADIAN FISHING BOAT BOW - CONTINUOUS**

**(JETHRA RAMA)**

The two crewmen pick the unconscious human survivor, who just happens to be Jethra Rama, up from the deck and take him aft of the wheelhouse. The human is covered with some kind of odd slimy substance.

One of the crew members grabs a bucket and fills it with saltwater from the side of the boat. Then, throws the water on the human survivor to clean him off.

The human gains consciousness, coughing and gagging, with a wild fear in his eyes, when he suddenly screams a wild and horrific scream of terror.

**JETHRA RAMA**  
Kraaaaken! No!

**EXT. PACIFIC OCEAN EFATE ISLAND NI-VANUATU -- MORNING**

**Port Vila, situated on the south-west coast of Efate island, is the small capital city which is seen beaming full of life, with cars and people. The near by ocean beaches is filled with sunbathers.**

**An aerial view of this beautiful south pacific island shows crystal clear beautiful blue ocean water surrounding the island, except for some mysterious dark region under the sea not fifty miles from shore.**

**EXT. OCEANIC MOUNTAIN SOUTH PACIFIC OCEAN - CONTINUOUS**

**Underneath the ocean waves is a large plateau mountain rising from the ocean floor. Along one of the sides of this oceanic mountain is a cave like entrance.**

**A pack of TEN gigantic wolf eel NIDHØGGS enter the mountain side entrance and disappear from view.**

**INT. ALIEN LEADER'S RESIDENCE COUNCIL ROOM -- CONTINUOUS**

**(ALL ZY COUNCIL MEMBERS, ZY-2, ZY-5, ZY-6, ZY-22)**

**A huge oval table is filled with TWENTY-FIVE ALF's, holding some kind of council. Zy, the leader is standing and pointing to a huge visual monitor which displays a map of the Ni-Vanuatu island named Efate while some of his council members are speaking to him.**

**ZY 2**

**We must have Kraken. Peace with humans!**

**ZY-5**

**Zy, we contact human's leader today.  
Human Leader Rama released safely.**

**ZY-6**

**We will be compassionate to humans.**

**ZY 2**

**Humans must accept Kraken. Peace.**

**ZY-22**

**Zy, situation in critical stage. We will  
secure Kraken with humans today.**

**ALL ZY-KRAKEN COUNCIL MEMBERS**

**Kraaaken.**

**EXT. PACIFIC OCEAN EFATE ISLAND NI-VANUATU - DAY**

**It is a warm sunny day on the beach of Port Vila with MANY SUNBATHERS laying in the sun, playing volley ball or splashing in the water.**

**Unexpectedly, like marine landing craft, a herd of sea serpents beach themselves, near the beach, with a wide gapping mouth, unloading their cargo of alien life forms and returning to the ocean depths, only to be replaced with another serpent full of alien creatures. The alien life forms instantly form a huge long line of warriors that stretch the length of the beach and begin to surround the sunbathers in an ever tightening circle with THOUSANDS OF ALF's appearing to come from nowhere, but are now everywhere.**

**Within seconds the humans are surrounded by fierce, ugly looking aliens, who tighten the circle, packing the humans together.**

**People are screaming and crying packed together like sardines in a standing room only area of the beach.**

**P.O.V. AERIAL NI-VANUATU -- CONTINUOUS**

**The island is being completely surrounded by INVADING ALIENS emerging from their sea serpent biological troop carriers, the NIDHØGG as if marines disembarking from landing crafts onto the shores.**

**Groups of human captives can be seen taken systematically into the mouths of the sea serpents.**

**EXT. PORT VILA - EFATE ISLAND, NI-VANUATU -- LATER**

**The streets of the capital city are deserted of all human life in an eerie silence, except for thousands of alien warrior occupiers who have replace the humans, and are still searching all of the buildings. The ALF's have surrounded one special humanoid building. The Presidential house.**

**INT. PRESIDENTIAL HOUSE - PORT VILA -- CONTINUOUS**

**(ALF 1, AUSTRALIAN PRIME MINISTER, NI-VANUATU PRESIDENT)**

**The PRESIDENT of Ni-Vanuatu, who is an older gentleman is sitting humbly at his desk surrounded by a LARGE GROUP OF ALIEN WARRIORS.**

**One of the alien life forms stands directly in front of the President's desk.**

**ALF 1**

**We bring you message of Kraken. Peace.**

**NI-VANUATU PRESIDENT**

**(very scared, fearful)**

**Where are all of my people?**

**ALF 1**

**We are compassionate. You are human leader.**

**NI-VANUATU PRESIDENT**

**Yes, I am the leader of my people. Where are my people?**

**ALF 1**

**You talk to all human leaders, the same as all Zy talk to Zy leaders?**

**NI-VANUATU PRESIDENT**

**(calmly, very fearful)**

**Zy? What is Zy? Yes. I talk to other human leaders. But, where are my people?**

**ALF 1**

**Situation critical for our survival. You talk to human leaders now? We must have Kraken. Peace!**

**NI-VANUATU PRESIDENT**

**(scared)**

**Yes, Peace! Ah, Kraken. You bet, the situation is critical! Okay, I talk now to other leaders. I must know where are my people?**

**ALF 1**

**We are compassionate. You talk Kraken to other human leaders now.**

**The Ni-Vanuatu President nervously reaches over his desk and grabs a red emergency telephone, pushing the buttons.**

**NI-VANUATU PRESIDENT Mr.**

**Prime Minister. Ni-Vanuatu is now occupied by some kind of intelligent alien life forms who demand peace with humans. The entire population of Efate is being held hostage. I have been instructed to contact all human leaders with their message for Kraken, which I believe is their word for Peace. They claim their situation is critical for their survival.**

**AUSTRALIAN PRIME MINISTER (O.S.)**  
(Australian accent, shocked)  
What?

**NI-VANUATU PRESIDENT**  
(softly, firm)  
Please, you must pass the message of  
Peace on to all human leaders. The  
message of Kraken. Peace! I need help  
immediately. Send Peace Keeper's  
immediately! Do you understand? They are  
listening to our conversation.

**AUSTRALIAN PRIME MINISTER (O.S.)**  
Ahh..., Yes, I understand. Their message  
will be passed on. How many alien warriors  
seek peace?

**NI-VANUATU PRESIDENT**  
Tens of thousands!

**CUT TO:**

**EXT. COCO ISLAND, COSTA RICA - MORNING**

**CAMERA AERIAL VIEW** of Coco Island, Costa Rica which is a small tropical island surrounded by the beautiful blue ocean waters is seen from an aerial view.

A small lone Costa Rican fishing boat not far from the island shores, is pulling in a long net from its stern, with three white objects spaced not far apart from each other but, still just under the surface of the ocean.

The aerial view of the other side of Coco island, shows a large dark region under the depths of the ocean, not five miles from its shoreline.

**EXT. COSTA RICAN FISHING BOAT - CONTINUOUS**

(ALF-1, COSTA RICAN FISHERMAN 1,2 AND 3, - COSTA RICAN FISHERMAN 1,2, Y 3 - ESPANOLA, COSTA RICAN CAPTAIN, COSTA RICAN CAPITAN - ESPANOLA)

The Costa Rican CAPTAIN of the small fishing boat is trolling very slowly while his THREE CREWMEN man the net.

Costa Rican Fisherman 1 is manning the hydraulic reel, as the other two crew members stand by the stern of the boat watching to make sure the net reels in properly and to gaff hook any catch off the net.

**COSTA RICAN FISHERMAN 1**  
No fish again today! It must be El Nino!

**COSTA RICAN FISHERMAN 1 - ESPANOLA**  
No hay peces hoy! Debe ser el Nino!

Costa Rican Fisherman 2 turns back to answer his crew mate's statement.

**COSTA RICAN FISHERMAN 2**  
The sea is too quiet!

**COSTA RICAN FISHERMAN 2 - ESPANOLA**  
El mar esta demasiado tranquilo!

The third Costa Rican Fisherman who is still watching the net being reeled up notices, the first of **THREE LONG, BUT SLENDER, COCOON LIKE OBJECTS** caught in the fishing boat's net being pulled from the sea.

**COSTA RICAN FISHERMAN 3**  
(excitedly)  
Hey, we caught something!

**COSTA RICAN FISHERMAN 3 - ESPANOLA**  
(con entusiasmo)  
Oiga, atrapamos algo!

Both Costa Rican fishermen grab their gaff hooks to help pull the three strange larvae looking pods on board.

The two fisherman pierce the first huge milky white larvae pod, with their gaff hooks, and pull this first of three pods off to the side and on to the deck, as the pod travels over the hydraulic reel.

**COSTA RICAN FISHERMAN 1**  
(curiously surprised)  
Damn, that is big! What is it?

**COSTA RICAN FISHERMAN 1 - ESPANOLA**  
(curiosamente, coger  
desprevenido)  
Demonios, es grandisimo! Que es eso?

**COSTA RICAN FISHERMAN 2**  
(confused, excitedly)  
Hell if I know! But, we caught two more of them!

**COSTA RICAN FISHERMAN 2 - ESPANOLA**

**(confuso, sa; con entusiasmo)**  
**Carajo, si lo supiera! Espere, atrapamos dos mas!**

**COSTA RICAN FISHERMAN 1**  
**(shouting excitedly)**  
**Captain! Come here! We caught something strange!**

**COSTA RICAN FISHERMAN 1 - ESPANOLA**  
**(gritos, con entusiasmo)**  
**Capitan! Venga! Hemos atrapado algo extrano!**

The engine of the small Costa Rican boat stops. The Captain exits the wheelhouse door and comes out on deck, just as the two fishermen pull the third pod off the conveyor like net reel and with a very hard pull, yanking it to the deck next to the other two pods of milky white fluid.

**COSTA RICAN CAPTAIN**  
**(bewildered)**  
**What the hell did we catch?**

**COSTA RICAN CAPTAIN - ESPANOLA**  
**(desorientar)**  
**Que demonis atrapamos?**

Costa Rican Fisherman 3 looks down at the deck and notices the fluid substance leaking from one of the larvae pods is dissolving a large hole in the wooden deck.

**COSTA RICAN FISHERMAN 3**  
**(fearfully)**  
**Captain. We are in trouble! These things are not natural! The deck is melting or something!**

**COSTA RICAN FISHERMAN 3 - ESPANOLA**  
**(terriblemente)**  
**Capitan. Tenemos problemas! Estas cosas no son naturales! La cubierta esta como fundiendose!**

All three cocoon like pods show motion when something begins to wriggle inside of each of them. The crew and Captain walk closer to observe at their strange catch.

Unexpectedly, the three large narrow pods, jerk straight up.

In a sudden blur, three alien warrior appear on deck, shedding their cocoon like protection.

They herd their speechless captive humans together.

One of the alien warriors opens its mouth, where a second snake like tongue with a second mouth and set of teeth, protrudes out directly in front of the Captain's face.

**ALF-1**

**Kraaaken. Paz. Peace. Kraken!**

An extreme fearful emotion comes across the Captain's face, who can only nod affirmative.

A large sea serpent NIDHØGG suddenly rises from the depths of the ocean on the starboard side of the small Costa Rican boat.

The serpent opens its gapping mouth, while extending its tongue to the side of the boat, as if a ramp, while using its two tentacles to grasp the small boat and hold it in position.

The three alien warriors, without warning disappear with the Captain's three Costa Rican crewmen into the sea serpent's huge mouth, leaving the lone Captain on board his vessel.

The wolf eel's mouth suddenly closes. The creature's head sinks, disappearing into the depths of the ocean, as its tentacles release their grip of the vessels railing.

**DISSOLVE TO:**

**EXT. OCEANIC MOUNTAIN NEAR COCO ISLAND - MORNING**

A huge oceanic mountain, with large cave like openings near its base is the scene of much wolf eel activity, as the sea serpents are coming and going in every direction, out to sea and into the many cavern openings.

**INT. NEAR COCO ISLAND, COSTA RICA KRAKEN LEADER'S RESIDENCE  
COUNCIL ROOM -- LATER**

**(ZY, ZY-3,ZY-4, ZY-9, ZY-13 COUNCIL MEMBERS)**

The alien leader's luminous blue council room is filled with TWENTY-FIVE of its WARRIOR COUNSELORS who are seated with their Alien leader ZY, at a large oval table.

The alien leader stands pointing to a large monitor which has show a series of maps of the upper world, beginning with Coco Island.

**ZY-3**

Coco Island has few humans and no leaders. Situation is critical. Scout for food from upper world! Bring foood.

**ZY-4**

My warriors will secure Coco Island. We bring food!

The monitor zooms in on a volcanic region of Costa Rica near the city of ALAJUELA, named VOLCANO POAS which has a sister volcanic cone filled with water and is now a small lake, named LAGUNA.

**ZY 3**

Under water tunnel leads to this lake from ocean. Few humans. Scout for foood. Find foood.

**ZY-13**

My warriors will travel to Volcano Poas and Lake Laguna. We scout and bring foood.

The monitor now zooms in on a small Costa Rican peninsula and city named PUNTARENAS.

Note: The very small ocean resort city of Puntarenas is located on a long, but thin long peninsula surrounded on three sides by the ocean. It is a perfect small Costa Rican village location for filming. It has a long beautiful sandy beach lined with tropical trees which hides a parallel to the beach street, with restaurants. Directly across the street are numerous hotels with swimming pools and excellent accommodations, and very good prices for the film crews and actors/actresses. At the end of the beach, and perfectly placed, is a very long paved dock stretching out into the ocean, where film crews can provide unique film footage from a new vantage point for filming the aliens coming ashore. A second excellent alternative location site is San Juan Del Sur, Nicaragua.

The Alien leader points to the map.

**ZY-3**

Situation is critical. We must contact humans and secure Kraken. Peace. Paz. Find human leaders and give message of Kraken. Warriors be compassionate to humans.

**ZY-9**

**My warriors will find human leaders,  
compassionate to humans.**

**The monitor zooms in on Lake Nicaragua and the rivers, RIO SAN JUAN  
which leads to the Atlantic Ocean and a smaller river which leads from the  
lake to the Pacific Ocean.**

**The alien leader points to the map as he speaks.**

**ZY**

**Use rivers for travel. Scout lake for new  
colony and upper world foood. Bring  
foood.**

**ZY-13**

**My warriors scout rivers and lake. We bring  
foood.**

**DISSOLVE TO:**

**EXT. COSTA RICA VOLCANO POAS AND LAKE LAGUNA -- AFTERNOON**

**A small bus load of TWENTY YOUNG TWELVE TO FOURTEEN YEAR OLD  
STUDENTS are traveling up a windy mountain road on their way to visit the  
Poas Mountain and its sister cone, Lake Laguna. The bus windows are  
open to accommodate the warm tropical sunny climate of Costa Rica.**

**The students can be heard from outside of the bus as they are excitedly  
talking and giggling among themselves about the field trip.**

**The bus reaches the Poas Volcano National Park, parking lot.**

**EXT. COSTA RICAN SCHOOL BUS -- AFTERNOON**

**(TOUR GUIDE PERSON)**

**The school bus is just pulling in to a parking stall.**

**A TOUR GUIDE PERSON observes the bus pulling in and walks over to the  
bus door to greet the students.**

**INT. COSTA RICAN SCHOOL BUS -- AFTERNOON**

**(COSTA RICAN BUS DRIVER, COSTA RICAN BUS DRIVER - ESPANOLA,  
COSTA RICAN TEACHER, COSTA RICAN TEACHER - ESPANOLA, EMILY,  
EMILY - ESPANOLA, VANESSA FERRER, VANESSA FERRER - ESPANOLA)**

The SCHOOL BUS DRIVER looks back in his mirror at the student's TEACHER who is monitoring the young adults from the back of the bus. The bus driver stands up to address the students who are dressed in their school uniforms, before they disembark the bus.

**COSTA RICAN BUS DRIVER**

Okay, everybody stay together as a group!  
Our tour guide is waiting for us by the door.

**COSTA RICAN BUS DRIVER - ESPANOLA**

Okay, todo el mundo mantengase en grupo!  
Nuestro guía nos esta esperando en la  
puerta.

TWO SCHOOL GIRL friends, named VANESSA FERRER and EMILY, are sitting together towards the back of the bus, and are excited about being on the field trip. The two girls continue talking, as they get up from their seats to exit the bus. Other students are giggling, goofing off and talking in the background.

**VANESSA FERRER**

My father has brought me here before. It's  
a really nice walk up to Lake Laguna.

**VANESSA FERRER - ESPANOLA**

Mi papa me ha traído aqui antes. Es de  
verdad precioso caminar al lago Laguna.

**EMILY**

I've never been here. We don't have a car.  
But, I love traveling out in the country!

**EMILY - ESPANOLA**

Nunca he estado aqui. No tenemos carro.  
Pero yo amo viajar por el país.

**VANESSA FERRER**

Just wait until you see the steam from the  
volcano! The crater walls are really steep  
and deep. Especially the lake.

**VANESSA FERRER - ESPANOLA**

Espere cuando vea el vapor del volcano!  
Las paredes del crater son de verdad  
escarpado y profundo. Sobre todo el lago.

**EMILY**

(excitedly)

**Really?**

**EMILY - ESPANOLA**

**(con entusiasmo)**

**De verdad?**

**The teacher, kindly gestures the girls to come out into the aisle of the bus as to position herself as the last person to leave the bus.**

**COSTA RICAN TEACHER**

**Come on girls!**

**COSTA RICAN TEACHER - ESPANOLA**

**Vengan muchachas!**

**EXT. COSTA RICAN SCHOOL BUS - AFTERNOON**

**(TOUR GUIDE PERSON, TOUR GUIDE PERSON - ESPANOLA)**

**The tour guide person escorts the student a short distance from the parking lot, to a hiking trail which leads to an observation site for Volcano Poas.**

**TOUR GUIDE PERSON**

**If the students would please follow me and in a couple minutes we will be at the observation site to view Volcano Poas. Oh, and please don't try to climb down the crater slopes. It is dangerous and not allowed.**

**TOUR GUIDE PERSON - ESPANOLA**

**Si Los estudiantes me hacen el favor de seguirme y en unos minutos estaremos al lado del mirador del Volcan Poas.**

**The group is escorted by the tour guide person on the walk down the trail to the observation site of Volcano Poas, with the teacher and school bus driver following behind the students.**

**EXT. VOLCANO POAS OBSERVATION SITE -- AFTERNOON**

**(COSTA RICAN TEACHER, COSTA RICAN TEACHER - ESPANOLA, EMILY, EMILY - ESPANOLA, VANESSA FERRER, VANESSA FERRER - ESPANOLA)**

**All the students are looking down at the small reservoir of water, which is lined by large steam vents coming from the sides of the crater.**

**Emily and Vanessa Ferrer are leaning over the railing to get a better look at the crater.**

**EMILY**

**Wow! You were right Vanessa! The crater walls are steep! Gosh, you're pretty lucky to have a father who takes you everywhere!**

**EMILY - ESPANOLA**

**Grandioso! Tienes razon Vanessa! Las paredes del crater son muy empinadas!**

**VANESSA FERRER**

**No. You are the lucky one! My father is usually gone. He's a pilot, so the time he has at home, he spends with the family by taking us places.**

**VANESSA FERRER - ESPANOLA**

**Mi padre esta afuera casi siempre. El es piloto, asi que el tiempo que el tiene para la casa, el gasta con la familia por ir a estos lugares.**

**EMILY**

**But, you have money to do things and go places. My father is a farmer and we go no where. We sit at home and just sing songs at night. We don't even have a television.**

**EMILY - ESPANOLA**

**Pero, usted tiene dinero para hacer cosas e ir a estos lugares. Mi padre es un farmaceutico y no puede ir. Nosotros nos quedamos en casa y cantamos canciones hasta la noche. Nosotros no tenemos televisor.**

**VANESSA FERRER**

**Well, if I could trade you fathers so that my father was home everyday with us. I would. I love him very much!**

**VANESSA FERRER - ESPANOLA**

**Bueno, si Yo negocio con tus padres para que mi papa para este con nosotros un dia. Yo puedo. Lo amo mucho!**

**EMILY**

I kind of see what you mean! My father makes up for no money with hugs and love. I wouldn't trade him for the world, either.

**EMILY - ESPANOLA**

Yo soy amistoso y veo que usted quiere!  
Mi papa no lo hace por dinero si no porque me ama. Yo no podria negociar con el por el mundo, para ambos.

The tour guide person has already started to go back towards the hiking trail which led the group to the Volcano observation site. Most of the group is following, when the teacher get the girl's attention.

**COSTA RICAN TEACHER**

Come on girls. Let's stay with the group!

**COSTA RICAN TEACHER - ESPANOLA**

Vengan chicas. Vamos con en grupo!

The two girls rush over and join the rest of the group.

**EXT. LAKE LAGUNA HIKING TRAIL -- AFTERNOON**

**(TOUR GUIDE PERSON)**

The Tour Guide Person leads the students up the trail towards Lake Laguna observation site.

**EXT. LAKE LAGUNA OBSERVATION SITE -- CONTINUOUS**

**(EMILY, EMILY - ESPANOLA, TOUR GUIDE PERSON, TOUR GUIDE PERSON - ESPANOLA, VANESSA FERRER, VANESSA FERRER - ESPANOLA)**

The Tour Guide Person, students, teacher, and bus driver arrive at the Lake Laguna observation site. Some of the students are complaining about the length and steepness of the trail. Vanessa Ferrer and Emily, included.

**EMILY**

**(taking deep breaths)**

Vanessa, you never told me the trail was so long and steep? My leg muscles are sore.

**EMILY - ESPANOLA**

**(respiracion fuerte)**

**Vanessa, nunca me dijiste que el viaje era largo y empinado? Mis piernas estan adoloridas.**

**VANESSA FERRER  
(taking deep breaths)  
Mine too! I forgot it was this long.**

**VANESSA FERRER - ESPANOLA  
(respiracion fuerte)  
Tambien lo creo! Olvide que era tan lejos.**

**The two girls sit down to rest near some of the young men in the group, while they rub the back calves of their legs.**

**ONE long haired young male student named MAGNI LEIVO catch's the girl's eye. The girls begin to whisper to each other and giggle.**

**EMILY  
Gosh, he's really cute! I've never seen him in school before.**

**EMILY - ESPANOLA  
Por Dios, el es muy astuto! Nunca lo vi antes del Colegio.**

**VANESSA FERRER  
Yea, he is! I think he just moved here.**

**VANESSA FERRER - ESPANOLA  
Si, si lo es! Pienso que el se ira de aqui.**

**The young man notices the two girls looking at him, with smiles on their faces. He shyly smiles back, but says nothing.**

**The Tour Guide Person begins to explain knowledge of Lake Laguna.**

**TOUR GUIDE PERSON Lake Laguna was created by Volcanic activity. They say Lake Laguna has no bottom, and actually leads directly to the ocean which is almost sixty kilometers away. Fishermen who first came to the lake to try their luck claimed to have caught ocean fish here!**

**TOUR GUIDE PERSON - ESPANOLA**

**El lago de la laguna fue hecho por una actividad volcanica. Ellos dijeron que el lago de la laguna no tiene fondo, y actualmente llega al oceano en sesenta kilometros de distancia. El pescador quien fue el primero en llegar al lago afirmo que el pesco aqui!**

**VANESSA FERRER**

**Did you hear that Emily? This lake leads right to the ocean.**

**VANESSA FERRER - ESPANOLA**

**Estas escuchando Emily? Este lago llega hasta el oceano.**

**EMILY**

**Yea, that is really weird! Costa Rica is so beautiful and strange! We are lucky to live here where it's always warm!**

**EMILY - ESPANOLA**

**Si, es realmente misterioso! Costa Rica es muy bella y extrana! Nosotros tenemos suerte de vivir aqui donde siempre es muy calido!**

**VANESSA FERRER**

**Yes. I agree with that. And, our men are very handsome too!**

**VANESSA FERRER - ESPANOLA**

**Si. Lo acepto. Y, nuestros hombres son muy guapos tambien!**

**The girls giggle as Vanessa Ferrer turns to look once again, at the young man Magni who caught the girl's eyes just a few minutes earlier.**

**EXT. LAKE LAGUNA FORESTED CRATER WALLS - CONTINUOUS**

**(ALF-1, COSTA RICAN TEACHER, COSTA RICAN TEACHER - ESPANOLA, EMILY, EMILY - ESPANOLA, TOUR GUIDE PERSON, TOUR GUIDE PERSON - ESPANOLA, VANESSA FERRER, VANESSA FERRER - ESPANOLA, MAGNI LEIVO, MAGNI LEIVO - ESPANOLA)**

**The two girls walk over to the railing and look down at the lake below. The long haired Magni who caught the girl's eyes, shyly walks up next to the girls and looks down at the lake.**

The lake is calm, with trees thickly covering the crater walls all the way up to the observation site. A trail leading from the observation site, down to the lake edge, meanders through the very steep thickly forested slopes.

Most of the other students have already observed the lake and are sitting around the observation site waiting to be escorted back down the trail.

Unexpectedly, there is a commotion by the lakes edge, as water splashes upward, and abrupt shadowy blurs scurry from the water with such extreme speed, their figures can't be seen.

**VANESSA FERRER**

(curiously)

Did you see that? What was that?

**VANESSA FERRER - ESPANOLA**

(curiosamente)

Viste eso? Que era?

**EMILY**

(fearful)

I saw it too! This place is spooky!

**EMILY - ESPANOLA**

(temeroso)

Lo vi tambien! Este lugar es tetrico!

**MAGNI LEIVO**

(curious and confused)

I saw something too! That wasn't a fish jumping either! Whatever it was it was a large shadowy thing or things.

**MAGNI LEIVO - ESPANOLA**

(curioso y confundido)

Yo vi algo tambien! Era un pez saltandonos! Todo lo que fue era largo oscuro cosa o cosas.

**VANESSA FERRER**

Maybe because the lake is connected to the ocean, it burps up air or something?

**VANESSA FERRER - ESPANOLA**

Talves porque el lago esta conectado al oceano, algo erupto en el aire?

**MAGNI LEIVO**

**It's possible. But, I don't think that is what we saw.**

**MAGNI LEIVO - ESPANOLA**

**Es posible. Pero, no lo creo que podamos verlo.**

**The Tour Guide Person begins to descend down the trail from the observation site. Most of the students follow.**

**The teacher notices Vanessa Ferrer, Emily and the young man have their backs to the group which is just leaving.**

**COSTA RICAN TEACHER**

**Come on! We heading down the trail and back to the bus!**

**COSTA RICAN TEACHER - ESPANOLA**

**Venga! Dejemos el viaje y volvamos al bus!**

**VANESSA FERRER**

**Okay, we're coming!**

**VANESSA FERRER - ESPANOLA**

**Esta bien, regresemos!**

**The three students begin to follow behind the teacher, who has already started down the path.**

**Not far from the Lake Laguna observation site, is a second very short side trail off to the right, which provides a secondary view of the Volcano Poas. The young man spots it.**

**MAGNI LEIVO**

**Hey, let's check this trail out real quick!**

**MAGNI LEIVO - ESPANOLA**

**Oigan, revisemos este camino rapidamente!**

**The adventurous young man runs quickly to the railing and stand on one of the cross rails for a really good view of the Volcanic steaming crater! The girls stand by his side peering over the higher cross railing.**

**Unexpectedly, the nearby thick brush begin to rustle with strange activity and a shadowy blur.**

The young man steps down and begins to walk backwards. The girls step back, and suspiciously watching the brush, walk backwards with him towards the main trail.

The three hear more rustling of brush just to the side of them, and turn to see what it is.

A shadowy blur comes into focus as the strange ALIEN WARRIOR stops right next to the three students.

The Alien Warrior's snake like tongue with a second mouth and set of teeth protrude out directly in front of the young man and two girls.

**ALF-1**  
(hissing sound)  
Kraaken. Paz. Peace!

The three have a petrified look of terrifying fear on their face.

A voice comes from down the main trail. It's the teacher.

**COSTA RICAN TEACHER (O.S.)**  
(angrily)  
Where are the three of you at? You're suppose to stay with the group?

**COSTA RICAN TEACHER - ESPANOLA (O.S.)**  
(con enojo)  
Donde estaban ustedes tres? Se suponía que estábamos en grupo?

The three terrified students run as fast as they can, as the Alien Warrior turns to look towards the voice of the teacher.

The girls and young man with a fear never before seen race right through the entire group of students with a psychotic facial expression of fear. Neither of the three even look back!

**EXT. COSTA RICAN SCHOOL BUS - MOMENTS LATER**

**(COSTA RICAN BUS DRIVER, COSTA RICAN BUS DRIVER - ESPANOLA, TOUR GUIDE PERSON)**

The three students have locked themselves in the school bus with all of the windows rolled up. Each of them make short peering looks through the window, then pull their heads back down below the window.

The bus driver and teacher thank the Tour Guide Person for taking the group on the tour.

The bus driver notices the door to the bus is locked and all the windows are rolled up.

**COSTA RICAN BUS DRIVER**

Son, what are you and those two girls doing in there? Now unlock the bus door!

**COSTA RICAN BUS DRIVER - ESPANOLA**

Hijo, que estaban haciendo con esas dos chicas por ahí? Ahora la puerta del bus se cerro!

**INT. COSTA RICAN SCHOOL BUS - MOMENTS LATER**

The scared young Magni Leivo hurries up to the bus driver's seat and unlocks the door as commanded. Then runs back and hides in one of the seats next to the other two girls.

The bus driver, the rest of the students and the teacher come on board and take seats. All of the students are giggling and excited about the field trip and are gossiping among themselves.

The teacher glances at the three students with a curiously concerned look. The teacher sees a terrifying and frightening fear on the girls faces along with the young man's, as they keep crouched down in their seats.

The teacher take a seat but says nothing to the students about their strange behavior.

**EXT. COSTA RICAN SCHOOL BUS -- MOMENTS LATER**

The school bus pulls out of the Volcano Poas National Park and begins descending down the windy road home. Many of the students are pulling their respective windows down and can be heard from outside of the bus talking and goofing off.

**EXT. COSTA RICAN FARM -- LATER**

**(EMILY, EMILY - ESPANOLA, EMILY'S FATHER, EMILY'S FATHER - ESPANOLA, EMILY'S MOTHER, EMILY'S MOTHER - ESPANOLA)**

A school bus stops by a dirt road leading up to a farm. Emily exits the bus.

Emily's FATHER and MOTHER are working out in their field picking coffee beans.

Emily runs straight up the dirt road to where her parents are, then cuts across the field to meet them.

**EMILY**  
(shouting)  
Father! Father!

**EMILY - ESPANOLA**  
(gritando)  
Papa! Papa!

**EMILY'S FATHER**  
(concerned, questionly)  
What is it, girl? How was the field trip?

**EMILY'S FATHER - ESPANOLA**  
(consternado, interrogante)  
Que pasa, nina? Como estuvo tu viaje?

Emily starts to cry holding her eyes.

**EMILY'S MOTHER**  
What's wrong Emily?

**EMILY'S MOTHER - ESPANOLA**  
(Que equivocacion con Emily?)  
Emily tearfully looks up at her parents.

**EMILY**  
I'm scared. There are MONSTERS up at  
Lake Laguna!

**EMILY - ESPANOLA**  
Estoy asustada. Ahi hay mounstruos en la  
laguna!

Emily's father looks irritated and scolding.

**EMILY'S FATHER**  
Girl, are you going crazy on your daddy?  
Now, get up to the house and change your  
clothes. You can help me and your mother  
out here in the field before dinner.

**EMILY'S FATHER - ESPANOLA**  
Chica, te vas a volver loca por tu papa?  
Ahora, entra a la casa y cambiate la ropa.

Puedes ayudarme a mi y a tu madre a salir de este campo antes de la cena.

**EXT. COSTA RICAN HOME OF JOSE MCFIGUERES FERRER - CONTINUOUS**

**(JOSE MCFIGUERES FERRER, JOSE MCFIGUERES FERRER - ESPANOLA, VANESSA FERRER, VANESSA FERRER - ESPANOLA)**

**JOSE MCFIGURES FERRER is just opening up the mail box to retrieve his mail, when the school bus carrying his daughter Vanessa Ferrer arrives by the drive way.**

**Jose seems very interested in one letter and begins to rapidly open and read it. He is unaware of the very scared mental state of his daughter who immediately runs up to him shouting his name.**

**VANESSA FERRER**

**Father! Father! Please I have to tell you something about what I saw today!**

**VANESSA FERRER - ESPANOLA**

**Papa! Papa! Por favor tengo que contarte algo que vi hoy!**

**Jose after reading some exciting news from the mail in his hand, but, at the same time as Vanessa Ferrer starts talking.**

**JOSE MCFIGUERES FERRER**

**Yes! I have been accepted!**

**JOSE MCFIGUERES FERRER - ESPANOLA**

**Si! Debo aceptar!**

**Vanessa Ferrer grasps her father's arm.**

**VANESSA FERRER**

**Father, I saw a strange creature up at Lake Laguna today! It was some kind of monster!**

**VANESSA FERRER - ESPANOLA**

**Papa, hoy vi una criatura extrana en el lago del volcan! Era un mounstruo amigable!**

**JOSE MCFIGUERES FERRER**

Sweetheart, the Earth has many creatures  
that aren't a pleasant site to human eyes.  
But, that doesn't mean they are monsters.

**JOSE MCFIGUERES FERRER - ESPANOLA**

Carino, en el planeta hay criaturas que no  
son agradables para la vista humana. Pero,  
creo que no hay mounstros.

**VANESSA FERRER**

No, Father. What I saw isn't anything from  
this world!

**VANESSA FERRER - ESPANOLA**

No, Papi. Lo que yo vi no es de este  
mundo!

Jose puts a comforting arm around his daughter and leads her into the  
house. The door closes behind them.

**INT. COSTA RICAN HOME OF JOSE MCFIGUERES FERRER - CONTINUOUS**

**(JOSE MCFIGUERES FERRER, JOSE MCFIGUERES FERRER - ESPANOLA,  
VANESSA FERRER, VANESSA FERRER - ESPANOLA)**

**JOSE MCFIGUERES FERRER**

**(happily)**

I have good news for your mother when she  
gets home!

**JOSE MCFIGUERES FERRER - ESPANOLA**

**(felizmente)**

Tengo buenas noticias para tu madre para  
cuando llegue a casa!

**VANESSA FERRER**

**(curiously)**

What's that daddy?

**VANESSA FERRER - ESPANOLA**

**(curiosamente)**

Cual es papi?

**JOSE MCFIGUERES FERRER**

I have been accepted and commissioned as  
an officer in the United Nations  
Peacekeeping Force as a pilot. We're going

to be moving to the United Nations island of Kerguelen in Indian Ocean.

**JOSE MCFIGUERES FERRER - ESPANOLA**

He aceptado una comision como funcionario de las Naciones Unidas como un piloto de paz. Nos mudaremos a la isla de las Naciones Unidas Kerguelen en el oceano de la India.

**VANESSA FERRER**

(concerned)

But, Father. You said you don't like countries that have armies!

**VANESSA FERRER - ESPANOLA**

(consternada)

Pero, papa. Tu digiste que no te gustan Los paises que tengan armas!

**JOSE MCFIGUERES FERRER**

You're right! I don't like armies. But, being a peace keeper is much different. It is to protect the innocent civilians from armies at war in an effort to promote peace.

**JOSE MCFIGUERES FERRER - ESPANOLA**

Tienes razon! No me gustan las armas. Pero, ser un hombre de paz es muy diferente. Es para proteger civilizaciones inocentes de las armas como la guerra en un esfuerzo de prometer la paz.

Vanessa Ferrer starts crying.

**VANESSA FERRER**

I don't want to go! I won't be able to see my friends. And, I'll have to learn a new language. I love Costa Rica!

**VANESSA FERRER - ESPANOLA**

No quiero ir! No podre volver a ver a mis amigos. Y, debere aprender otro idioma. Amo Costa Rica!

Jose give his daughter Vanessa Ferrer a loving hug, as he explains the need to relocate.

**JOSE MCFIGUERES FERRER**

I do too! Our nation is a proud nation and a leader of peace through out the world. We have no army! Only peace makers! It's only for two years! We will be back! And, there will be other Costa Ricans there! Each peace keeping squad is now made up of people from the same home country. You'll be alright!

**JOSE MCFIGUERES FERRER - ESPANOLA**

Yo tambien! Nuestro pais es un orgullo de nacion y es lider en la paz del mundo. Nosotros no tenemos ejercito! Solo creadores de paz! Es solo por dos anos! Regresaremos! Y, alli podemos tener otros costarricenses! Cada funcionario de paz tiene un equipo de gente del mismo pais. Tu podrias pasarla bien!

**EXT. PUNTARENAS PENINSULA COSTA RICA - LATE AFTERNOON**

**(COSTA RICAN CAPTAIN, COSTA RICAN CAPTAIN - ESPANOLA, COSTA RICAN GIRL, COSTA RICAN GIRL - ESPANOLA, COSTA RICAN YOUNG MAN, COSTA RICAN YOUNG MAN - ESPANOLA)**

A small Costa Rican fishing boat arrives at the end of the long ocean beach pier like dock, which extends far out from the beach.

The Captain of the boat throws the noosed rope around one of the metal tie up shoes mounted on the pier and dashes off the boat by climbing up the dock side ladder and runs as fast as he can towards shore.

Along both sides of the pier are hundreds of sunbathers who are laying on the beach, playing in the sand, walking along the beach, chatting, drinking refreshments from coolers, and splashing in the water.

**COSTA RICAN CAPTAIN**

Police! Police! Someone get the police!  
There are monstrous sea serpents and sea monsters around Coco Island! Police!

**COSTA RICAN CAPTAIN - ESPANOLA**

Policia! Policia! Que alguien llame al policia!  
Hay mounstruos marinos serpientes y mounstruos marinos alrededor de la Isla del Coco! Policia!

**A YOUNG MAN and GIRL who are sitting on the dock holding hands look over at the frantic Captain racing down the dock.**

**COSTA RICAN GIRL**

**I think that old boy has had too much hooch to drink!**

**COSTA RICAN GIRL - ESPANOLA**

**Creo que el señor tuvo que haberlo visto también estaba tomando licor!**

**COSTA RICAN YOUNG MAN**

**Or, he's been at sea too long.**

**COSTA RICAN YOUNG MAN - ESPANOLA**

**O, el vio en el mar algo largo.**

**The couple chuckle between themselves and begin to cuddle and kiss again, ignoring the Captain's warning.**

**EXT. PUNTARENAS BEACH, COSTA RICA -- MOMENTS LATER**

**(ALF-1, NIDHØGG)**

**A herd of hundreds of huge gigantic Nidhøgg wolf eels 170 feet long, beaching themselves in a few feet of water, just short of being on Puntarenas Beach.**

**As the Nidhøggs arrive, their mouth opens wide, tongue extends out, showing ferocious looking teeth, with strange white long slender pods lining the inside of their throats. The creatures eyes appear trance like.**

**People immediately begin to run out of the ocean waters, others stand up while screaming and running inland towards the safety of shore.**

**Shadowy blurs of THOUSANDS OF ALIEN WARRIORS burst from the Nidhøgg mouths, spreading out and forming a circle around the entire group of humans on the beach before any one human can make it to the grass.**

**The ALF's tighten the circle enclosing the human captives ever closer until there is only standing room among them. A grim silence come over the crowd of captive humans who realize they are helpless.**

**ALF-1**

**Kraken. Paz. Peace.**

The Alien Warriors begin escorting their captive humans towards the herd of Nidhøgg wolf eel biological troop carriers.

The young couple who were just earlier, laughing at the Captain, now have terrorized fear in their eyes as they race down the dock towards the police station, which is located near the dock.

**INT. PUNTARENAS BEACH POLICE STATION, COSTA RICA -  
CONTINUOUS**

**(ALF-2, YOUNG COSTA RICAN MAN, YOUNG COSTA RICAN MAN -  
ESPANOLA)**

The young man and woman rush in the door to the police station. FIVE PEACE OFFICERS man the station, one of which is the Captain. Two of the peace officers are talking to the Fishing Boat Captain, with pen and pad in hand.

**YOUNG COSTA RICAN MAN  
(screaming frantically)  
We've just been invaded! You better go  
look at the beach and call for help!**

**YOUNG COSTA RICAN MAN - ESPANOLA  
(freneticamente gracioso)  
Estamos invadidos! Mejor mire a la playa y  
pide ayuda!**

The two peace officers who are interviewing the Captain, replace the laughing grins on their faces, with grim, concerned looks.

All five peace officers are met at the door of the police station, by MANY SHADOWY BLURS, ripping right through the four of the peace officers tearing them into pieces of human flesh, as they enter.

The Captain, young man and woman look at the horrific site of human blood being instantly splattered everywhere, with shadowy blurs streaking everywhere.

The young girl and man look into each other's eyes with shock.

An ALF second mouth secures hold of the girl's head, while the larger first mouth, severe's her head like a razor knife, as the ALF closes its mouth tight.

P.O.V. Of girl looking at her boyfriend, as ALF mouth attaches itself to her head and the first mouth comes down over her eyes to severe her head at the neck, where P.O.V. becomes black in darkness.

Suddenly both are ripped apart. The blurs stop. An Alien Warrior is holding half of the female, with her head gone. The creature spits her human skull on the floor. The girl's skinless skull rolls next to the Peace Officer Captain's feet with her eyes glaring a strange shock.

A SECOND ALF is eating the leg of the young man, who is still alive, laying on the floor in a pool of blood from the lower portion of his torso missing. He dies, with glazed eyes looking up.

There terrorized Police Captain and Fishing Captain stand speechless and frozen in fright, as the alien creature's snake like tongue with a second mouth and teeth appears inches away from his face.

**ALF-2**  
(hissing human words)  
Kraken. Paz. Peace. Fooood. Alimento.

The Peace Officer Captain begins to vomit.

All of the Alien Warriors disappear from the police station in a shadowy blur. The two humans are left alone. Psychotic facial expressions of extreme fright, with glazed eyes are the only response the two can provide.

**DISSOLVE TO:**

**INT. NEW YORK, U.S.A. UNITED NATIONS SECRETARIAT GENERAL'S  
EMERGENCY BRIEFING ROOM - MORNING**

**(ANGRBODA, CAPTAIN YMIR, LOGI, LAUFHEY, MIDGARD-LOKI, SURT,  
SECRETARIAT GENERAL, U.N. AMBASSADORS FOR AUSTRALIA,COSTA  
RICA, U.S.A.,CANADA, CHINA,BRAZIL, RUSSIA, SOUTH AFRICA)**

The SECRETARIAT GENERAL enters the room, walks to the end of the table and sits down. The U.N. AMBASSADORS from AUSTRALIA, BRAZIL, CANADA, CHINA, COSTA RICA, EUROPEAN UNION, RUSSIA, SOUTH AFRICA, and the UNITED STATES are seated at the conference table. Some are wearing ear phones for translations of the conference. Each of the U.N. Ambassadors have some documents in front of them, along with their respective coffee cups, glasses, with pitcher's of water and coffee spread around the table.

SEVERAL TRANSLATORS sit at desks with microphones behind a glass window on the right side of the room. There is a large video monitor mounted on the wall behind them.

TEN AMBASSADOR AIDES, including one for the Secretariat General sit at desks with telephone, computers, and fax machines behind a glass window on the left side of the room.

**Both side rooms have doors directly to the Secretariat's Briefing Room.**

**The Secretariat General's Aide comes into the briefing room with messages in hand for the Secretariat General, which he hands them to.**

**SECRETARIAT GENERAL**

**(speaking to his aide)**

**Thank you.**

**The Secretariat takes a moment to glance over the recent messages just placed in his hand.**

**SECRETARIAT GENERAL (CONT'D)**

**We have some very serious problems at hand.**

**U.N. AUSTRALIAN AMBASSADOR**

**Secretariat General. Our Prime Minister received an emergency call from the small nation of Ni-Vanuatu yesterday. The islands were invaded, and the entire population taken hostage. The President of Ni-Vanuatu claims the invaders were some kind of aliens which came from the ocean. The Ni-Vanuatu President passed on a message directly from these creatures indicating they seek Peace with humans and that Peace is crucial for their survival.**

**U.N. COSTA RICAN AMBASSADOR**

**Mr. Secretariat General. Costa Rica has a similar problem. Aerial flights over one of our Pacific islands shows photographic evidence of some strange life forms which have invaded and occupy Coco Island. We also received a report that possibly hundreds of our citizens were taken captive on the Puntarenas Peninsula on the Pacific Coast. A second report indicates that four of our peace officers and two civilians were killed during the invasion. Two of the survivors, one being the peace officer Captain is in one of our psychiatric wards being treated for severe psychosis. The second survivor is a fishing Captain, whose statement appears delusional. First he states the creatures seek peace and goes**

on to say, they ate a woman and spit out her skull.

**U.N. AMERICAN AMBASSADOR**

The United States has no reports of any unusual activity on any of its coasts. We have zero tolerance for any nation or terrorist group, including aliens. This problem isn't our problem until they land on our shores!

**U.N. CANADIAN AMBASSADOR**

I don't believe it's coincidence, but, yesterday one of our Canadian lobster boats picked up Captain Jethra Rama of the U.N. SSA1 which was destroyed on an oceanic exploration voyage almost a year ago.

**U.N. AMERICAN AMBASSADOR**

What? He's alive?

**U.N. CANADIAN AMBASSADOR**

He was returned alive with a message directly from the alien leader who seeks peace with humans and indicated that such a peace was critical to their species survival.

**U.N. CHINESE AMBASSADOR**

I have read the report of our observer Ah Quin who was also on that mission. He indicated that the only way to secure peace with these creatures would be to fight them until they were exterminated, even if it meant total suicidal mutual destruction or relinquish the ocean floor to their control as a peaceful co-existence gesture. May I ask, what is the suggestion here?

**U.N. BRAZILIAN AMBASSADOR**

We have had no reports of any unusual activity on our coasts, except that our fishing fleets are not catching any fish at all. The aliens could be the cause of this dilemma.

**U.N. SOUTH AFRICAN AMBASSADOR**

I agree. We have a severe world wide oceanic depletion of resources. There's nothing left. No fish!

**U.N. RUSSIAN AMBASSADOR**

The Russian salmon from the Far East are severely depleted. Do we have an estimate of just exactly how many of these alien colonies exist on Earth?

**U.N. EUROPEAN UNION AMBASSADOR**

We need more information on these creatures. Not just colonies, but how many are there? What are the weaknesses? What kind of weapons do they possess? And, what is the alien protocol to establish peaceful contact with some ground rules for peace without loss of human life?

**SECRETARIAT GENERAL**

Is it the suggestion of this conference that we attempt a second contact for peace with the alien life forms?

**U.N. CHINESE AMBASSADOR**

Not without some more information and help from the Utgardians, on just exactly what, when, how, and where these creatures came from, and their habits and requirements to establish some kind of peaceful co-existence. Without that information you going to have a hell of a time getting volunteers to make contact with those creatures, with respect to the information our observed provided.

**U.N. AUSTRALIAN AMBASSADOR**

I agree with our Chinese Ambassador on a need for more information. The report we received from the aliens indicated that human captives would be treated compassionately, but, we need first hand knowledge on their safety and just exactly these colonies exist.

The Secretariat General's Aide receives a fax, which he rips off from the machine and comes out into the Emergency Briefing Room and hands to the Secretariat General.

**SECRETARIAT GENERAL**

Gentlemen. In a few minutes, you are going to meet a newly appointed Utgardian Ambassador to Earth, whose is on his way this very minute from Kerguelen Island. The Utgardians have returned to Earth. They are going to take all of us with them on their return to Kerguelen Island, so that we may have a first hand look at their technology.

All of the U.N. Ambassadors become excited by the news and chat among themselves, with a somewhat relieved attitude towards the situation at hand.

**U.N. CANADIAN AMBASSADOR**

I motion, that we try to get as many of the survivors from the first exploration encounter to volunteer for a second mission, or at least provide briefing for the volunteers of a second exploration mission.

**U.N. AMERICAN AMBASSADOR**

I don't see much need for a second mission for peaceful contact with either humans or aliens that take hostages for the purpose of blackmailing us into a peace conference. We need to find out just exactly who the supreme alien leader is and take him out of the picture. Then, we can deal with a new leader. The reports from the first exploration mission clearly indicate these creatures bleed. And, if they bleed, then they die!

**U.N. RUSSIAN AMBASSADOR**

What about Jethra Rama? Was anyone killed when he was returned by the aliens? How did he survive the attack on his ship?

**U.N. CANADIAN AMBASSADOR**

Nope. Not a human! That is why I believe the aliens really want to establish peace. I

guess his encapsulated chair was thrown clear of the explosion but hidden by some of the debris. His life support readings malfunctioned and he was listed as dead.

**U.N. AUSTRALIAN AMBASSADOR**

I have a gut feeling these aliens are deceptive about peace. Our Costa Rican Ambassador was just appointed to the Security Council on the rotational basis. He wasn't versed in reviewing the exploration reports about these creatures using humans for food.

**U.N. COSTA RICAN AMBASSADOR**

You mean they really eat people?

**U.N. RUSSIAN AMBASSADOR**

You damn rights they do. And, they think we taste good! As far as we know, there is only one colony. The expeditionary mission data indicates the alien life forms provided information that they are everywhere. Now we're getting reports from the Pacific of alien invasions with thousands of warriors and human captives. This is a very bold move. We have to find out how to contain them or at least how many of these creatures we're dealing with.

**SECRETARIAT GENERAL**

The aliens have definitely made a desperate attempt at getting our attention by coming ashore and taking huge numbers of human captives. It is all we can do to keep these events out of the newspapers to avoid world wide panic. Half of the world population would have heart failure if they even knew about our Utgardian brothers and they are our allies!

**U.N. BRAZILIAN AMBASSADOR**

Why do the Utgardians call Neptune oot-guard?

**U.N. EUROPEAN UNION AMBASSADOR**

**They don't! We did! That is an ancient Scandinavian name for the outer planet. The Utgardians call themselves Jotuns.**

**U.N. BRAZILIAN AMBASSADOR**

**Okay. Then our Neptunian brothers are mislabeled Utgardians, who call themselves Jotuns. That makes sense coming from humans!**

**SECRETARIAT GENERAL**

**May I ask all of the translators to relocated to the Ambassador's Aide's room. Our new Ambassador from Utgard requires a special atmosphere for his extended visit for this meeting. Your room will accommodate this need of his.**

**The translators begin to pick up their personal belongings, along with cords, microphones, and documents.**

**They walk through the briefing room to the other glassed room which is filled with Ambassador's Aides.**

**U.N. RUSSIAN AMBASSADOR**

**Do you know how much longer it will be before our Utgardian Ambassador arrives?**

**SECRETARIAT GENERAL**

**Well, I do know he will be rushed right up here as soon as he arrives because of his need for a richer atmosphere of helium and hydrogen. He could walk in the door at any moment.**

**Just as the Secretariat General finishes his answer, the main door to the Emergency Briefing Room opens.**

**SIX UTGARDIAN'S enter the Secretariat's Emergency Briefing Room. They are in order of entrance, Ambassador MIDGARD-LOKI (mid-guard low-kee), CAPTAIN YMIR (ee-meer), SURT (sert), LOGI (lo-ghee), LAUFEY (lou-fee), and a female, ANGRBODA (anger-bod-da).**

**The Secretariat General's Aide opens the translator room door and gestures the Utgardians to enter the glass enclosed room. The Utgardians comply.**

Following behind the Utgardians, are some U.N. Maintenance Peace Keepers who bring in some large containers with gauges to create an adequate atmosphere for the new United Nations guests.

The U.N. Maintenance Peace Keepers enter the same room as the Utgardians and quickly hook up the atmospheric equipment.

A light mist can be seen through the glass by the U.N. Ambassadors, as it rises in the room. The Utgardians sit at the desks which were previously occupied by the U.N. Translators.

Midgard-Loki stands and speaks with the aide of his translator.

**MIDGARD-LOKI**

I have been appointed Ambassador by the Jotuns. I am Midgard-Loki.

The U.N. Ambassadors stand and applaud their new Ambassador and his introductory note.

**MIDGARD-LOKI (CONT'D)** On this planet, there are four highly intelligent species. Humans and the Light Elves of the upper world. And, Nidhøgg and the alien life forms who dwell in the oceanic seas. On our return to Kerguelen Island, each of you will meet two of these species, the Nidhøgg and the light elves.

The U.N. Ambassadors turn to each other confused by what the Utgardian is saying.

**U.N. AMERICAN AMBASSADOR**

(interrupting)

Excuse me. Would you please explain what you are saying? Are you suggesting that the human race is not the dominant species of Earth?

**MIDGARD-LOKI**

Humans are the most populous of the species. Intelligence is measured by both environmental factors and electromagnetic frequency thought analysis.

**U.N. AUSTRALIAN AMBASSADOR**

(interjecting)

What is a Nidhøgg?

**MIDGARD-LOKI**

**Nidhøgg is the largest species of wolf eel. The same species you call sea serpent or mistakenly call, Kraken. It is the species which has been enslaved by the alien life forms to act as biological troop carriers. Much like human submarines.**

**U.N. CANADIAN AMBASSADOR**

**How did you measure their intelligence?**

**MIDGARD-LOKI**

**Eons ago, the Nidhøgg were near extinction. We communicated with them and saved their species by relocating them to Utgard where they could multiply. Unknown to us, the alien life forms deciphered our data and came here, where it was their belief that they were the dominant species. They have bred them in captivity, where they have multiplied to meet the alien demands for their services.**

**U.N. CANADIAN AMBASSADOR**

**(confused)**

**I'm not sure how that answers my question?**

**MIDGARD-LOKI**

**Humans at the time of our data, were an experiment and hybrid species of genetic engineering. There was insufficient data to designate the human species as the dominant species of this planet.**

**U.N. BRAZILIAN AMBASSADOR**

**Are you saying your species created humans?**

**MIDGARD-LOKI**

**No.**

**U.N. CHINESE AMBASSADOR**

**Who or what are the Light Elves and where do these creatures dwell? I have heard of them in mythological stories, but no human has ever seen one.**

**MIDGARD-LOKI**

Their numbers are few. They dwell in the Northern polar lands. The Light Elves escaped to Midgard by using the Rainbow bridge which once existed and called, Bifrost.

**U.N. COSTA RICAN AMBASSADOR**

Where is Midgard? Isn't that part of your name?

**U.N. EUROPEAN UNION AMBASSADOR**

This is an ancient Scandinavian name which translates middle planet and another name for our planet.

**MIDGARD-LOKI**

That is correct. The planet you now call Earth, is identified by Jotuns and Asgardians as Midgard.

**U.N. AMERICAN AMBASSADOR**

(sarcastically)

When I was a young man. I'd never seen an Utgardian, Jotuns, Aliens, Asgardians, Krakens, Nidhøgg, or little Light Elves. Now why is it, that once the Jotuns appear on Earth, we have all these other species, which I had never seen? And, if these creatures have reproduced and expanded to other parts of the world, where they believe they can invade with impunity, the U.S. is going to have to go on some kind of alert. We need more information.

**MIDGARD-LOKI**

When the Light Elves arrived here through the Rainbow Bridge, they observed an unusual change. Other than under special circumstances, through light refraction, where you may see a momentary shadow, they are invisible in Earth's light spectrum. But, they exist and are humanoid in form and shape, only smaller.

**U.N. CHINESE AMBASSADOR**

Okay. I can handle that explanation on the Light Elves and why we can't see them. So, where did they come from?

**MIDGARD-LOKI**

Genetically engineered from Asgard.

**U.N. AUSTRALIAN AMBASSADOR**

Asgard and Asgardians are Scandinavian mythological gods, aren't they?

**MIDGARD-LOKI**

Asgard was the 5th planet which was destroyed. The remains of Asgard, you now call your Asteroid Belt just beyond the planet Mars.

**U.N. SOUTH AFRICAN AMBASSADOR**

Is Asgard the planet where the alien life forms are from?

**MIDGARD-LOKI**

No. They create paradox and are dangerous to both of our species.

**U.N. RUSSIAN AMBASSADOR**

What do you mean by paradox?

The Utgardians look at each other then nod affirmatively at Midgard-Loki to explain.

**MIDGARD-LOKI**

Our solar system as we now know it has three futures. Two futures have no hope. The third future is confusing but, there is hope. We have prepared a four future for both of our species and Nidhøgg.

**U.N. AUSTRALIAN AMBASSADOR**

Midgard-Loki. I am a bit confused! Could you be a little more specific on just exactly what the hell your trying to tell us?

**MIDGARD-LOKI**

There is a natural destiny and future for each planet with its own species, time, position, and space continuum. When this is altered, then depending on what changes

are implemented to avoid a destiny and future, can then, change that destiny into another future. We have looked into the future. Two destinies have no hope. Earth will be destroyed. The third destiny, Earth will be replaced. And, the fourth destiny which we plan to create, will be relocation of the human and other species to a new galaxy with no regard to any of the Earth's three potential destinies and futures.

**U.N. RUSSIAN AMBASSADOR**

So, our destiny and future depends on how we decide on what to do about the alien life forms? Is that correct? And, how can we find out how many of these alien life forms are now on the Earth?

**MIDGARD-LOKI**

Yes. Earth future involves the alien life forms. We aren't sure how many alien life forms or colonies now exist on Midgard. We have sent out our Nidhøgg allies to scout all of the alien oceanic colonies. We will meet with them on Kerguelen Island soon!

**U.N. COSTA RICAN AMBASSADOR**

You call the third destiny confusing! Why?

**MIDGARD-LOKI**

Because, in that destiny, there are ancient Asgardian Warriors whom reappear and that is not genetically possible. Therefore, confusing because if true creates the potential of a fourth destiny of hope.

**U.N. COSTA RICAN AMBASSADOR**

If that destiny is a potential fact, then it must be genetically possible or your data is in error.

**MIDGARD-LOKI**

The Jotuns took extreme precautions to assure no Asgardian genetic warrior genes would be capable of dominance in the human hybrids. Therefore, they do not

exist. And, if they do not exist, it can not be possible. There is no error in our data. But, there may be an error in our interpretation of the third destiny, which causes confusion. So we have taken precautions and have prepared a fourth destiny to assure survival for the human and many of Midgard's species.

**U.N. AUSTRALIAN AMBASSADOR**

If there is no hope in two of our destinies. And, the Earth is replaced in the third destiny. What purpose will it serve for Jotuns and mankind to establish peace with the alien life forms?

**MIDGARD-LOKI**

In the third destiny, where Midgard is replaced with a new Earth. If this happens Jotuns are preparing for repopulating of Earth's species. Utgard will be saved from destruction. The yggdrasil of Utgard will be maintained, with planetary replacement. Peace with the aliens affords time. Time is needed for the creation of a destiny with hope.

**U.N. SOUTH AFRICAN AMBASSADOR**

What you're saying is that the Earth as we know it, is going to be destroyed! This is unacceptable! And, why is that one Utgardian, I mean Jotun darker than the rest of you?

**MIDGARD-LOKI**

(smiling)

Excuse me. I have not introduced the Jotuns. The one you speak of is, Surt. He lives near much heat, and therefore his skin is of a darker color. Similar to human's who live in the equatorial regions of the Earth. Surt will return to Jotun and Captain the Starkadhr which is responsible for evacuation for the fourth destiny. Next to him, is Captain Ymir whose mission is here on Midgard. He will return in the Jotun vessel Nagelfar. The female is Angrboda

our research scientist. And, next to her are Jotun officers of the fleet, Logi, and Laufey.

Each of the Utgardians stand as their name is called and make a nod with their head, then take their seats.

**SECRETARIAT GENERAL**

Is it possible, for a fifth destiny where humans and aliens live a peaceful co-existence here on Earth?

**MIDGARD-LOKI**

Yes. But, it is not an acceptable destiny for humanoids or other species of Midgard and is a limited destiny lasting only until extinction.

**SECRETARIAT GENERAL**

The extinction of humans or the extinction of aliens?

**MIDGARD-LOKI**

The aliens are in possession of a Jotun Star Blaster, which can completely destroy Midgard and disrupt the solar system's yggdrasil energy field. The weapon was installed on the spacecraft they seized. We are not sure if the weapon is functional. Their present weaponry does not contain our technology.

**SECRETARIAT GENERAL**

What kind of technology does their weaponry and species use or consist of?

**MIDGARD-LOKI**

Multi-ionized molecular quartz light spectrum analytical-memory transfer systems. Their technology is not superior to our own, except for the Jotun Star Blaster. And, we must presume that it is functional.

**U.N. EUROPEAN UNION AMBASSADOR**

So, their basic weaponry is some kind of laser beam weapons. Is there a way to deactivate or make this super weapon inoperable?

**MIDGARD-LOKI**

Yes. Prior to our arrival here, we left instructions on Kerguelen Island with the U.N. Peacekeepers for locating and destruction of the weapon.

**SECRETARIAT GENERAL**

Then, under these circumstances there has to be a multipurpose second expeditionary mission to make contact with the alien life forms, in name of peace and our own survival, correct?

**MIDGARD-LOKI**

Correct. As long as the aliens believe they are not being attacked in a suicidal total mutual mass destructive war, they will not use, the Jotun Star Blaster. For the sake of time, if warfare is used by humans, then warfare must be restricted to a limited scale.

Captain Ymir stands up and walks over to Midgard-Loki where the two council for a moment.

**MIDGARD-LOKI (CONT'D)**

Captain Ymir has a request. He shall speak.

**CAPTAIN YMIR**

It is my request for your governments to provide the services of those who survived the first encounter with the aliens. Their names are Zuver, McKenzie, Quin, Zhukov, Collins, Dundee, Sherman, Samford, Taylor, Laffiette, Putin, Carcha, Kalinski, and Rama.

**MIDGARD-LOKI**

Their wisdom is going to be needed to teach others what to do and what not to do in the presence of these creatures. And, if necessary how to protect themselves.

**U.N. AMERICAN AMBASSADOR**

Zuver? You want Zuver? He defected to Canada after a warrant was issued for his arrest! We want him!

**U.N. CANADIAN AMBASSADOR**

**Chill out, Yank! He saved three Canadian lives and an Utgardian child. Not to mention, he married the girl and has a very happy life! And, he left before the warrant was issued. He's our Canadian hero!**

**U.N. CHINESE AMBASSADOR**

**(laughing sarcastically)**

**Never ending American laws and national paranoia! Eight million of your citizens behind the razor wires of your super-max concentration camps and you whine because one got away! Sometimes Americans make me wonder if the Chinese shouldn't become allies with the aliens by offering to stay neutral, while they eat American humans for dinner and leave us alone!**

**U.N. AUSTRALIAN AMBASSADOR**

**(chuckling)**

**Well, if feeding these monsters can save humans, we can always offer them some of our 'Roo stew! It's my opinion, their numbers are not that large. They can't have many biological troop serpents because we have recorded only one official instance, as provided by the Canadians. If the new accounts of the alien invasions are correct, we are looking at possibly hundreds of the serpents, which limits the amount of warriors our military will have to deal with.**

**U.N. CANADIAN AMBASSADOR**

**(sarcastically)**

**It wouldn't surprise me if the Yanks offered the aliens all of their prisoners for dinner in exchange for peace.**

**U.N. AMERICAN AMBASSADOR**

**(snickering)**

**Actually that's not a bad idea, but it might cost us too many jobs for correctional officers. On the other hand, we can increase the quota for arrests of undesirables and make new classification standards. Or, turn over the bodies of the**

three strikers when their dead in their cells.  
In all seriousness, I agree with the  
Australian ambassador. Our military can  
handle this and our satellites should be  
able to pinpoint any underwater alien cities.  
Those orders will go out today! We need  
more information.

**U.N. EUROPEAN UNION AMBASSADOR**

I don't find any humor in these American  
jokes, when there are still human captives  
that need to be rescued.

**U.N. RUSSIAN AMBASSADOR**

I agree! Let's get serious! We represent  
nations of peoples, not fanaticism and sick  
humor.

**U.N. COSTA RICAN AMBASSADOR**

I have one more question of Midgard-Loki.  
You plan on evacuating humans for the  
fourth destiny. When, who, and where?

Surt stands up and answers the question for Midgard-Loki.

**SURT**

I will immediately return to Jotunheim to  
take command of Starkadhr, which is the  
largest and most powerful vessel in our  
fleet. We will make as many evacuation  
trips as time allows. We have selected the  
first humans for evacuation from the two  
nations of this world which have no need  
for an army or weapons and live in Peace.  
The nations of Iceland and Costa Rica.  
Human selections from other nations will  
follow. Our destination is here! Captain  
Ymir will return from Jotunheim in a smaller  
craft named Nagelfar.

Surt points up at the huge monitor behind him, which suddenly comes to  
life with an image of strange solar system with five planets. The monitor  
zooms in on the second planet, which is very earthlike, and has a moon like  
the earth, but is larger and a further distance away from the planet.

**SECRETARIAT GENERAL**

**Captain Ymir we will try to meet your request for the services of these people. Midgard-Loki we will have your accommodations ready by the time we reach Kerguelen Island, so that you may remain here on Earth. Our Kerguelen United Nations facilities have been completed. All future U.N. activities will be transferring their offices to the island by next week. Meetings will be resumed there.**

**Captain Ymir and Midgard-Loki nod affirmatively.**

**CAPTAIN YMIR**

**Thank You. Our space craft has landed on the roof of this building. Everyone should prepare to proceed there.**

**All of the United Nations Ambassadors get up from their chairs. The door opens from the Ambassador's Aide room and the aides and translators mix with their respective ambassadors. The U.S. Ambassador quietly talks to his aide.**

**U.N. AMERICAN AMBASSADOR**

**Get the President on the red line. Let him know I am going to the Kerguelen Islands. As soon as I can get some more information, he'll be notified immediately. Let him know, that there are some really strange events going on around the world and our military should be put on immediate red alert. Especially Naval and Coast guard forces. It is my counsel to get every world wide American military vessel back to our shores immediately! Get a copy of this meetings transcript to him as soon as possible.**

**U.S. AMERICAN AIDE**

**Yes, sir!**

**CUT TO:**

**EXT. NEW YORK UNITED NATIONS ROOFTOP -- MOMENTS LATER**

**The Jotun spacecraft with its ramp extended and door open is centrally positioned on the rooftop of the New York City United Nations Building.**

The Jotuns lead the procession of humans on board. The hatch closes.

**DISSOLVE TO:**

**EXT. CITY STREET - HONG KONG, CHINA -- DAY**

**(AH QUIN, GIRL FRIEND, HONG KONG POLICEMAN)**

AH QUIN is walking with a new GIRL FRIEND whose gleefully hanging onto his arm as they window shop along one of Hong Kong's nicer district streets.

A Hong Kong POLICEMAN sees Ah Quin and immediately races towards him shouting frantically.

**HONG KONG POLICEMAN**

Ah Quin! Stop! You must come with me!

The policeman grabs his arm. Ah Quin jerks away. His girl friend fearfully stands by his side.

**AH QUIN**

What the hell is this all about? I haven't done anything illegal!

**GIRL FRIEND**

We've done nothing wrong. It's not against the law to hold hands and kiss in public.

**HONG KONG POLICEMAN**

China needs your immediate assistance to represent us as a United Nations Observer. Our orders are to find you and bring you in to catch your flight.

**AH QUIN**

(loudly resistive)

Oh.....NO! I've been there and done that shit before!

**EXT. HARBOR CENTER - VANCOUVER, BRITISH COLUMBIA CANADA -- MORNING**

**(ALVAH ZUVER, KOKO ZUVER, R.C.M.P.)**

A ROYAL CANADIAN MOUNTED POLICEMAN walks up to ALVAH and KOKO ZUVER, as they are just about to enter the Harbor Center. Alvah's is hold his daughter in his arms.

**R.C.M.P.**  
**Alvah Zuver, I presume?**  
**ALVAH ZUVER**  
**Yes?**

**R.C.M.P.**  
**We'd just stopped by your house, when your neighbor told us you'd just left with your wife to go shopping here. We have an emergency request from the United Nations High Command for you and your wife's services.**

**The Royal Canadian Mounted Police hands Zuver an envelope. Zuver, hands it to his wife to read.**

**KOKO ZUVER**  
**We've been reactivated for U.N. Peace Keeping duty and were to leave immediately for Kerguelen Island.**

**ALVAH ZUVER**  
**We're not going anywhere with a baby.**

**R.C.M.P.**  
**Read the fine print to him Mrs. Zuver.**

**KOKO ZUVER**  
**If you don't agree, the United States will seek extradition for your return and the R.C.M.P. are instructed to take you into custody. Here's your airline tickets for tomorrow night.**

**ALVAH ZUVER**  
**This is blackmail!**

**R.C.M.P.**  
**That's Canada! Have a nice flight and a good day!**

**The Royal Canadian Mounted Police walks away with a smile, unaware of the extreme dangers facing both the world and the Zuvers.**

**INT. KELTON MCKENZIE'S BEDROOM - VANCOUVER, CANADA --  
EVENING**

**(BABES, GIRL FRIEND, KELTON MCKENZIE, R.C.M.P.-1,2, and 3)**

**KELTON MCKENZIE is laying on his back, smoking a marijuana cigarette, as his ASIAN GIRLFRIEND, BABES straddles him in a romantic ritual of love. Her petite breasts rock with the rhythm that she has set.**

**Two glasses of wine and a half filled bottle sit on the night stand. The telephone is off the hook.**

**BABES**

**Oh.....Kelton, you feel sooo good inside of me!**

**Kelton laying on his back, reaches over grabs what appears to be a cigarette smoldering in the ashtray and takes another toke off his marijuana cigarette.**

**KELTON MCKENZIE**

**Babes, just keep going! You're doing just fine.**

**A loud banging continuous knocking on the door of his apartment begins. Kelton and his sweetheart ignore it.**

**R.C.M.P.-1 (O.S.)**

**Kelton McKenzie, we know you're in there!  
Now open the door!**

**R.C.M.P.-2 (O.S.)**

**McKenzie this is the Royal Canadian Mounted Police. Now come on out!**

**R.C.M.P.-3 (O.S.)**

**McKenzie, we saw a young Asian woman come into your apartment this morning. We were just waiting for her to leave, so we could serve you with an emergency order. No one has left this apartment so we know your in there!**

**Kelton McKenzie's girl friend arches down and kisses him deeply as he wraps his arms around her in a tight embrace.**

**The banging on the door continues.**

**Kelton reaches over and grabs another toke, as his girlfriend changes to another position, which he likes.**

**KELTON MCKENZIE**

Oh, yea.....Ohh....yeaaa....!

**R.C.M.P.-1 (O.S.)**

Kelton, we're going to have to break the door down to serve you this order if you don't open this door immediately.

The banging on the door continues and so do Kelton and his girlfriend, when all of a sudden, a loud door bashing begins.

**THREE ROYAL CANADIAN MOUNTED POLICE** walk into the bedroom.

**KELTON MCKENZIE**

(irritated)

Who the fuck do you think you are? Get the hell out of my apartment! All three of you...Out of here! Me and babes have our private day today! Now get the hell out of here!

Two of the officers stare in amusement, with lust, while the third tries to hold his composure and professionalism by walking up and dropping an envelope on McKenzie's chest.

Kelton's girlfriend slides down to lay her head in one of his arms.

**R.C.M.P.-1**

That is an emergency order from the United Nations High Command. Our orders are to deliver it to you personally no matter where you are or what you're doing. Your flight leaves tomorrow. Make sure you're on it.

McKenzie looks down at the envelope with a bewildered expression and takes hold of it with his free arm.

**BABES**

Oh, can I come too?

The three officers turn and slowly walk out of the bedroom. Two of them are laughing, while making some innuendo remarks.

**R.C.M.P.-2**

Damn, I guess I wouldn't of opened the door either, if I had a delicious looking woman like that to occupy my time!

**RCMP 3 using a falsetto voice.**

**R.C.M.P.-3**  
**(laughing loudly)**  
**Oh...can I come too? I'll bet she comes!**

**R.C.M.P.-2**  
**(laughing)**  
**I think with a beauty like her, anyone would come. The smell of the refreshments don't smell bad either.**

**R.C.M.P.-1**  
**Come on you guys, we invaded his privacy! Show a little courtesy, okay? Do you really think any of us would open the door with a woman like that straddling our ass? Hell no! I'd be pissed off too!**

**EXT. KELTON MCKENZIE'S APARTMENT - VANCOUVER, CANADA -- CONTINUOUS**

**(BABES, KELTON MCKENZIE)**

**The three Royal Canadian Mounted Police are just exiting the front door of Kelton McKenzie's apartment. They overhear hear remarks being made from McKenzie which makes them all laugh again.**

**KELTON MCKENZIE (O.S.)**  
**(firmly, then sweet)**  
**Make sure you dumb asses close the door!**  
**Yea, Babes you can come with me!**

**BABES (O.S.)**  
**(sweetly)**  
**Oh! I knew you wanted me! I get to come!**

**INT. SERGI ZHUKOV'S HOUSE - MOSCOW, RUSSIA -- EVENING**

**(SERGI'S WIFE, SERGI ZHUKOV, YOUNG RUSSIAN WOMAN 1, YOUNG RUSSIAN WOMAN 2)**

**SERGI ZHUKOV and his WIFE are sitting by the fire. He is reading a newspaper, while his wife is knitting a sweater.**

**The sound of a car pulling up into his driveway, can be heard from outside.**

**SERGI'S WIFE**

It sounds like we're going to have company.

**SERGI ZHUKOV**

I could enjoy some friendly conversation. I wonder who it is?

A knock on the door comes, just as Sergi stands up to see who has come up the driveway.

Sergi answers the door. TWO well dressed YOUNG WOMEN with beautiful fur caps are standing there with an envelope.

**YOUNG RUSSIAN WOMAN 1**

(questioningly)

Mr. Sergi Zhukov?

**SERGI ZHUKOV**

Yes.

The second young woman hands him an envelope.

**YOUNG RUSSIAN WOMAN 2**

This is an emergency order from the United Nations High Command.

Sergi looks very concerned, as he opens the letter.

**YOUNG RUSSIAN WOMAN 1**

We are to escort you to the airport immediately. The plane leaves for the Kerguelen Islands in four hours.

**SERGI ZHUKOV**

I knew a day like this would come. It's just a little sooner than I expected.

**EXT. EASTERN AUSTRALIAN HIGH COMMAND HEADQUARTERS -- DAY**

**(GENERAL BORSSON, STAFF SERGEANT MCGREGOR)**

**GENERAL BORSSON** is just returning to his office with his **AIDE, STAFF SERGEANT MCGREGOR**. General Borsson salutes a **COUPLE of OFFICERS** who are just exiting the building as he's entering.

**INT. EASTERN AUSTRALIAN HIGH COMMAND HEADQUARTERS -- MOMENTS LATER**

**(GENERAL BORSSON, STAFF SERGEANT MCGREGOR)**

**General Borsson and Staff Sergeant McGregor are walking down the long corridor to the General's Office.**

**GENERAL BORSSON**

**McGregor, how would you like a transfer and come with me to Kerguelen Island?**

**STAFF SERGEANT MCGREGOR**

**Sir, I didn't know you were being transferred! Would I be able to take my family?**

**GENERAL BORSSON**

**You have about six hours to get them ready. If there isn't enlisted family housing, there will be when I get there. I've been appointed U.N. Executive Officer of the island.**

**STAFF SERGEANT MCGREGOR**

**Yes, sir! We'll be ready! Why didn't you tell me earlier?**

**GENERAL BORSSON**

**I just got the U.N. emergency orders this morning as I was leaving home. They want me to command some kind of secret expeditionary mission.**

**STAFF SERGEANT MCGREGOR**

**Does your transfer have anything to do with those rumors floating around about Ni-Vanuatu and some kind of invasion?**

**GENERAL BORSSON**

**Probably. Since we're on that topic, get me all of the most recent aerial photos of the islands. Also, I want all reports on my desk before we take off. And, issue an order for my signature to zoom in on any activity or invasion troops occupying the island. I don't know if I believe in aliens, but those islands would be very strategic for China's naval armada. I want to see for myself. Have them fax me those photos to U.N. Kerguelen High Command Headquarters.**

**STAFF SERGEANT MCGREGOR**

Yes, sir. I will have the order drawn up for signature immediately.

**GENERAL BORSSON**

Fine. Once those issues are taken care of. Take the rest of today and get your family ready to go.

**STAFF SERGEANT MCGREGOR**

Yes, sir!

The General and his aide stop in the hallway, open the door to their office and walk in.

**INT. VANCOUVER INTERNATIONAL AIRPORT -- EVENING**

**(ALVAH ZUVER, BABES, KOKO ZUVER, KELTON MCKENZIE, PUBLIC ADDRESS SYSTEM)**

Alvah Zuver, his wife and child are sitting in the boarding lounge for the international flight, when Kelton McKenzie and his Asian girlfriend, Babes appear standing right in front of them. Alvah stands up to shake Kelton's hand.

**KELTON MCKENZIE**

(half snicker, laughing)

I'll be damned, if it isn't Zuver and Kalinski!  
Hey, cute kid! So you volunteered too, huh?

**ALVAH ZUVER**

It's good to see you Kelton. I was volunteered by Canada. To change the subject, are you married now?

**BABES**

He asked me to marry him today!

**KELTON MCKENZIE**

Soon! Something's different about you Zuver. Oh...you don't smell like cigarettes.

The women are talking simultaneously with the men.

**KOKO ZUVER**

Congratulations. I'm Koko.

**BABES**

You can just call me, Babes.

**KOKO ZUVER**

Okay.

**ALVAH ZUVER**

I had to give them up. We have a little girl now and Koko doesn't like smoke in the house.

**KELTON MCKENZIE**

(laughing)

So, the little girl's your boss now huh?

**ALVAH ZUVER**

(irritated)

Knock off the wise cracks, you blackmailing Canadian shithead.

The public address system announces their flight.

**PUBLIC ADDRESS SYSTEM (V.O.)**

Flight 1375 Canadian Airlines is now boarding. Please have your tickets ready.

The couples line up with the rest of the passengers to board, still talking along the way.

**KELTON MCKENZIE**

Well, here we go again! Alvah, you don't know what this is all about do you?

**ALVAH ZUVER**

Instinct tells me, it isn't good, whatever it's about!

**KELTON MCKENZIE**

Yea, I got the same feeling. That's why I decided to get married and take Babes with me. I did all the observing I needed to observe last time.

**ALVAH ZUVER**

Unless something drastically has changed, I'm not too enthused about second encounters of the fourth kind either.

**CUT TO:**

**EXT. PORT-AUX-FRANCE, KERGUELEN ISLAND -- MORNING**

Port-aux-France is a small city of newly constructed United Nations high rise buildings with nicely paved boulevards. The landscape surrounding the city is a barren mountainous grasslands.

The United Nations Peacekeeping Rapid Deployment Airport stands out as an extension of the small city.

Commercial airliners and Military aircraft of all kinds are landing and taking off.

U.N. PEACEKEEPERS with national flag patches of many nations are seen scurrying about the airport, as both INDIVIDUAL PEACEKEEPERS and SQUADRONS of INDIVIDUALS are engaging in their duties, routines, and work.

WIDE ANGLE CAMERA on a commercial airliner, with AIR CANADA painted in large letters which is being taxied over to the new disembarkation building.

**INT. KERGUELEN UNITED NATIONS RAPID DEPLOYMENT AIRPORT  
DISEMBARKATION BUILDING -- MORNING**

(AH QUIN, ALVAH ZUVER, BABES, CAPTAIN COLLINS, KOKO ZUVER, KELTON MCKENZIE, LIEUTENANT DUNDEE, LIEUTENANT PUTIN, SERGEANT CARCHA, SERGEANT LAFFIETTE, SERGEANT SAMFORD, SERGEANT SHERMAN, WARRANT OFFICER Taylor)

Official U.N. PEACEKEEPER ESCORTS and GREETERS escorts and greeters are stationed by the airport disembarkation exits which are coming from the newly arriving aircraft.

CAPTAIN COLLINS, LIEUTENANT DUNDEE, LIEUTENANT PUTIN, WARRANT OFFICER Taylor, SERGEANT LAFFIETTE, SERGEANT SHERMAN, SERGEANT CARCHA, and SERGEANT SAMFORD are all excitedly waiting for the arrival of this airliner from Canada, as the surprise official greeters for Kelton Mckenzie, his girlfriend, Babes, Alvah and Koko Zuver and their baby.

CAMERA ON the passengers coming through the exit door into the Airport Disembarkation Lobby.

Kelton McKenzie, his girlfriend Babes, and the Zuvers exit as a small group surrounded by other passengers, including Ah Quin who is just in front of them, and came on board unknown to the others when the aircraft stopped in Hong Kong. All have carry on luggage.

**CAPTAIN COLLINS**  
Quin, McKenzie, Zuver, over here!

Everyone begins handshaking and looking over the new baby.

**AH QUIN**  
I never expected to any of you again. How are you doing Lieutenant?

**CAPTAIN COLLINS**  
It's Captain now! I was promoted. In fact, every survivor of the first expeditionary was promoted in some way, if they stayed on.

**AH QUIN**  
Congratulations. Ah...Zuver! I heard you'd gone to Canada and got married.

**ALVAH ZUVER**  
It's good to see you again Ah Quin. I believe you remember my wife Koko and this is our little daughter, Dorothy.

Simultaneously Captain Collins is greeting Kelton McKenzie and his girlfriend, Babes.

**CAPTAIN COLLINS**  
Kelton! Is this your new wife? We have you down as single and assigned to the barracks.

**KELTON MCKENZIE**  
She's going to be and I wasn't coming with out her. Babes, this is Captain Collins.

**BABES**  
It's nice to meet you.

**CAPTAIN COLLINS**  
It's nice to meet you too. Under these circumstances, we'll have you reassigned to housing.

**AH QUIN**  
You mean I could have brought my girlfriend?

**CAPTAIN COLLINS**

**There's no law against it. I guess so!**

**AH QUIN**

**Where's a telephone? You can put me  
down for housing to!**

**Lieutenant Dundee starts to laugh and points over to a telephone section of  
the airport.**

**LIEUTENANT DUNDEE**

**The telephone is right over there.**

**AH QUIN**

**Thanks.**

**Ah Quin leaves the group and walks over to make a telephone call.**

**Warrant Officer Taylor who has Sergeant Carcha standing by his side,  
turns to Captain Collins.**

**WARRANT OFFICER TAYLOR**

**Captain Collins, Sergeant Carcha and I have  
to go over and greet the new arrivals from  
Central and South America.**

**CAPTAIN COLLINS That's  
fine. Remember briefing for everyone will  
be tonight at six o'clock just after dinner  
hour.**

**SERGEANT CARCHA**

**I will remind him, Captain.**

**The three salute. Warrant Officer Taylor and Sergeant Carcha take leave of  
the group and head for another disembarkation Lobby.**

**ALVAH ZUVER**

**So, Captain what's this all about?**

**CAPTAIN COLLINS**

**The rumor is we're going on a second  
expeditionary mission. Captain Rama was  
found alive. He brought back a message of  
peace and for new contact with us from the  
alien leader himself.**

**KELTON MCKENZIE**

**What?**

**LIEUTENANT PUTIN** There's more! A new General from Australia, name **GENERAL BORSSON** is also coming in today. He's taking over the U.N. High Command Peace Keeping Rapid Deployment Forces.

**SERGEANT LAFFIETTE**  
And, I am the official greeter of a new U.N. Observer from the United States whose also arriving this afternoon. A Larry Zervos. Captain Jethra Rama is on board too. He's coming from the United States. U.S. authorities wanted to debrief him before he came to Kerguelen Island.

**ALVAH ZUVER**  
Zervos? This is going to be a homecoming!

**KOKO ZUVER**  
Why? Do you know him?

**ALVAH ZUVER**  
Yea. Yea, I know him. I know him too well. If you think I used to be a fanatical American. Wait until you meet this guy!

**CAPTAIN COLLINS**  
A bunch of us are going to greet Captain Rama when he arrives, so if you and Kelton want to join the greeting party. You're welcome to.

**KELTON MCKENZIE**  
Jethra Rama lived a year with the aliens. Damn. Yea, I'd like to sit down and talk to him. I'll be there.

**SERGEANT SAMFORD**  
Captain Collins, it's time Lieutenant Putin and I greet the new peace keepers from the European Union. Mr. Sergi Zhukov is on board with them.

**KELTON MCKENZIE**  
Oh, old Zhukov is coming back too, huh? The whole gang is going to be here!

**CAPTAIN COLLINS**

It was the Utgardian request of the U.N.  
Secretariat General. Putin, you and  
Samford can take leave now.

The three salute. Lieutenant Putin and Sergeant Samford head down the  
airline corridor to a new disembarkation lobby.

**SERGEANT SHERMAN**

Captain, it's about time that Lieutenant  
Dundee and myself greet the peacekeepers  
from coming from Africa.

Ah Quin comes back from his phone call.

**AH QUIN**

Captain Collins, my girlfriend is on the next  
flight. Her name is MAI HER. Would you  
see to it, she is escorted to my quarters  
when she arrives.

**CAPTAIN COLLINS**

No problem. No problem at all. I will  
personally escort her.

**AH QUIN**

Thank you.

**CUT TO:**

**INT. KERGUELEN UNITED NATIONS RAPID DEPLOYMENT AIRPORT  
DISEMBARKATION BUILDING -- CONTINUOUS**

**(ALBERTO LEIVO, JOSE MCFIGUERES FERRER, MAGNI LEIVO, MAGNI  
LEIVO - ESPANOLA, SERGEANT CARCHA, VANESSA FERRER, VANESSA  
FERRER - ESPANOLA, WARRANT OFFICER Taylor, WARRANT OFFICER  
Taylor - ESPANOLA)**

A Costa Rican Airlines plane can be seen through the window of the  
disembarkation building just being taxied to the passenger disembarkation  
ramp leading to the building.

Warrant Officer Taylor and Sergeant Carcha are standing by the exit door  
of the disembarkation lobby.

**TWO MEN with their FAMILIES and FIVE SINGLE YOUNG FEMALES come  
off board the aircraft and into the lobby from the disembarkation exit door.**

**Sergeant Carcha is holding a roster sheet and begins to announce names.**

**SERGEANT CARCHA**

**Captain Jose Ferrer, Nellie Campos, Astrid Britton, Emily Fischel, Vanessa Ferrer Cruz, Ms. Scarlett, Mr. Martinez, and Alberto Leivo if you would please come over here, we will escort you to your quarters. This is Warrant Officer Taylor and I am Sergeant Carcha. You have been assigned to our crew. The United Nations Peacekeeper use the English language as the official language of communications.**

**Jose McFigueres Ferrer leads his family and the rest of the group over to Warrant Officer Taylor and Sergeant Carcha. Warrant Officer Taylor shakes Mr. Ferrer's hand. Jose casually notices that Warrant Officer Taylor is missing an arm.**

**WARRANT OFFICER TAYLOR**

**You must be Captain Ferrer? I am Warrant Officer Taylor.**

**JOSE MCFIGUERES FERRER**

**Yes, I am Jose Ferrer. This is my wife, Maria and my daughter Vanessa Ferrer. My apologies in that except for myself, my family only speaks Spanish.**

**WARRANT OFFICER TAYLOR**

**It is nice to meet you.**

**WARRANT OFFICER TAYLOR - ESPANOLA**

**Es bueno conocerte.**

**Warrant Officer Taylor turns to MR. ALBERTO LEIVO and his family.**

**WARRANT OFFICER TAYLOR**

**And, you must be Mr. Alberto Leivo.**

**ALBERTO LEIVO**

**Yes, I am. This is my wife Elizabeth and my son, Magni. Like Mr. Ferrer's family, my wife doesn't speak English very well. But, my son has taken English in school, with good marks!**

**WARRANT OFFICER TAYLOR**

**It is nice to meet you two!**

**WARRANT OFFICER TAYLOR - ESPANOLA**

**El placer es para mi!**

**His wife Elizabeth nods, while the young man extends his hand to shake in greeting.**

**Jose Ferrer's daughter Vanessa Ferrer looks shocked when she notices that Mr. Lievo's son, is the very same young man, whom she'd met on a school field trip. The young man turns and smiles at her. Vanessa Ferrer walks right up to him.**

**VANESSA FERRER**

**(surprised)**

**You've cut your hair! Why did you cut your hair? I didn't recognize you!**

**VANESSA FERRER - ESPANOLA**

**(sorprendida)**

**Te cortaste el cabello! Porque lo hiciste?  
No te reconocí!**

**MAGNI LEIVO**

**Yes. My father requested me to cut my hair before we left Costa Rica.**

**MAGNI LEIVO - ESPANOLA**

**Si. Mi papa me exigio que me lo cortara antes de irnos de Costa Rica.**

**VANESSA FERRER**

**(bewildered, whispering)**

**Why, I loved your long hair? Did you tell your father what we saw up at the lake?**

**VANESSA FERRER - ESPANOLA**

**(Desorientado, susurrante)**

**Porque, Yo amaba tu cabello largo? No le dijiste a tu papa de lo que vimos en el lago?**

**MAGNI LEIVO**

**(quietly)**

**Why? Because he is my father and I respect him. My Father didn't believe me, when I told him, what we had seen.**

**MAGNI LEIVO - ESPANOLA**

(silenciosamente)  
Porque? Porque el es mi padre y yo lo respeto. Mi papa no me creyo, cuando le conte, de lo que vimos.

**VANESSA FERRER**  
(very softly, sad)  
Neither did my father.

**VANESSA FERRER - ESPANOLA**  
(muy silenciosamente, cansada)  
Ninguno de Los dos padres.

The two young adults smile at each other with the eyes of young love. Vanessa walks back over to her father and mother's side.

Warrant Officer Taylor turns to the five young women, who are standing directly behind the two families.

**WARRANT OFFICER TAYLOR**  
Welcome to Kerguelen Island. Sergeant Carcha will escort the five of you single ladies over to the barracks. There is a briefing this evening at 6 o'clock for all new arrivals. I will escort the two families over to family housing. Then I will be taking Captain Ferrer over to our new flight simulator. He's going to be our new pilot!

**INT. SPACECRAFT STARKADHR'S BRIEFING ROOM - DAY**

**(CAPTAIN YMIR, JOTUN 1, LOGI, LAUFHEY, MIDGARD-LOKI, U.N. AUSTRALIAN AMBASSADOR, U.N. AMERICAN AMBASSADOR)**

The Jotuns and humans are sitting around the table with a huge monitor screen showing the Icelandic landscape below, as the spacecraft is flying low level.

The Jotuns Laufey and Logi walks around the table dispersing some kind of mushroom shaped object as they hand each of the humans one each.

**LAUFHEY**  
To increase your visual perception beyond the human light spectrum for sight, please eat. There will be no other effect on your human bodies.

The human delegates begin to eat their respective sight enhancing mushrooms.

**LOGI**

From Jotun eyes, the light elves are quite visible. Other than observations based on ancient records from Loki and our own monitoring various species, we have never before made contact with this species. However, for the expeditionary mission, their invisibility may be an asset.

**U.N. AMERICAN AMBASSADOR**

You might be right about having invisible troops. That could come in very handy. What do these creatures look like? Are they docile or are they capable of violence?

**CAPTAIN YMIR**

Except for their transparency, they are quite Asgardoid and humanoid in shape. They are an extremely docile species. We are going to use our retractor beam to some of their species aboard. Each of you will now visually be able to see them.

**U.N. AUSTRALIAN AMBASSADOR**

Is Iceland the only place these creatures exist?

**MIDGARD-LOKI**

No. Iceland has the largest population of these little hidden people. They will be easier to secure here.

A Jotun comes into the briefing room.

**JOTUN 1**

Captain Ymir, we have a Light Elf village coming into view. The retractor beam is ready.

**CAPTAIN YMIR**

Secure three males and three females.

**JOTUN 1**

As you request.

**EXT. ICELAND - SPACECRAFT STARKADHR -- CONTINUOUS**

The Jotun Space Craft hovers over a an area adjacent to an Icelandic river. There appears to be nothing there, until the retractor beam lightens the area. A small village of very small houses suddenly appears as if by magic.

Six small figures rise up into the air from under the space craft, where they are taken into the ship from a hatch located directly centered underneath the space craft.

**INT. SPACECRAFT STARKADHR - CONTINUOUS**

**(CAPTAIN YMIR, LIGHT ELF 1, LIGHT ELF 2, SURT, U.N. COSTA RICAN AMBASSADOR, U.N. CHINESE AMBASSADOR, U.N. BRAZILIAN AMBASSADOR, U.N. SOUTH AFRICAN AMBASSADOR, U.N. RUSSIAN AMBASSADOR, U.N. EUROPEAN UNION AMBASSADOR)**

The Jotun leaders and human delegates are just exiting an elevator like descending room to the lower level of the craft. Each of the light elves are confined in small tubular glass like containers. The little people are a transparent red, with black glittering hair and blue eyes.

Captain Ymir adjusts his translator for speech with the light elves.

**U.N. COSTA RICAN AMBASSADOR**

**Unbelievable! Little people really exist! By why are the light elves red? I thought they would be light as in white?**

**U.N. CHINESE AMBASSADOR**

**What is the Captain doing?**

**SURT**

**Our translators will pick up mental and oral communications for analysis, translation and counter-communication with this species. In a moment he will be able to communicate with them. The light elves originally were light skinned. There was some genetic transformational changes once they came to Midgard. But, that's another story. These are the light elves!**

**U.N. EUROPEAN UNION AMBASSADOR**

**That is an excellent gadget to have.**

Captain Ymir stands closer to one of the Light Elves. He provides the symbol of Utgardian peace and begins to speak.

**CAPTAIN YMIR**

**We come in peace, and mean you no harm.  
We need your help!**

**LIGHT ELF 1**

**If you come in peace, why do you seize us?  
You are not a human nor an Asgardian.  
What and who are you?**

**CAPTAIN YMIR**

**We are Jotuns from the planet known to  
you as Utgard.**

**LIGHT ELF 1**

**Utgard? Then you have knowledge of our  
ancient home, Asgard? Why has the  
rainbow bridge never appear again, after  
the great flood, which once caused us to  
seek safety in the mountains?**

**CAPTAIN YMIR**

**Your species continues a living history of  
your past. The rainbow bridge collapsed  
long ago, when Asgard was destroyed at  
Ragnarok.**

**LIGHT ELF 1**

**This we did not know! If we help you, then  
how long will you keep us until we are set  
free?**

**CAPTAIN YMIR**

**The survival of this planet may require your  
help. There is a new species which causes  
paradox. If they can not see you, then your  
help is needed. None of the light elves  
have to go on this mission. If you ask, we  
will release you this very minute. Please  
council with your species. The glass will  
open shortly, and you will be free to see our  
vessel.**

**LIGHT ELF 1**

**Why do those humans look as if they can  
see me? There is not a human a live that  
can see such as we!**

**CAPTAIN YMIR**

**We provided them with the ability to see a new ally. Their survival depends on your help too!**

**LIGHT ELF 1**

**No promises! I shall council the others to see what they say. And, you guarantee, that if we ask, we will be set free?**

**CAPTAIN YMIR**

**Yes.**

**Captain Ymir steps back and walks over to a near by control panel. He pushes a few of the buttons. The glass like tubular holding areas suddenly open up. Little humanoid like creatures not taller than three feet suddenly hop out and the first light elf immediately starts telling the others what this is all about.**

**LIGHT ELF 2**

**I am the eldest of the light elves! And, it is me, who you should have been speaking with, Utgardian. We are a species of peace, if peace among humans can ever be. Does our help, require us to kill, such as humans? If so, then you may release me!**

**CAPTAIN YMIR**

**I beg your forgiveness for not recognizing the protocol of your species, eldest of the light elves. And, the answer to your question is no. You will not be required to kill any species. We are searching for a Utgardian weapon, that an alien species has seized. We need the light elves to search and dismantle the weapon if found. That is all!**

**LIGHT ELF 2**

**Oh, now that is a different matter! And, what happens if these creatures can see the light elves in such a manner as your species?**

**CAPTAIN YMIR**

**Then, if peace is not secured, they may eat you!**

**LIGHT ELF 2**

And, if we don't help?

**CAPTAIN YMIR**

The aliens will most probably destroy this planet named Midgard and your entire species, along with all of the other species of this planet. There is not much time until the space time continuum cross-roads of destiny's time arrives.

**LIGHT ELF 2**

This is a very serious matter! I am only the eldest of this group you seized. For such serious matters, as this, council of the eldest of the eldest elders is required.

**CAPTAIN YMIR**

With the help of the light elves or without the help of the light elves, this mission will proceed. There are four destinies or more that may come about. The natural destiny of this planet, is its destruction which will happen very soon, if we don't try to alter the future. What kind of offer can we make for your vital assistance?

**LIGHT ELF 2**

Let me council with the others and I will give you our answer.

The **SECOND LIGHT ELF** rushes over to the others. Whispers to and from continue between them. Strange shocked and grim looks come over their faces.

**U.N. BRAZILIAN AMBASSADOR**

Captain Ymir, what are you saying to them, and why is this taking so long?

**CAPTAIN YMIR**

We are asking a seized group of light elves to help us, which may cost them their lives. They are a very peaceful species and abhor killing. This is a very delicate matter for them. Give them some time. They have many fears and this situation is new to their thoughts.

**U.N. RUSSIAN AMBASSADOR**

**Captain Ymir, I don't see what difference their help will make. You're telling me that a whole bunch of different destinies and futures exist and no matter which one, nations of humans are going to die and our planet will cease to exist. What the hell future is there with hope? The one we create right now? Is that what your telling us? We have to change the present right now, to alter the future? Correct?**

**CAPTAIN YMIR**

**I understand your concerns. We Jotuns knew of the light elves existence as an intelligent and crucial species. Their help was not sought in all three futures, which we have foreseen. This means, that we are changing the present which will or can alter the future! Therefore, they are needed! If the yggdrasil of Midgard is altered, it will alter the Jotun yggdrasil just enough to eradicate life on our planet. I will try anything and everything in my power to try and secure the safety of this world and our world.**

**U.N. SOUTH AFRICAN AMBASSADOR**

**Now that makes sense!**

**U.N. RUSSIAN AMBASSADOR**

**Okay. I agree!**

**Light Elf 2 comes up to Captain Ymir.**

**LIGHT ELF 2**

**(sadly)**

**Hope for the future is pretty grim without our help, isn't it?**

**CAPTAIN YMIR**

**Yes!**

**LIGHT ELF 2**

**We will help you! The vote was six to zero, in the name of peace and survival!**

**EXT. KERGUELEN U.N.R.D.F. AIRPORT RUNWAY - CONTINUOUS**

**(CAPTAIN COLLINS, GENERAL BORSSON, STAFF SERGEANT MCGREGOR)**

**An Australian military transport lands on the airfield and is taxied over to a small military style parade of U.N. Peacekeepers which was prepared for the arrival.**

**A ramp is brought over to the plane which leads to a long red carpet. U.N. Peacekeepers line both sides. Captain Collins is there to greet the new High Command Commanding Officer General Borsson of the small Peacekeeping Rapid Deployment Force.**

**As General Borsson, reaches then end of the red carpet, with his AIDE, and SIX other new AUSTRALIAN PEACEKEEPERS, including some of their FAMILIES who are subordinately following him, Captain Collins and the General exchange salutes.**

**She hands him a manila envelope during her greetings.**

**CAPTAIN COLLINS**

**Welcome to Kerguelen Island General. I am Captain Collins, at your command. We'd just received some photographic material you'd requested before you left Australia. The situation looks very serious.**

**The General opens up the envelope and starts to review a group of numerous military photographs.**

**An expression of deep concern races across his face.**

**GENERAL BORSSON**

**(surprised shock)**

**What the hell kind of creatures are those?**

**CAPTAIN COLLINS Those creatures are the aliens we'd encountered in the North Atlantic on our first expeditionary mission. A full report is on your desk!**

**GENERAL BORSSON**

**Get me up to my new office immediately! I want every kind of information, we've got on these aliens!**

**CAPTAIN COLLINS**

**Yes sir! I believe I have provided that already, including the new orders for our second expeditionary mission.**

**GENERAL BORSSON**

**Orders?**

**CAPTAIN COLLINS**

**United Nations High Command, from the Secretariat General himself. He and many of the U.N. Security Council ambassadors will be arriving here sometime today! I was told to have you briefed as soon as you arrive.**

**GENERAL BORSSON**

**Excellent! Have your men show my staff their quarters.**

**CAPTAIN COLLINS**

**Yes, sir!**

**GENERAL BORSSON**

**Staff Sergeant McGregor!**

**STAFF SERGEANT MCGREGOR**

**Yes, sir?**

**GENERAL BORSSON**

**I want everyone on my staff, in my office in a half hour! And, everyone should expect to work late.**

**STAFF SERGEANT MCGREGOR**

**Yes, sir!**

**General Borsson and Captain Collins break off from the rest of the General's staff, as she escorts him to his new office. They continue to talk along the way.**

**GENERAL BORSSON Captain Collins, how many of these new spacecraft which travel oceanic, space and air, do I command?**

**CAPTAIN COLLINS**

**Six sir! I am preparing the rosters for craft assignment today.**

**GENERAL BORSSON**

I started out in the military as a jet fighter.  
I'm going to pilot one of these ships myself.

**CAPTAIN COLLINS**

Yes sir! Captain Jose Ferrer from Costa Rica just arrived earlier today. He's over at the SSA simulator right now. These spacecraft are very easy to pilot with top technology and maneuverability!

**GENERAL BORSSON**

Excellent. I think you and I are going to get along just fine!

The two reach the building where the new General's office is located. The office building is located off to the side of the airport runway, adjacent to the airport building. They enter the building door.

**GENERAL BORSSON (CONT'D)**

A general doesn't have to walk too far to get on an airliner here, does he?

**CAPTAIN COLLINS**

No sir! Port-aux-France is still a pretty small city!

**DISSOLVE TO:**

**EXT. SPACECRAFT STARKADHR - OCEAN NEAR KERGUELEN ISLAND--  
AFTERNOON**

The Jotun spacecraft Starkadhr hovers over the ocean near Kerguelen Island. The retractor beam descends into the ocean and THREE huge NIDHØGG are retrieved from the ocean up into the spacecraft.

**INT. SPACECRAFT STARKADHR -- CONTINUOUS**

**(CAPTAIN YMIR, LOGI, LIGHT ELF 2, MIDGARD-LOKI, NIDHØGG 1, 2, and 3, SURT, SECRETARIAT GENERAL, U.N. AMBASSADORS AUSTRALIA, COSTA RICAN, U.S.A., CANADA, CHINA, BRAZIL, EUROPEAN UNION, SOUTH AFRICA)**

The Jotun leaders, human delegates, and light elves are descending back down to the lower level from the elevator like room, whose door opens. The lower level is now one huge large tank filled with sea water and holding the sea serpent like creatures.

**There is barely enough room for the Jotuns, humans, and light elves to stand between the glass and the outer section of the lower level.**

**Captain Ymir and the other Jotuns adjusts their translator-communicators.**

**The Jotuns have some additional translator-communicators which they first adjust then hand out to all of the human delegates, and light elves.**

**The human delegates and light elves remain silent as observers but can actually here the communications between the various species.**

**SURT**

**Nidhøgg, where are the seven others of your team? What have learned of the alien colonies on your mission?**

**NIDHØGG 1**

**Aliens cruel, no tolerance for classifications of subspecies. Nidhøgg species enslaved. Much information learned. We must go to Utgard for safety! Extreme Danger here! War if no peace is established with humans!**

**U.N. AMERICAN AMBASSADOR**

**Excuse me Ymir, I have to ask this question. Nidhøgg, who is alien leader?**

**NIDHØGG 2**

**Zy. Each colony has own leader. Zy is leader of colony.**

**U.N. AUSTRALIAN AMBASSADOR**

**(speaking out loud)**

**I wonder if this means that similar to humans, as we have nations here on earth, they have differences?**

**CAPTAIN YMIR**

**Nidhøgg, what is their population? How do you know war is coming?**

**NIDHØGG 3**

**Billions. Aliens staging large weapons and warriors near shores of many continents for invasion soon!**

**U.N. AMERICAN AMBASSADOR**

I am not sure if I believe this information.  
Nidhøgg, are you telling us there are  
billions of aliens under the sea for  
population?

**CAPTAIN YMIR**

The analytical statistical mental capacity of  
the Nidhøgg is pretty close to the capacity  
of a modern human computer. This is why  
they were sent on this mission.

**U.N. AMERICAN AMBASSADOR**

Thank you Captain. But, I want to hear this  
one more time! Nidhøgg, are you telling us  
that the alien population under the oceans  
is billions?

**NIDHØGG 3**

Seven Billion, two hundred and fifty million  
aliens exist in Midgard's oceans.

**U.N. CHINESE AMBASSADOR**

Holy Shit! I have a few questions.  
Nidhøgg, where do most alien colonies  
exist? Do they congregate, live close by  
each other? How can so many aliens many  
travel and move weapons? Is alien  
population all warriors?

**NIDHØGG 2**

Less alien colonies near polar regions.  
More colonies near equatorial and tropical  
regions. Everywhere. Nidhøgg enslaved  
species used as transport. Millions!

**U.N. CANADIAN AMBASSADOR**

Are you telling us, that there are millions of  
your species which exist here on earth?

**NIDHØGG 2**

Five million Seven Hundred Fifty Thousand  
Nidhøgg exist on Midgard enslaved. One  
hundred Nidhøgg freed. Forty still live.  
Accidentally attack us. North Atlantic. Free  
Nidhøgg always hide and attack aliens. We  
make peace! They understand too late, we  
are not controlled by aliens.

**CAPTAIN YMIR**

That makes sense. The first expeditionary mission set some Nidhøggs free, which was estimated to be about one hundred of them. Once, they were released from alien mental controls, they held us counter attack. In one year, less than half still live. The Nidhøgg are still active.

**U.N. RUSSIAN AMBASSADOR**

If this information is correct, we are going to have to contact the Kremlin. Mass population relocation to the polar regions of our nation is going to be required. And, Stalin's strategy will have to be implemented for the sake of Russian survival.

**U.N. AMERICAN AMBASSADOR**

Stalin? What the hell did he do, except kill twenty million of his own people?

**U.N. RUSSIAN AMBASSADOR**

He won the war and life for one hundred and fifty million other Russians. It's a matter of military strategy. They had more bullets, tanks, and weapons than we did. So, he used our population to as targets until the enemy ran out of supplies and bullets. Then we counter-attacked and we victorious! How do you propose to fight seven billion warriors, who have five time the energy and speed of the common soldier and both have weapons? Shear numbers would win over an army unless the entire population is the army!

**U.N. COSTA RICAN AMBASSADOR**

Do you know what you're saying?

**U.N. BRAZILIAN AMBASSADOR**

I think our President is going to have to contact both the Argentine and Chile governments for a possible mass Brazilian population relocation to the Southern most polar region, including the Antarctica.

### **SECRETARIAT GENERAL**

**This information is not good. Maybe that is why Captain Rama was released unharmed with the message of Peace and immediate contact with humans! We have at least one Zy leader, who is trying to avoid a war!**

### **CAPTAIN YMIR**

**I agree! He is probably the only alien leader who has had contact with humans under terms of peace, where humans fought back causing injury to the aliens and survived. The North Atlantic is the most probable place to find our Star Blaster, as they used the outer emblem of our ship to seal the original entrance of their city. So, it is this leader, who may be the most crucial leader of the aliens.**

### **U.N. COSTA RICAN AMBASSADOR**

**I am going to communicate with our President for an evacuation plan for Costa Ricans to the Northern regions of Canada. May I presume that it will be Canada's position to accept all refugees from all of North America? We have no army nor any military weapons and the first invasion has occurred on our soil. If a war escalates, it will mean the survival of our people!**

### **U.N. CANADIAN AMBASSADOR**

**Do you know what you're asking? You can't presume anything like that, nor can any other nation! This is a question for our Parliament.**

### **U.N. AMERICAN AMBASSADOR**

**I think we better seek some kind of Peace before advising our governments to prepare for an attack by seven billion alien warriors. In the worst case scenario, under these circumstances, Canada won't need to seek any permission from your Parliament, because we will annex Canada to secure the survival of our nation. We may have to nuke our own shoreline and pull our entire population back from the coasts! This is a**

**very dangerous situation! These creatures have about the same population as our entire species. Depending on their attack plans we could be put into a position of continually bombing a never ending attacking army on our shores. It sounds like these aliens live in some kind of ant colonies, but under the ocean.**

**U.N. CHINESE AMBASSADOR**

**Precisely!**

**U.N. EUROPEAN UNION AMBASSADOR**

**But, what is so critical that these creatures would attack the surface world now?**

**U.N. SOUTH AFRICAN AMBASSADOR**

**Food! The oceanic fish are almost depleted. It all makes sense. Some nations have no fish at all anymore. Others, like Russia still have salmon. The Nidhøgg mentioned there are more colonies around the equatorial and tropical regions of the ocean. These creatures like warm water. If you notice the oceanic currents traveling just south of Iceland. Those currents come from the tropics like a river along North America. I'll bet where the colder currents are, there aren't any alien colonies. Just an opinion and observation, not based on any actual facts.**

**U.N. AUSTRALIAN AMBASSADOR**

**Then our sarcastic conversation about offering some kind of food program in exchange for peace with the aliens, has some merit, as long as it's not human?**

**U.N. EUROPEAN UNION AMBASSADOR**

**I think you might be right! We can send the expeditionary mission with food and see what happens.**

**U.N. CHINESE AMBASSADOR**

**We don't have many options available and these don't have much tolerance for talking**

about various alternatives. We take them food!

**U.N. AMERICAN AMBASSADOR**

That is like giving these creatures a tribute!  
We have enough food, but we have to establish some kind of barter or trade with them. We are not a subspecies of this planet!

**U.N. COSTA RICAN AMBASSADOR**

Fifty years ago, it was said, we couldn't feed the population of the world. The population has doubled and tripled, and yet we found away. Considering the alien population is equal to our own, we would only have to double our output of food production. It might work!

**SECRETARIAT GENERAL**

I agree with the food program. We send our emissaries with lots of different kinds of food and a counter message of peace. Then, we can find out what food they like most, besides humans. We have just filled the warehouses of Kerguelen Island with food, so there's no problem trying.

**U.N. CANADIAN AMBASSADOR**

I agree with the Secretariat. A food offer for peace.

**U.N. AMERICAN AMBASSADOR**

And if there's another alien invasion or attack because a different Zy doesn't want peace? What do we do then?

**U.N. EUROPEAN UNION AMBASSADOR**

Stall for time, so we can evacuate our peoples to safety until peace can be established. That's what!

**U.N. COSTA RICAN AMBASSADOR**

We can place tons of food on the beach!  
But what do they eat besides us?

**U.N. CHINESE AMBASSADOR**

**With a military defense line right behind the food! It is worth a try!**

**MIDGARD-LOKI**

**I have been silent listening to alternatives for peace. I concur with the food program for peace. The North Atlantic alien stronghold is our best chance to find and destroy the weapon of mass destruction of this planet. We must not forget that were Utgardian captives observed in the North Atlantic. We seek their release. We shall have to counsel with the Expeditionary mission to be assured they attempt to address all of the issues we have counseled on.**

**Light Elf Two turns to Captain Ymir.**

**LIGHT ELF 2**

**Captain Ymir. The situation you explained to us, is much worse than we first thought. If we can help we will.**

**CAPTAIN YMIR**

**If there are not any more questions for Nidhøgg, then we should proceed to Kerguelen Island. I must return Surt to Jotunheim to begin the evacuation for the fourth destiny.**

**LIGHT ELF 2**

**Fourth destiny? What is that?**

**CAPTAIN YMIR**

**That is a planet where we will evacuate many of Midgard's species to assure their survival should war prevail over peace!**

**LIGHT ELF 2**

**And, there are no aliens there?**

**SURT**

**No.**

**Light Elf Two huddles with the other five elves then comes back with a request of Captain Ymir and Surt.**

**LIGHT ELF 2**

We will help you with all that you require of us. But, after the mission, whether successful or not, we six will chose this fourth destiny as our destiny on the very first vessel leaving after we return from our mission.

**SURT**

Agreed!

**CAPTAIN YMIR**

It seems our Light Elf friends do like to take too many chances outside of a peaceful existence.

**LOGI**

Very wise decision, for these little hidden people!

**CAPTAIN YMIR**

We are ready to land at Kerguelen Island. Let's return to the main deck for landing.

The Captain pushes a button on the wall, which opens the door for the elevator like room to take them topside.

**EXT. KERGUELEN U.N.P.K.F. AIRPORT RUNWAY - MOMENTS LATER**

**(MIDGARD-LOKI, SECRETARIAT GENERAL)**

The Jotun spacecraft Starkadhr descends onto the runway. The eight legs of the vessel touch down on the runway, as the landing ramp almost simultaneously descends. The hatch door opens. Midgard-Loki, the Light Elves, the Secretariat General, U.N. Ambassadors, translators, and aides, walk out of the space craft and on to the landing field.

The landing ramp retracts back into the spacecraft and the hatch door closes.

The GROUP of LEADERS are welcomed by U.N. Peace keeper greeters and escorted towards a some official vehicles to take them to their new headquarters.

Starkadhr ascends up into the atmosphere. Hovers for a second and disappears into the cosmos.

**INT. U.N. AMERICAN AMBASSADOR'S OFFICER QUARTERS -- LATER**

**(U.N. AMERICAN AMBASSADOR, U.S. PRESIDENT)**

The U.N. American Ambassador just dials a number as he sits relaxed at the desk provided in his quarters.

**U.N. AMERICAN AMBASSADOR**

Mr. President. There is an extremely grave and disastrous potential for an alien invasion of our shores if this peace mission does not succeed.

**U.S. PRESIDENT (O.S.)**

How bad is that?

**U.N. AMERICAN AMBASSADOR**

We are going to try a second attempt to contact the aliens with a food for peace offer. The aliens may be in possession of a weapon which can destroy the world if we attempt to attack and exterminate them. They are massing both warriors and weapons just off the shores all over the world and more than likely the United States and Canada.

**U.S. PRESIDENT**

Hold on a minute! This is more serious than I anticipated. I have to get my Chief of Staffs and Homeland Security in here!

**INT. OVAL OFFICE - WHITE HOUSE, U.S.A. -- LATE AFTERNOON**

**(CABINET OFFICIALS 1, 2, and 3, HOMELAND SECURITY OFFICIAL, TWO SECRET SERVICE AGENTS, U.N. AMERICAN AMBASSADOR, U.S. PRESIDENT, U.S. GENERAL CHIEF OF STAFF)**

The PRESIDENT places his hand over the telephone and starts shouting orders. TWO SECRET SERVICE AGENTS are on duty standing by the door.

**U.S. PRESIDENT**

Get the Chiefs of Staffs in here immediately and contact Homeland Security. We have a threat of imminent invasion. Red alert!

**TWO SECRET SERVICE AGENTS**

**(simultaneously)**

**Yes Sir, Mr. President!**

The two agents rush out the door of the President's Oval Office. The President turns and pushes the speaker controls for conference calls where everyone in the Oval Office can hear the conversation.

**U.N. AMERICAN AMBASSADOR (O.S.)**

Did you call back our naval forces?

**U.S. PRESIDENT**

Yes, I did, but your information was quite vague. Now your telling me that the situation may be disastrous. Fill me in on the worse case scenario.

A LARGE GROUP of high ranking MILITARY GENERALS and ADMIRALS rush into the Oval Office, along with MANY other high ranking CABINET MEMBERS, who over hear the President's and U.N. American Ambassador's remarks. A grim look spreads across their face as they comprehend the extent of the emergency.

**U.N. AMERICAN AMBASSADOR (O.S.)**

The alien colonies of the ocean exceed seven billion warriors and over five million biological troop carriers massing along the shores all over the world at this very moment.

**U.S. PRESIDENT**

What the hell are you telling me? That's seven times worse than trying to invade the Chinese mainland! What kind of weaponry are we up against?

**U.N. AMERICAN AMBASSADOR (O.S.)**

Mr. President there is more serious news than this! The aliens if we attempt to exterminate them, have a weapon of mass destruction, called a Star Blaster, which can destroy the entire world if we try to exterminate them. The main weaponry of the aliens are extremely sophisticated types of lasers, laser artillery, and laser blasters, not withstanding the facts that these creatures are five times stronger and faster than humans.

**U.S. PRESIDENT**

Do you have any suggestions?

**U.N. AMERICAN AMBASSADOR (O.S.)**

I'm not the President. It has been suggested that there are fewer alien colonies in the northern polar regions and a mass evacuation of the population should begin immediately. We plan to send out a second expeditionary force to make contact with the North Atlantic alien leader, bringing mass amounts of food as a peace gesture. This specific leader is responsible for the return of Captain Rama with the message that contact with humans is critical for peace.

**U.S. PRESIDENT**

What time frame are we looking at for a possible alien invasion?

**U.N. AMERICAN AMBASSADOR (O.S.)**

The time frame is unknown. Yesterday and the day before, alien warriors in the tens of thousands, have seized a couple of pacific islands and in Costa Rica there are reports of the alien life forms taking human captives. There is another report indicating that each alien colony has their own leader, which means just like nations, we may have to deal separately with them. On the other hand, this contradicts the mobilization of such a large invasion force. There has to be some kind of co-ordination. Each alien encounter however, the word peace, in conjunction with Kraken, was been cited by the aliens with the message that contact is crucial with humans.

One of the officials in attendance is the Homeland Security Official.

**HOMELAND SECURITY OFFICIAL**

There are no reports of any strange activity on our coastal shores from Alaska to Florida. Are you sure the figures your providing are accurate?

**U.N. AMERICAN AMBASSADOR (O.S.)**

I am telling you they are massing underwater on the Continental Shelves. I

**suggest you secure some satellite photos or send some kind of submarines down there and check it out before we have to put our entire population on the front lines!**

**U.S. PRESIDENT**

**Keep us updated on the expeditionary mission's success or failure for peace in exchange for food. I sure as hell hope they like some other kind of food better than humans! I will handle the preventative defense matters from here, on a worse case scenario basis.**

**U.N. AMERICAN AMBASSADOR (O.S.)**

**Yes sir, Mr. President. I strongly urge preparations for a mass evacuation towards Canada, massive food placement near the coasts and a military line of defense. Those are some of the United Nations recommendations.**

**U.S. PRESIDENT**

**Noted. Thank you for you update.**

**The President hangs up the telephone.**

**U.S. PRESIDENT (CONT'D)**

**Okay. You heard the man, seven billion alien warriors preparing for an invasion and staging their weapons and personnel on the continental shelf just off both of our shores, with a weapon of mass destruction which can destroy the world if we engage in a prevailing counter attack of suicidal mutual total destruction. Your my team, so tell me how do we prepare and what do we tell the nation?**

**HOMELAND SECURITY OFFICIAL**

**We have a million man army with the latest technological weapons. But, you're talking a seven billion enemy that is staging or has staged their troops in position for an attack right under our noses. We'd better pray for the food for peace talks to work into some kind of treaty and stall for time!**

**CABINET OFFICIAL 1**

**We have zero tolerance of terrorists and criminals. This goes for aliens too! We can contain them on our shores, but its going to take some constructive military planning and the possible mobilization of the entire population. We can move government functions up north.**

**CABINET OFFICIAL 2**

**We can mobilize eight million prisoners over night. Arm them and put them on the west and east coast shores with an amnesty for volunteers.**

**CABINET OFFICIAL 3**

**Hell, they'd turn on us or run! We can't give felons guns and expect them to fight seven billion enemy warriors. They can't be trusted and they'd run! That's why we have pre-classified them as terrorists.**

**U.S. PRESIDENT**

**I'm going to have to void out Secret Executive Order 1321 if we do that!**

**HOMELAND SECURITY OFFICIAL**

**What order is that?**

**U.S. PRESIDENT**

**In case of any invasion against the U.S. home land, there is an Executive order to have all confined felon prisoners executed. They are potentially dangerous and may side with the enemy as well as lead to claims of human rights abuses with potential witnesses if ever the U.S. were to be defeated and war trials take place.**

**CABINET OFFICIAL 1**

**I go along with the amnesty offer, with one condition.**

**U.S. PRESIDENT**

**What's that?**

**CABINET OFFICIAL 1**

**We prepare a second line of defense and if any of the classified undesirables retreat, we shoot them! This will assure they will fight! Up against the odds, they're going to die so we hit two birds with one stone! We exterminate our undesirables to protect the rest of our citizens as well as stall for time to prepare for a counter attack with a stronger second line of defense!**

**U.S. PRESIDENT**

**That's eight million, plus one million military. We still too far away in numbers. What else?**

**CABINET OFFICIAL 2**

**We keep falling back, from the time we set up the first line of defense where we route our population in a Northerly direction from the center of the nation, while still maintaining civilian replacements as needed. This will stall for time, and as the aliens advance we bomb the hell out of them. I don't think we have a choice.**

**CABINET OFFICIAL 3**

**What about permission from Canada? We will need to secure that for such a massive evacuation.**

**U.S. GENERAL CHIEF OF STAFF**

**There is no permission needed from Canada on something this major. We just do it! The same thing goes for the aliens, if they are mobilizing just off shore. We attack first! I read some of the reports about these sea monsters. They eat humans, like we eat chicken. And, the food we offer, just might not be the food they want. Seven billion alien mouths to feed. That is why their situation is critical. It's my opinion, we are their food and any peace with these creatures, will mean we will be filling their bellies with our souls!**

**U.S. PRESIDENT**

**I will contact their Prime Minister. We are going to have to have some kind of a television announcement that is a very stern demand for mandatory national mobilization. We have over two hundred and eighty million citizens. And, even that might not be enough.**

**CABINET OFFICIAL 3**

**If we don't have some kind of defense line prepared, those creatures will walk right in and take over.**

**U.S. PRESIDENT**

**We keep this low key for right now to avoid public panic. Contact all arms manufacturers for every weapon available and distribute them to everyone. Send in military units to seize everything in every warehouse. Contact prison officials and inform them of an extreme national emergency requiring an amnesty for every single felon whose willing to take a weapon and maintain our first line of defense. Those who refuse to volunteer are to be shot. Officials and prison officials are to seize every bus, truck or method of transportation for prisoner transport to the front lines. Set up check point perimeters to arm all the prisoners, while we set up a second military controlled defense perimeter. At the front line check points the prisoners will be notified of my standing orders as Commander and Chief. The military is to shoot any prisoner who retreats! Get every naval vessel out to sea tonight, fully armed. Every military ship is to monitor and scout any potential undersea buildup. All military leaves are canceled! Make sure there is evacuation plan put in place for all top level government officials and their families for relocation to a secure Canadian polar site. Now, get out of here and get this job done by the morning sun.**

**Everyone rushes out of the Presidential Oval Office.**

## **EXT. UTGARD - OUTER SOLAR SYSTEM - TIMELESS SPACE**

Two Spaceships are leaving the Utgardian upper atmosphere at great speed. One of the spaceships is almost one hundred times larger than the other. Their Trident Emblems are clearly seen, as well as the names Nagelfar and on the largest Jotun spacecraft, Starkadhr.

The two spacecraft suddenly stop at the twisted wire like Utgardian moon ring. A beam extends out to the planetary ring. Both, ships become luminous with a strange glow, which is absorbed by their respective propulsion systems.

The two spacecraft slowly reposition themselves. Then in a blast of light the two ships head towards the inner solar system and third planet.

## **EXT. MIDGARD - UPPER ATMOSPHERE -- TIMELESS SPACE**

The Jotun spacecraft Nagelfar enters the atmosphere in an angle for the South Indian Ocean of Kerguelen Island.

The Jotun spacecraft Starkadhr positions itself for reentry over the nation of Iceland.

## **EXT. KERGUELEN ISLAND U.S.P.K.F. AIRPORT -- CONTINUOUS**

(CAPTAIN YMIR, MAGNI LEIVO, MAGNI LEIVO - ESPANOLA, SECRETARIAT GENERAL, VANESSA FERRER, VANESSA FERRER - ESPANOLA)

Vanessa Ferrer and Magni Leivo sneak off from their new housing area and walk around the airport exploring their new city and surroundings. They see the spacecraft Nagelfar descend onto the landing field near by and run over to see what it's about.

Nagelfar's landing ramp and hatch door opens. Captain Ymir appears. The two young people are astonished by the appearance of a different kind of alien who appears to be some kind of ally. They boldly walk up to the Utgardian.

**MAGNI LEIVO**

Do you understand us, if we speak to you in Spanish or English? I speak both languages. Who are you and where do you come from?

**MAGNI LEIVO - ESPANOLA**

Entiende si hablamos en español o en inglés? Yo hablo ambos. Quien eres y de donde provienes?

**CAPTAIN YMIR**

Yes. I am Captain Ymir. I understand you no matter which human language you speak. I am a Jotun from the outer planet Utgard. We have come to help the human species deal with the alien creatures who now threaten this planet.

The two young adults are astonished that this alien knows about other aliens.

**VANESSA FERRER - ESPANOLA**

El sabe tambien sobre Los dos extranos que vimos! Como puede ser que nuestros papas no saben?

**VANESSA FERRER**

He knows about the other aliens that we saw too! How come our parents don't know?

**MAGNI LEIVO - ESPANOLA**

No se!

**MAGNI LEIVO**

I don't know!

Vanessa takes a pen and paper from her small purse and begins writing something. Then, she hands her note to Captain Ymir.

**VANESSA FERRER - ESPANOLA**

Capitan Ymir, yo y Magni vimos una creatura extrana con una larga lengua como serpiente, cuando vivimos en Costa Rica.

**VANESSA FERRER**

Captain Ymir, Magni and I saw a strange creature with a long snake like tongue when we lived in Costa Rica up at the lake by the Volcano Poas.

**MAGNI LEIVO**

No one believed us. If these creatures are dangerous, Vanessa wants to know if you can save our friend Emily? She wrote her address here. She's her best friend and she really misses her a lot!

Captain Ymir smiles and takes the note.

**CAPTAIN YMIR**

I will pass your message on to Surt. He is in charge of human evacuation.

**MAGNI LEIVO**

Human evacuation?

**MAGNI LEIVO - ESPANOLA**

Evacuacion de Los humanos?

**CAPTAIN YMIR**

Yes. Children I must hurry to an emergency meeting. The evacuation is only precautionary. Don't worry. Everything will be fine!

Captain Ymir leaves the young Costa Rican couple for an emergency meeting with the Secretariat General and High Command.

**EXT. KERGUELEN U.N.P.K.F. AIRPORT RUNWAY - CONTINUOUS**

**(CAPTAIN COLLINS, JETHRA RAMA, LIEUTENANT DUNDEE, LIEUTENANT PUTIN, U.N. OBSERVER ZERVOS, WARRANT OFFICER Taylor)**

An American Airlines Commercial 747 arrives at the Kerguelen Rapid Deployment Airport. A GROUP of North Americans who are FOUR FEMALES and THREE MALES disembark, some with their FAMILIES in two, along with Captain Jethra Rama. One of males is U.N. AMERICAN OBSERVER LARRY ZERVOS.

Captain Collins, Lieutenant Dundee, Lieutenant Putin, Warrant Officer Taylor, and Sargent Samford are the greeters and escorts for the new North American arrivals and Captain Rama.

All of the Peacekeepers rush of to Captain Rama, almost ignoring the rest of the group.

**CAPTAIN COLLINS**

Jethra, by gosh you made it!

**JETHRA RAMA**

It's good to see you again Collins! Taylor, Putin, Samford, and you Dundee. You all made it?

**LIEUTENANT DUNDEE**

Yup, we made it. It's really good to see you! You get your command back and your ship's been replaced! And, your crew has been trained.

**JETHRA RAMA**

Dundee, I don't know if I can handle another meeting with the aliens. They're cannibalistic savagery offers no hope and little tolerance for the human species.

**CAPTAIN COLLINS**

But, they kept you alive and let you go with a message of Peace? We we're shocked that you survived all of this time.

**JETHRA RAMA**

You're not anymore shocked than me! I was kept caged like an animal, with little visual or audio perception allowed, except for terror. Peace? The human race's days are numbered. Those creatures are dangerously desperate and starving while their population is growing..

Lieutenant Dundee gives Captain Rama an emotional hug.

Warrant Officer Taylor, makes a joke about the loss of his arm.

**WARRANT OFFICER TAYLOR**

For some of us, it may have cost us an arm or a leg, but we made it!

Captain Rama notices Taylor is missing an arm.

**JETHRA RAMA**

It's good to see you Taylor.

**CAPTAIN COLLINS**

Come on we will take you to your quarters.

Everyone starts to walk with Captain Jethra Rama. The apparent leader of the North Americans who are practically ignored speaks up.

**U.N. OBSERVER ZERVOS**

**(angrily)**

**Is this the type of respect and protocol a U.N. Observer and North American's receive?**

Lieutenant Dundee acknowledges the remark and turns around, taking Sargent Samford in tow.

**LIEUTENANT DUNDEE**

**My apologies! I am Lieutenant Dundee and this is Sergeant Samford. We are your escorts. I presume you are Mr. Zervos. If you and the others would follow us please, we will take you to your quarters.**

**U.N. OBSERVER ZERVOS**

**Your presumption is correct! The individuals who are with me, were specially selected for this team. And, Captain!**

Captain Collins turns around to face U.N. Observer Zervos.

**CAPTAIN COLLINS**

**Yes?**

**U.N. OBSERVER ZERVOS**

**That's about enough questioning of Captain Rama. We've debriefed him and the information he has is not for everyone's ears!**

**CAPTAIN COLLINS**

**Well, I will tell you what Mr. Zervos. I was on that expeditionary mission with Jethra. And, I will talk to anyone I damn well please, about any subject that crosses my mind.**

**U.N. OBSERVER ZERVOS It's a breach of national security. If you don't stop discussing this matter with Captain Rama, I will report you to your superior officer and have you imprisoned.**

**CAPTAIN COLLINS**

**You do that! And, go fuck yourself! I'm going to make sure you and your team are on my roster! And, I'm Captain of the SSA3 and your going to take orders from me! My first order is for you to keep your damn nose out of my business! Dundee, get him and his crew over to their quarters. We have a six o'clock briefing tonight!**

**LIEUTENANT DUNDEE**

**Yes, Sir!**

**U.N. Observer Zervos appears humiliated in front of the others and quickly jerks his head to the side.**

**Captain Collins walks back over to Jethra Rama and begins to personally escort him.**

**EXT. KERGUELEN U.N.P.K.F. AIRPORT BARRACKS - LATER**

**(CAPTAIN COLLINS)**

**Captain Collins has a handful of roster flyers and posts the (Space, Sea, and Air Vessels) SSA personnel assignment roster list on the barracks bulletin board. She passes out the rest personally to make sure everyone knows their assignment. The lists read:**

**The First Asian Squad for SSA1A are:**

<b>CAPTAIN JETHRA RAMA</b>	<b>SSA1A-CAPTAIN-PILOT</b>
<b>MASTER SARGENT SAGE</b>	<b>SSA1A-SQUAD LEADER</b>

**EXT. MIDGARD ATMOSPHERE - SPACECRAFT STARKADHR -  
CONTINUOUS**

**(EMILY)**

**The Jotun Space vessel Starkadhr appears over the Costa Rican city of San Jose, Costa Rica. A retractor beam descends over a school play field of children. The entire field of children and teachers ascends up into the spacecraft. The Space Vessel sudden disappears from the sky.**

**The Space vessel Starkadhr appears over Emily's family farm. Emily has just arrived home from school and is walking up the very long dirt driveway which separates two of their fields and leads to the house. She is walking with a new school friend named, Skye and plans to introduce her new school sister to her parent.**

**Her father and mother are out in the field working. A couple of cows and horses are over in the other pasture grazing by a couple of large trees. Chickens and pigs can be seen near the barn.**

**Skye, Emily and Emily's parents look up at the strange unidentified flying object. Fear spreads across Emily's face as she thinks of the creature her and Vanessa had seen. The girls starts racing towards the house.**

**Starkadhr's retractor beam literally ascends Skye, Emily, Emily's parents, as well as the livestock, barn and pasture field up into the spacecraft. The space craft suddenly disappears from the sky at fast speed.**

**EXT. KERGUELEN U.N.P.K.F. AIRPORT RUNWAY - CONTINUOUS**

**(AH QUIN, MAI HER, PRIVATE MAGNUSSON, SERGI ZHUKOV, U.S. PEACEKEEPER)**

**Sergi Zhukov and some new European Union Peacekeepers disembark their commercial airliner. Mai Her, Ah Quin's girlfriend is also on board, who plans to surprise her boyfriend by finding an expeditious flight to him.**

**The U.N. Peacekeeping greeter's are listen too and followed by, but ignored by Zhukov who wears a very grim face, as he talks to one of the European Peacekeepers.**

**U.S. PEACEKEEPER**

**Welcome, Mr. Zhukov. We will show you  
and the others, your quarters.**

Sergi Zhukov nods one short nod. Then proceeds to talk with PRIVATE MAGNUSSON who is a midget.

**SERGI ZHUKOV**

So, what made man of your size, decide to become a peacekeeper?

**PRIVATE MAGNUSSON**

Nobody gives short people a chance or believes that we are very intelligent people. I am totally committed to Peace. And, since many consider my size a handicap, I took this opportunity to show them, that I can do many things including helping mankind maintain Peace.

**SERGI ZHUKOV**

Well son, if ever we needed someone to help maintain the Peace, this is one mission where your services are needed.

**PRIVATE MAGNUSSON** Well, thank you sir! Who knows why a dwarf just pops out every once in a while? It doesn't make us bad people! By the way, your accent sounds like your from Russia.

**SERGI ZHUKOV**

Yes, I am. And you?

**PRIVATE MAGNUSSON**

I am Fjalar Magnusson from Sweden!

**SERGI ZHUKOV**

Well, Fjalar! It's nice to meet you and have you on the team!

Ah Quin is races over to his girlfriend, Mai Her, where they embrace with a deep passionate kiss.

**AH QUIN**

Darling, you are a dream come true!

**MAI HER**

I love you so much, I couldn't stand being in Hong Kong or anywhere else without you!

The two kiss again, then walk off in a different direction from the rest of the group.

**DISSOLVE TO:**

**INT. UNITED NATIONS GENERAL ASSEMBLY - KERGUELEN ISLAND - CONTINUOUS**

**(CAPTAIN YMIR, MIDGARD-LOKI, SURT, SECRETARIAT GENERAL, U.N. AMBASSADORS AUSTRALIA, U.S.A., CANADA, CHINA, RUSSIA, EUROPEAN UNION, SOUTH AFRICA)**

The Secretariat General is at the podium. Many United Nation's Ambassadors, translators, and aides are present. A final resolution for a peace offering of food to the aliens has been decided as well as contingency plans.

**SECRETARIAT GENERAL**

Today decisions for peace are the hope of our species. The peace offering of food for the aliens has been unanimously accepted. I will forward our directives to United Nations High Command, General Borsson for immediate action.

**U.N. CHINESE AMBASSADOR**

The People's Republic of China has endorsed the resolutions. However, if the offering of Peace is rejected our entire nation has been mobilized and ready to engage any alien invasion attempt.

**U.N. AMERICAN AMBASSADOR**

The United States of America has taken a similar approach as the Chinese and our nation has been mobilized and is on high alert.

**U.N. RUSSIAN AMBASSADOR**

Our nation has already implemented a nation wide evacuation of our entire population for relocation to our polar regions. We will accept all refugees seeking safety.

**U.N. CANADIAN AMBASSADOR**

**Our nation has endorsed the food for peace plan and Canada will accept all refugees seeking safety.**

**SECRETARIAT GENERAL**  
**If the U.N. Australian Ambassador would please come to the podium.**

**Australia's U.N. Ambassador walks up to the podium. The Secretariat General hands him a stack of directives.**

**SECRETARIAT GENERAL**  
**(to U.N. Australian Ambassador)**  
**Our new Commanding Officer of the Rapid Deployment Peacekeeping forces is General Borsson. I am aware that he is intensely studying the situation at this very moment. Would you please take these directives over to his office immediately.**

**U.N. AUSTRALIAN AMBASSADOR**  
**Yes, Mr. Secretariat. I will do this right now.**

**SECRETARIAT GENERAL**  
**Thank you.**

**The U.N. Australian Ambassador walks away from the podium as Midgard-Loki stands up from seating situated behind the podium and the Secretariat General.**

**SECRETARIAT GENERAL (CONT'D)**  
**I would like to introduce our new ambassador from Jotunheim, known to us as Utgard or Neptune, who would like to make his presentation.**

**The Jotun walks up to the podium. Behind him is a monitor.**

**MIDGARD-LOKI**  
**The near future holds extremely serious problems for the human species. We have already begun evacuation of flora, fauna, and humans from Midgard. The Starkadhr is already on its third return to relocate evacuees to a new world similar to Midgard and a fourth future which orbits a sun in our galaxy.**

He turns towards the monitor and points. The monitor lights up with an image of Surt who is at the commands of Starkadhr. The Spaceship monitor behind Surt shows the spaceship is just entering the orbit of a new planet which has a larger moon than the Earth.

Captain Ymir stand up and along side of Midgard-Loki.

**CAPTAIN YMIR**

We are brothers of the same solar system and allies in the name of Peace. We are doing everything we can to secure peace and alternatives to the destruction of this planet as well as our own.

**SECRETARIAT GENERAL**

Ladies and Gentlemen of the General Assembly, if our plan for peace in exchange for food does not succeed, this could very well be our last General Assembly. This session is now closed.

**INT. GENERAL BORSSON'S OFFICE -- MOMENTS LATER**

**(GENERAL BORSSON, LT. MORRISON, U.N. AUSTRALIAN AMBASSADOR)**

The United Nations Ambassador enters the General's Office.

General Borsson, Lieutenant Morrison, and Sargent McGregor are standing over a strategy table which has been created with all of the informational layout of the North Atlantic alien colony and oceanic floor and subterranean caves leading into the city.

**U.N. AUSTRALIAN AMBASSADOR**

General, here are your directives from the United Nations for this mission.

The General looks over the first page.

**GENERAL BORSSON**

What the hell kind of orders are these? I thought I am suppose to command this mission?

**U.N. AUSTRALIAN AMBASSADOR**

You are! But, the American's have zero tolerance procedures and laws against terrorism, human or even aliens. They have very specific procedures in dealing with

dangerous situations. The U.S. has required that the American team under their U.N. Observer Zervos the right to over ride any foreign orders.

**GENERAL BORSSON**

And, what's this item? All six vessels must proceed as one group into the alien landing area filled to capacity with food? I am going to make the strategy here! If the United Nations orders me to seek peace with a shipment of food in an attempt to secure Peace. I will do that! But, I will do it my way! No one knows the dangers of Peace or war unless they are there on the battle field! Decisions must be made at the table or on the battle field, and not before the events happen. This is why they have Generals!

**U.N. AUSTRALIAN AMBASSADOR**

General, much of the Earth doesn't even realize how grim the situation is. You're the General, and we're expecting a miracle! So, just use common sense and do it the Aussie way!

**GENERAL BORSSON**

Thank You Mr. Ambassador! Now, that gives me a free hand on the situation!

The two shake hands and the U.N. Australian Ambassador exits the office.

**INT. U.N. ZERVOS'S OFFICER HOUSING -- CONTINUOUS**

**(AMERICAN PEACEKEEPERS, CAPTAIN COLLINS, CORPORAL SIMEL, U.N. OBSERVER ZERVOS)**

U.N. Observer Larry Zervos, CORPORAL SIMEL (FEMALE), PFC. SHULTZ, PRIVATES WEEKS, BACHMAN (FEMALE), JACOBSON (FEMALE), AND BARNES (FEMALE) are attending a private meeting at Zervos' housing and ordered by Mr. Zervos.

**U.N. OBSERVER ZERVOS** Our instructions are explicit. We have authority to overrule any order we don't feel is appropriate for this mission. We will also deal directly with the alien leader on behalf

of the United States government. I will do the negotiations. Weeks, Bachman, Jacobson, and Barnes after you unload the food, you are to seek out any human captives and secure their release, especially if they are American. Do you understand?

**AMERICAN PEACEKEEPERS**

(in unison)

Yes, sir!

**U.N. OBSERVER ZERVOS**

Simel, you are to standby in the SSA to command the SSA by my command, if necessary. Understood?

**CORPORAL SIMEL**

Yes, sir! I have extensive training on similar craft, and have trained on a secret simulator in Sweden for the SSA'S. If force is necessary, Collins is no match for me.

Just then, there is a knock at Zervos' door. He walks over and opens the door. It is Captain Collins with a personal roster sheet for Zervos.

**U.N. OBSERVER ZERVOS**

Yes?

**CAPTAIN COLLINS**

(to Zervos)

Oh, you're still here? Great! Here's the roster for tomorrow's mission. You will be the observer on my crew. Ten hundred hours sharp! That's 10:00 o'clock a.m. in civilian time!

**U.N. OBSERVER ZERVOS**

I will be there!

**CAPTAIN COLLINS**

Oh, I see your guests are the very people I am looking for. Why don't you give all of them a muster sheet for tomorrow's mission.

Captain Collins hands Zervos five more rosters. He takes them.

**U.N. OBSERVER ZERVOS**

**I will do that!**

**CAPTAIN COLLINS**

**And, Zervos. On the first expeditionary mission, I had an American observer.**

**U.N. OBSERVER ZERVOS**

**Yes, I am aware that Mr. Zuver represented the United States during that mission. But, he's been classified as a criminal and I'm not!**

**CAPTAIN COLLINS**

**There was a time before he became a human being, when I had to issue an order that he either shuts up or one of my men were to have him shot. Let's not have the same scenario, play out again! And, Zuver is not a criminal! He's a husband and father who's volunteered for a second mission. This mission, even if we succeed, is going to be terrifying even if any of us leave the alien colony alive!**

**U.N. OBSERVER ZERVOS**

**I thought there was a briefing meeting at six o'clock tonight?**

**CAPTAIN COLLINS**

**Yes, there is. But that is for the SSA pilots and the outline of the mission. In fact, I have to go get ready now.**

**U.N. OBSERVER ZERVOS**

**I would like to be at that meeting with my group to observe.**

**CAPTAIN COLLINS**

**That's between you and the General. If you show up, all he can say is no. Well, you have your rosters. For sure, I will see you tomorrow at 10:00 a.m. and I'd get all of the rest you can get! It's going to be a long day!**

**Captain Collins leaves.**

**INT. UNITED NATIONS PEACEKEEPING ASSEMBLY ROOM -- 6:00 P.M.**

**(AH QUIN, ZUVER, BABES, CAPT. COLLINS, GEN. BORSSON, JETHRA RAMA, MCKENZIE, LT. MORRISON, MAI HER, STAFF SGT. MCGREGOR)**

**General Borsson, and his entire staff consisting of Lieutenant Morrison, Staff Sergeant McGregor, Pfc Paterson, Pvt. Stevens, Pvt. Li, Pvt. Petite, Pvt. Fermin, have prepared the General's presentation. A huge monitor is visual lit up with a schematic of the Alien North Atlantic colony.**

**The room begins to fill with the SSA Pilots and those Peacekeepers from the first mission who take the front row seats which are designated with name cards. In attendance are, Captain Collins, Alvah Zuver, Koko Kalinski Zuver and daughter, Kelton McKenzie and Babes, Ah Quin and MAI HER, Zhukov, Dundee, Sherman, Samford, Taylor, Laffiette, Putin, Carcha, and Jethra Rama along with their respective families.**

**The rest of the SSA crew members take the back row seats of the auditorium. U.N. Observer Larry Zervos and his group of five enter the auditorium and sit in the back.**

**GENERAL BORSSON Ladies and Gentlemen, I am General Borsson your new commanding officer of the United Nations Peacekeeping Rapid Deployment Forces. For those of you who were on the first mission, I would like you to share your knowledge of what you encountered with your comrades and crew as soon as possible. If you look at the monitor, you will see they North Atlantic Alien Colony layout, which we recreated from the informational data received from the first mission over a year ago.**

**P.O.V. ON MONITOR WHICH PRESENTS A SERIES OF SLIDES AND AUDIO VIDEOS TAKEN FROM THE FIRST MISSION.**

**CAMERA ON General Borsson.**

**GENERAL BORSSON  
Now, you will see these creatures in action. Please note the shadowy blurs, which race across the screen. Those are aliens and their speed is phenomenal. Over in the corner of the cavern, you will note they have large artillery like laser weapons.**

**CAMERA ON MONITOR showing various attacks by aliens on SSA Crews taken from their audio visual recorders.**

**GENERAL BORSSON (CONT'D)**

**Here you will see, the horrific attack on our crew members.**

**Some of the Peacekeepers in the audience scream of fright and are shocked at peacekeepers being ripped apart and eating on the spot.**

**GENERAL BORSSON (CONT'D)**

**There is only one known survivor, who was a prisoner for over a year and actually survived. That is Captain Jethra Rama and he is here with us tonight!**

**General Borsson points Jethra Rama out to the audience. Mr. Rama, fearfully rises. His face breaks out in an immediate sweat. He is scared by the videos and memories of his captivity but composes himself.**

**The audience gives a standing ovation in recognition of this feat for survival.**

**GENERAL BORSSON (CONT'D)**

**These very same alien life forms released him with a message that they seek contact to establish peace with humans. Kraken, is the alien word for Peace. Our mission is sweet and simple as outlined to me by the Secretariat General's emergency order which I just received. We attempt to establish Peace in exchange for a peace offering of food and negotiate acceptable terms for both sides to peacefully co-exist. And, then we leave with some kind of treaty in place before war breaks out. There are just six of our SSA craft going on this mission. We not an army and we sure as hell don't have enough fire power or man power to make this mission some kind of an attack or counter-attack. Any questions before I hand out my explicit written orders to the SSA pilots?**

**JOSE MCFIGUERES FERRER**

**Sir, who is going to conduct the negotiations once we get there?**

**GENERAL BORSSON**

That question is answered in my explicit written orders. Captain Jethra Rama will be negotiating on our behalf.

**LIEUTENANT PUTIN**

But, sir? You are the general! Why aren't you or some civilian representative going to do the negotiating with the aliens?

**GENERAL BORSSON**

Good Question! Why Jethra Rama? He lived with them for almost a year in captivity. They know him and they know he is a leader. These aliens have no tolerance whatsoever, for subordinate humans. If they mistake a civilian for a non-leader, that person may be killed and eaten instantly. I take no chances.

**ALVAH ZUVER**

General, what if part of the peace treaty involves providing humans for consumption?

**GENERAL BORSSON**

Then, its war! Jethra Rama's orders are explicit, if that issue is brought forth. He is to accept their demands and use this deception to get his crew and SSA craft out of the alien colony immediately. From this point, our survival as a species on Earth, is extremely limited. Information indicates, that just like we as nations have different laws and ideologies, so do the different alien colonies. Except when their very survival is at stake they have allied with each other. They have massed alien warriors and staged their weapons just off shore of the entire world's coasts.

**AH QUIN**

General, how many warriors do we estimate that they have?

**GENERAL BORSSON**

(grimly, quietly)

**It is estimated they have seven billion warriors ready for the invasion of the upper world.**

**The entire audience gasps and faces suddenly appear very grim at this news.**

**A young Asian woman on his staff, suddenly realizes the consequences of the second mission and its success!**

**PRIVATE LI**

**General, if we don't meet every demand of the aliens, we're going to be exterminated as a species. How can we fight that many alien warriors if they chose to use their invasion forces?**

**GENERAL BORSSON**

**You're were assigned as part of my staff, but I don't think we've formally met? You're Private?**

**PRIVATE LI**

**Private Li. General Bai Li's daughter. You have taken my father's command. My mother has dual citizenship. She's Australian and Chinese. Now for the answer to my question?**

**GENERAL BORSSON**

**How can we fight? Man to alien, hand to hand, and eye to eye! Until one of us are extinct. That's how! There are about seven billion humans on this planet.**

**SERGI ZHUKOV**

**General. Is there anything else we should know about?**

**GENERAL BORSSON**

**We are all under the most extreme stress that any human can possibly endure in seeking to assure the safety and survival of our nations and our species. If I come up with something or a new secret weapon which we can use to prevail before tomorrow, I will use it and you will have new orders in your hand before you take**

off! And, if that miracle doesn't come forth, then you take these orders I've written and follow them explicitly. Each Pilot is directed not to discuss, show, or share their written orders with anyone else. There is a reason for this! If captured, you can not reveal any information, which could possibly make the situation even worse than what it is! Pilots make sure you and your crews have complied with these orders prior to take off. We will see everyone on board their vessels at 10:00 a.m. sharp! This meeting is now adjourned!

The General has six envelopes sealed, which he hands to each of the SSA pilots.

**INT. GENERAL BORSSON'S QUARTERS - LATE NIGHT**

**(GENERAL BORSSON)**

General Borsson is tired and prepares to go to bed. He has his pajama's on and crawls into bed and turns out the light.

**CLOSE IN** on the General's sleeping face, which is silhouetted in the darkness of his room.

A strange dark silhouette of a second person emerges in the room and appears to merge its form with the body of the sleeping General.

The General now appears to be experiencing some kind of nightmare, where his eyes open glazed, trance-like, then close. His body twists and turns, as his head jerks back and forth in his sleep. Quietly he talks in his sleep.

**GENERAL BORSSON**  
(very soft, sleeping)  
What is this?

**CAMERA P.O.V. ON borsson DREAM, BEGIN FLASHBACKS:**

**INT. FEMALE WOMB.**

A spermatozoa is penetrating an ova. An unusual colored halo surrounds the ova as the spermatozoa enters. Little lightning-bolt like electrical impulses are seen as the newly fertilized egg begins to divide.

DNA strands begin to line up and link billions of strands of genetic code. One particular set of DNA strands which link up, are unusually longer. An unusual electrical signal is created at the merging of the two strands, which literally runs through the entire DNA chain.

The fertilized ovum begins to divide until the appearance of a small human fetus appears, heart beating.

**INT. JOTUNHEIM CRYSTAL DOME - ANCIENT PAST**

**(GENERAL BORSSON)**

General Borsson sees himself with an ancient looking Jotun who offers him, a strange liquid to drink. He begins drinking a strange fluid, then sitting under some kind of machine. He screams in pain.

**EXT. TOOTHGNASHER-TOOTHGRINDER - ANCIENT PAST**

The Ancient Asgardian Warrior Thor is smiling and then turning, as he proceeds to board his personal spacecraft, ToothGap-ToothGrinder. The spacecraft ascends with a thunder like blast into the Asgardian atmosphere.

**INT. VALHALLA - VODTHIN'S THRONE ROOM - ANCIENT PAST**

**(ASGARDIAN MAGNI, GENERAL BORSSON, LIFTHRASHIR)**

General Borsson sees himself in strange alien clothes and making strange remarks to others in his dream as he whispers the words out loud from his deep nightmarish sleep.

**GENERAL BORSSON Take these two flasks marked with my name and this third flask to Heimdall immediately. They contain all of the wisdom of the mystical Fountain of Knowledge called, Odtherir. This will allow genetic visual imprints of technologies never before believed. Have Magni take you in his new vessel Gullfaxi.**

General Borsson sees three humans, a young male and a young male and female who look like identical twins, but brother and sister and another human being escorted by Heimdall out to the Bifrost landing strip of Asgard. He sees the young ancient Magni take the three on board and disappear in the Rainbow Bridge called Bifrost as its light beam engulfs them in the color spectrum.

The next portion of his dream takes him on another mental journey as the Rainbow bridge disappears and he's on Earth. His eyes see the spacecraft land in a small human village and humans taken aboard. He then sees the spacecraft in the air heading for a huge mountain with a large cavernous opening very near the top. The spacecraft enters the mountain and lands.

His mind fills with new strange visions, as if he were someone else, when he is looking at the young twin like female and hears the conversation between her and someone else, he knows to be the young Asgardian Warrior, Magni.

**ASGARDIAN MAGNI** Everyone we are safe now! Thor's great vessel ToothGap-ToothGrinder has brought us to safety. We will wait out the great rains on this mountain named Gimli.

Magni turns towards the humans and notices the beauty of the young human maiden who accompanied him on the journey with her twin brother, named, Lif.

**ASGARDIAN MAGNI (CONT'D)**  
What your name?

**LIFTHRASHIR**  
My name is Lifthrashir.

**ASGARDIAN MAGNI**  
My name is Magni and you shall become my wife!

General Borsson's mind flash back again, as he turns and twists his body during the time he relives the events of this uncontrollable nightmare.

**GENERAL BORSSON**  
Fjalar and Galar, I want these new weapons, the black hole imploders installed on all Asgardian vessels immediately, starting with mine first!

General Borsson now sees a strange young man talking to Thor inside of Thor's ship ToothGap-ToothGrinder, who is laughing as he speaks.

**STRANGE YOUNG MAN**  
You have a loose cable there in the main feed.

**CAMERA END borsson's DREAM FLASHBACKS:**

The General wakes up from his dream with a scream. His body is massive sweat! He turns the light on! The clock reads six o'clock a.m. He stands up and looks out the window of his quarters. It is daylight.

The General realizes who he is and what he can do!

**GENERAL BORSSON (CONT'D)**  
Gimli Mountain! The secret weapon! Magni and Lifthrasir. They married! Now, I understand!

**INT. GENERAL'S QUARTERS - LIVING ROOM -- MOMENTS LATER**

**(CAPT. COLLINS, GENERAL BORSSON, JETHRA RAMA, JOSE MCFIGUERES FERRER, LT. DUNDEE, LT. PUTIN, LT. MORRISON, STAFF SERGEANT MCGREGOR)**

The General walks over to the telephone and dials a number.

**GENERAL BORSSON**  
Staff Sergeant McGregor?

**STAFF SERGEANT MCGREGOR (O.S.)**  
Uh...Yes? Is this General Borsson?

**GENERAL BORSSON**  
Yes. Get Rama, Collins, Ferrer, Dundee, Putin, and Morrison over here right away! And, tell them to get their families ready for a possible emergency journey. They are not to discuss this meeting with anyone.

**STAFF SERGEANT MCGREGOR**  
Yes, sir! I have them over there as quick as I can!

Within minutes, there is a knock on the General's door to his quarters. The General opens the door. Staff Sergeant McGregor, Captain Collins, Rama, and Ferrer; Lieutenants Dundee, Putin, and Morrison, are all present. The General invites them in.

**GENERAL BORSSON**  
There's been a change in orders. Here are your new orders. Please read them, follow them explicitly, and if you have any questions, ask now!

The General hands each of the pilots their respective new orders, sealed in an envelope.

The pilots look bewildered over the orders.

**JETHRA RAMA**

Sir, my orders are pretty much the same! I am to make contact with the alien leader and take food and negotiate a peace. But, I don't understand to proceed towards Mars? That's outer space.

**GENERAL BORSSON**

Yes, outerspace! And, I'm not going to be standing next to you. You're on your own! I have one oral order for you and your crew, which supersedes all other orders after you arrive and fulfill your mission. Get the hell out of there and get out of Earth's orbit as fast as your vessel can take you. But, if you succeed in establishing some kind of acceptable peace treaty, you contact me instantly. Is this understood?

**JETHRA RAMA**

Yes, Sir!

Lieutenant Morrison comes forward.

**LIEUTENANT MORRISON** Sir, your orders indicate that I am to pilot the SSA6 and drop you off at a secret weapons site. That's understood, but I am not proceeding to the North Atlantic to back up Rama?

**GENERAL BORSSON**

No. You are to return to base, as fast as you're vessel can take you. Load up all of the crew members families, friends and lovers and any human being you can get on board as fast as you can. Make sure you get Ah Quin's lady, McKenzie's girlfriend, and Kalinski's wife and child. Then, with as many others as you can safely carry, head for deep space! We will regroup out beyond Mars.

**CAPTAIN COLLINS**

Sir, my new orders indicate that I am to take the Light Elves with me and the North Americans to find the Star Blaster and back-up Rama. The little creatures disappeared right after they arrived here.

General Borsson reaches over and takes a bag of the pills from his night stand, then gives Captain Collins one of mushroom like shaped Utgardian pills.

**GENERAL BORSSON**

The Light Elves are next door. Here take one of these now and keep the bag of pills. Remember, to see the light elves, we're suppose to take one of these pills!

**CAPTAIN COLLINS**

That's right! Where did you get these?

**GENERAL BORSSON**

Our Ambassador left them with the U.N. directives they gave me. So, I tried one, and when I opened the door next to my quarters, I realized just exactly who the light elves are! Remember, if the aliens can see them, have them hold their tongues and slowly return to the SSA. That's the deal! Otherwise, they are going to scout out and look for the Star Blaster.

**CAPTAIN COLLINS**

Should I give the North American's some of these pills.

**GENERAL BORSSON**

No, that's not necessary. You keep them for yourself! When Captain Rama takes off, you get your ship out of Earth's orbit and into outerspace. The North American's don't need to know this new plan.

**CAPTAIN COLLINS**

As you command!

**LIEUTENANT DUNDEE**

Sir, you want me to take off last. But, prior to take off you want me to unload some of

**the food for the aliens and take on passengers. Is that correct?**

**GENERAL BORSSON**

**That's correct. I don't want any of the two crews to feel like they have been abandoned. The other crews don't need to know, your not going to the Alien colony. You take, food, crop seed, tools, tents, medical supplies, and people where you will head for deep space. Is this understood?**

**LIEUTENANT DUNDEE Yes, sir! I don't understand what your secret weapon is or the overall plan, but I know our situation here on Earth is not good.**

**LIEUTENANT PUTIN**

**My orders are pretty much the same at Lieutenant Dundee's. Take off second to last with everyone's family members and food, blankets, tools, crop seed, medical essentials. Correct?**

**GENERAL BORSSON**

**That is correct. You and Dundee with make sure Rama's, Ferrer's and Collin's crew have their family member's on board. If there's not enough room, we'll have one last ship returning after their mission is complete!**

**JOSE MCFIGUERES FERRER**

**And, that sir, is my ship!**

**GENERAL BORSSON**

**That's correct. Your mission will be to carry one of the most explosive nuclear devises on board and detonate it when and where your orders tell you. We can not take a chance with putting civilians in harm's way. Which may seem ridiculous under the circumstances, but, there is always the hope, that Rama can secure a peace treaty.**

**CAPTAIN COLLINS**

But, that isn't a secret weapon? What weapon are you going to secure?

**GENERAL BORSSON**

There is only one in existence and its best its secret stays with me. Okay, everybody has their orders. Be casual with your crews. If anyone asks to bring someone. Just say yes and do it! It will save crucial time later. But, keep this new strategy totally secret between us. Let's go do what we gotta do!

**EXT. KERGUELEN U.N.P.K.F. AIRPORT HANGER -- EARLY MORNING**

**(MAGNI LEIVO)**

When no one is around, Magni Leivo sneaks aboard the SSA6 as a stowaway and hides in the back of the craft in one of the storage containers.

**EXT. KERGUELEN U.N.P.K.F. AIRPORT HANGER - MORNING 9:45 A.M.**

**(ALVAH ZUVER, BABES, CAPTAIN COLLINS, GENERAL BORSSON, JETHRA RAMA, JOSE MCFIGUERES FERRER, KOKO ZUVER, KELTON MCKENZIE, LT. DUNDEE, LT. PUTIN, LT. MORRISON, MAI HER, MRS. ZHUKOV)**

The Six Flight Crews of the SSA's arrive with their families and girlfriends who are there to bid farewell.

Kelton McKenzie is kissing his girlfriend Babes, good bye. Lieutenant Dundee comes is standing near the couple and overhears the conversation.

**KELTON MCKENZIE**

Babes, I am going to miss you sooo much!  
Damn, I don't want to leave you.

**BABES**

I'm going to miss you too Kelton. I'm scared for you!

**LIEUTENANT DUNDEE**

Damn Kelton! As long as she promises to stay on board, why don't you just bring her along for the ride!

**KELTON MCKENZIE**

Are you serious?

**LIEUTENANT DUNDEE**

I'm the pilot and two can fit in your flight seat! Just keep it quiet and bring her aboard.

**BABES**

Oh, thank you Lieutenant!

Babes, gives Lieutenant Dundee a hug and a kiss on the cheek.

Lieutenant Morrison is standing near Alvah and Koko Kalinski Zuver, who have their little girl with them. Alvah, is hugging Koko, whose crying.

**KOKO ZUVER**

I don't want you to go Alvah! I know there's not much time for any of us! I just know it, and I want this time for us to be together!

**ALVAH ZUVER**

I know it too! I've dreaded this day! Those creatures aren't going to negotiate any kind of peace that we can accept.

Morrison walks up to the two.

**LIEUTENANT MORRISON**

Alvah, if you keep it quiet, you can take Koko and your little girl on board and show them around before we go.

**ALVAH ZUVER**

Seriously?

**LIEUTENANT MORRISON**

Kalinski was a SSA crewmember before. It's only proper that she look over one of the SSA's one last time. Sure go ahead!

Alvah Zuver takes his wife and child aboard the SSA6.

Captain Collins of the SSA3 takes control of her crew expeditiously.

**CAPTAIN COLLINS**

Come everyone! We're the first SSA to take off. Let's get on board!

All of the North Americans hastily come on board. The hatch door closes. The small taxi vehicle pulls the craft out onto the runway.

Captain Rama of the SSA1A makes a similar command to his crew.

**JETHRA RAMA**

Let's go! Everyone on board.

All of the Asians abruptly come on board and prepare for take off. A second taxi vehicle follows Collins' SSA and pulls Rama's craft out of the hanger.

**JOSE MCFIGUERES FERRER**

Let's go! We're third in line!

All of the South Americans enter the SSA4A and the hatch closes. A third taxi vehicle follows Rama's SSA out on to the runway.

Everyone is already aboard the General's SSA6 including an unknown stowaway.

**GENERAL BORSSON**

Okay, let's close the hatch!

Alvah and Koko are taken by surprise.

**ALVAH ZUVER**

General, my wife and child are still on board! I don't want them near that Alien colony. They have to get off.

**LIEUTENANT MORRISON**

Alvah, the General knows what he's doing! Just sit back and have Koko and your daughter sit with you.

**GENERAL BORSSON**

It's okay, Alvah, this ship isn't going to the Alien colony. There's been a change of plans.

**KOKO ZUVER**

What?

**GENERAL BORSSON**

You're just coming along for the ride!

**A fourth taxi vehicle begins to pull the SSA6 out following Captain Ferrer's craft onto the runway.**

**LIEUTENANT PUTIN**

**Ms. Her. We're about to depart. How would you like to give us a hand and go for an adventure?**

**MAI HER**

**Seriously? And, meet Aliens?**

**LIEUTENANT PUTIN**

**We have a different mission. And, we need a little extra help.**

**MAI HER**

**Sure!**

**The Lieutenant notices Mrs. Zhukov being consoled by both Mrs. Ferrer and Mrs. Lievo, who are all crying, as they start to walk away.**

**LIEUTENANT PUTIN**

**Ladies, how would like to join us? We can use your help?**

**The two South American's don't understand what Lieutenant Putin is trying to say. But, Ms. Zhukov surprisingly accepts. The other two women walk away from the hanger.**

**MRS. ZHUKOV**

**Anything which can help my husband on this mission, I will help too!**

**The two remaining SSA5A and SSA2A begin to quickly unload their cargo of food and replace most of it with other cargo instructed by the General. Some of the crew leave the hanger very speedily to seek out crew members families to bring aboard.**

**EXT. KERGUELEN U.N.P.K.F. AIRPORT RUNWAY - CONTINUOUS**

**The SSA3, SSA1A, SSA6, and SSA4A lift off from the Kerguelen runway and head directly towards the North Atlantic.**

**EXT. ATLANTIC OCEAN ATMOSPHERE -- MOMENTS LATER**

**The Four SSA are flying in formation towards the North Atlantic over North Africa.**

The SSA4A trails the other three SSA's when it suddenly breaks formation and changes its positioning to a projectory angle for outerspace flight.

**INT. KERGUELEN U.N.P.K.F. AIRPORT HANGER - FIFTEEN MINUTES LATER**

The SSA2A and SSA5A are taxied out onto the runway a few minutes after the other four have departed.

**EXT. KERGUELEN U.N.P.K.F. AIRPORT RUNWAY - MOMENTS LATER**

The two SSA ascend from the Kerguelen runway on a projectory course towards outerspace.

**INT. SSA6 - MOMENTS LATER**

**(GENERAL BORSSON, LIEUTENANT MORRISON, MAGNI LEIVO, PRIVATE FERMIN, PRIVATE PATERSON)**

General Borsson is piloting the SSA6 in formation with the other two SSA's.

The stowaway Magni Leivo comes out of hiding. PRIVATE FERMIN takes first notice.

**PRIVATE FERMIN**

Hey, we got ourselves a stowaway!

The entire crew looks around to see Magni Leivo standing up from a storage container.

**PRIVATE PATERSON**

What should we do with him General?

**GENERAL BORSSON**

Bring him up here!

The boy walks up to the General on his own.

**GENERAL BORSSON (CONT'D)**

Son, what made you decide to stow away on my ship? If you wanted to come, you could have asked.

**MAGNI LEIVO**

A dream!

**GENERAL BORSSON**

What?

**MAGNI LEIVO**

I had a dream General. It was very strange, like I was on another world. But, I dreamed of a mountain and a hammer.

**LIEUTENANT MORRISON**

(laughing)

Son, that's a pretty strange dream. What do a hammer and a mountain have in common?

**MAGNI LEIVO**

The hammer has some kind of magical power and the mountain. Gimli.

**GENERAL BORSSON**

What mountain did you say?

**MAGNI LEIVO**

Gimli, sir!

**GENERAL BORSSON**

What's your name son?

**MAGNI LEIVO**

Magni. Magni Leivo.

**GENERAL BORSSON**

(exclamation, normal)

**MAGNI!** Everything is okay! You can sit up here and check out the view from the pilot's area!

**MAGNI LEIVO**

Thank you sir!

**EXT. SSA6 OVER EUROPE -- CONTINUOUS**

**(CAPTAIN COLLINS, GENERAL BORSSON)**

General Borsson suddenly breaks formation and heads in a North Easterly direction.

The SSA3 commanded by Captain Collins and SSA1A commanded by Captain Rama continue on their North Atlantic headings.

**EXT. SCANDINAVIA MOUNT GIMLI -- MOMENTS LATER**

**(ALVAH ZUVER, GENERAL BORSSON, LT. MORRISON, MAGNI LEIVO)**

**General Borsson slows the speed of the SSA6 and descends, as he approaches a mountain range in Scandinavia.**

**General Borsson has landed the SSA6 on top of a mountain somewhere in Scandinavia.**

**GENERAL BORSSON**

**Ladies and Gentlemen. This is where I get off. On this mountain is our only hope to neutralize the Alien Star Blaster before it destroys the earth. Lieutenant Morrison you take over as the pilot.**

**LIEUTENANT MORRISON**

**Yes, sir! But, what are our further orders? What do you want us to do?**

**GENERAL BORSSON Don't panic Morrison. Just follow the orders I gave you earlier. I have a backup plan. If the Aliens fire the Star Blaster to destroy the Earth, the secret weapon in this very mountain, may be able to alter the course of a habitable replacement for the Earth. The Jupiter moon of Europa!**

**Alvah is not quite understanding what the General has planned.**

**ALVAH ZUVER**

**(confused)**

**General, you're not going to strand us here are you? What are we suppose to do?**

**GENERAL BORSSON**

**Lieutenant Morrison, take this vessel and get your asses back to Kerguelen Island and evacuate your loved ones to outer space. If I am successful, Europa will stabilize in about 40 days, where it can colonized. Take as much food from the warehouses as you can. And don't forget those United Nation's tools and seeds for crops stored there either! We're going to need those, if the worst comes!**

**ALVAH ZUVER**

And, if you fail?

**GENERAL BORSSON**

Well, you will have lived 40 days longer than anyone else left on Earth. And, maybe you can make it to the 4th destiny created by the Utgardians. I don't have all of the answers to your futures. I only have the answer to my destiny!

**LIEUTENANT MORRISON**

General, it's been an honor serving with you! Okay, we're going back to Kerguelen Island, and pick up some family and food for the duration. Then, we're going to wait a couple months out in space with the hope that you've succeeded!

The two men salute. The General opens the SSA6 hatch. The young lad who came aboard, as a stow away stand ups.

**MAGNI LEIVO**

General, I want to go with you! It was also in my dream! Remember, the mountain in my dream is named, Gimli.

The General turns and looks at the young man with a peculiar look.

**GENERAL BORSSON**

Gimli, you said didn't you?

**MAGNI LEIVO**

Gimli, sir!

**GENERAL BORSSON**

Come on son! I think I need a little help with this mission.

**EXT. GIMLI MOUNTAIN, SOMEWHERE SCANDINAVIA -- CONTINUOUS**

**(GENERAL BORSSON, MAGNI LEIVO)**

General Borsson enters the mountain top cavern of Mount Gimli with the young Costa Rican lad, Magni Leivo. The two walk for several minutes and there it is, as if it were left parked just yesterday. The Asgardian Spacecraft ToothGap-ToothGrinder, once owned by the legendary Thor!

**MAGNI LEIVO**

How did we know it was here?

**GENERAL BORSSON**

Destiny comes with many futures! We were genetically programmed with visual imprints of a previous life and world that no longer exists.

General Borsson walks up to the spacecraft and touches an area next on the spacecraft which instantly causes a landing ramp to extend and the hatch door to open.

**GENERAL BORSSON (CONT'D)**

Let's go inside! We got a world to save!

The two enter the spacecraft. Moments later the landing ramp suddenly retracts and the hatch closes. The twin engines begin to thunder and roar as the craft lifts off the cavernous floor, with only a few feet to spare.

ToothGap-ToothGrinder almost magically eases itself out of the cave entrance and hovers in mid air.

**INT. SSA6 -- CONTINUOUS**

**(ALVAH ZUVER, LIEUTENANT MORRISON)**

Lieutenant Morrison is at the controls, as Alvah Zuver looks over his shoulder at this strange craft.

**LIEUTENANT MORRISON**

I'll be damned! These Generals sure keep secret weapons in the strangest places! You know, I believe his plan is to save all of us that he can, with what he's got!

**ALVAH ZUVER**

Indeed they do! General's are generals, because they know all of the weapons available to win. Let's hope whatever secret weapon he has on board will neutralize the alien Star Blaster before they decide to use it or exterminate the human race for food!

**EXT. WEST COAST UNITED STATES OF AMERICA -- MORNING**

**(CONVICT 1 and 2, MILITARY OFFICERS 1 AND 2)**

**Military check points have been set up 50 miles from the Oceanic coasts of the United States of America, where all branches of military personnel are indiscriminately handing out every kind of available weapons to bus loads of convicts who are taking their first steps of freedom from the bus, and being led into a line for weapon distribution. The released prisoners, who are on amnesty don't really have any idea of what they are about to get themselves into.**

**Mass cars, trucks, busses, and people are on the road coming from the direction of the coasts.**

**One check point have hundreds of military personnel distributing weapons immediately and directing the new convict troops towards the coast!**

**MILITARY OFFICER 1**

**Chose your weapon, all the ammunition you can carry and proceed to the coast!**

**CONVICT 1**

**Can't you tell us who the enemy is or how many there are or how far away they are? Hell, I've lived around here before, we must be 50 or 60 miles from the coast.**

**MILITARY OFFICER 1**

**I don't know how many there are, or who they are, but our orders are to distribute any weapons of your choice, direct you towards the coast and if you retreat, we are to shoot you! If you can drive and want to take a Humvee, truck, or tank or artillery, they're over there! You'll know who the enemy is, when you see them!**

**The military officer points towards a long line of tanks.**

**The convict, gets a surprised look over his face, while grabbing a L.A.W., a grenade launching machine gun and masses amounts of ammunition.**

**CONVICT 1**

**It must be the damn Chinese! I think I'll just walk, and let someone else get there first!**

**MILITARY OFFICER 1**

**Next!**

**A moment later.**

**CONVICT 2**

**Hey dude, wait up! I decided to walk too!**

**The first convict turns around and waits.**

**From a distance Military observers notice the convict stopping rather than advancing.**

**MILITARY OFFICER 2**

**(shouting to soldiers)**

**There is a convict whose turned to retreat.  
Ready, aim....**

**CONVICT 1**

**Hey fuck heads hold your fire! I'm not retreating, I'm waiting for Johnny Rebel to catch up!**

**MILITARY OFFICER 2**

**Hold your fire! He's just waiting!**

**The second convict catches up. There are groups of hundreds, and thousands of convicts in front of the two convicts on the road to the coast.**

**CONVICT 2**

**Damn, they're not bullshiting are they?**

**CONVICT 1**

**Hell no! They were going to zap my ass. You know a person can disappear with 50 or 60 miles between them and the ocean.**

**CONVICT 2**

**I hear that! Who the hell are we fighting?**

**CONVICT 1**

**I have no idea! But, they said, we'd know them when we see them! So, from this point on, anything that's in front of me and has a military uniform on, get's their ass shot off by me! This is our territory now!**

**EXT. CHINA - EAST COAST - MORNING**

**Massive air flights are dropping millions of troops near the coast. Tanks, are pouring in by the thousands, and thousands of aircraft fighters are in the sky over the coast. The civilians have been being evacuated for hours.**

**EXT. TOOTHGAP-TOOTHGRINDER SPACECRAFT - CONTINUOUS**

The Asgardian spacecraft repositions itself in mid-air. Then, similar to a bolt of lightning, the spacecraft blasts off from Earth's atmosphere towards the great void of outer space.

**EXT. NORTH ATLANTIC OCEAN - CONTINUOUS**

**(CAPTAIN COLLINS, JETHRA RAMA)**

The SSA3 and SSA1A arrive over the North Atlantic and position their craft for descent into the ocean for travel to the oceanic Alien Colony.

The two vessels dive into the ocean and level their craft out near the oceanic floor.

The two vessels near the oceanic trench where the Alien Colony entrance is. They descend down one of the oceanic trench walls.

The two SSA's position themselves for the SSA1A to enter the Trident Emblem through huge strange bubble of atmosphere which separates the colony entrance from the ocean depths.

**CAPTAIN COLLINS**

Okay, Captain Rama, go a head and open the Trident Emblem doorway!

**JETHRA RAMA (O.S.)**

Roger! I've got the Utgardian gadget right here to do just that!

Captain Rama aims and pushes a small Utgardian type devise which is some kind of remote control activation for opening the huge entrance to the Alien cave.

The Trident Emblem suddenly opens to expose a very strange bubble like entrance opening. It appears the opening was the former retractor-protractor beam opening of an ancient gigantic Jotun space ship.

**INT. SSA1A -- CONTINUOUS**

**(CAPTAIN COLLINS, JETHRA RAMA, MASTER SARGEANT SAGE, PRIVATE HUENG, THE ENTIRE SSA1A CREW)**

The entire crew is getting ready for this peace mission. They are putting on their micro audio-visual recorders, preparing their personal weapons, when  
Captain Rama gives some additional orders.

**JETHRA RAMA**

**Master Sargent Sage. We are going to back in to the Alien cavern stern first. If you see anything stranger than what already is stranger than hell, then get this craft out of the cave and to safety. There's a final standing order in the drawer here, which will tell you where to go. Secondly, turn this chair around and you cover the hatch door while everyone is unloading, but do not leave the SSA1A under any circumstances. Understood?**

**MASTER SARGEANT SAGE**

**Yes sir!**

**JETHRA RAMA**

**Private Hueng, you stand by the door, with your medical bag right there. If there is an attack, people will be missing arms and legs. They're going to need immediate help. And keep a laser blaster on the hatch from the aft end of the SSA1A, understood?**

**PRIVATE HUENG**

**No problem, Jethra!**

**JETHRA RAMA**

**Cpl. Meng, Pfc. Lian, Privates Lin, Kento, Ryo, and Mr. Quin. As soon as I leave the hatch, do not follow me. Just remove the food and place it just a few meters on either side of the door, but leave yourself a straight shot to the hatch. And, remember, NO ONE TALKS or even attempts to yourself, another crew member or talk to any alien. We are classified as a sub-species. If they do not perceive you as a leader they will rip you apart and eat you alive. Understood?**

**THE ENTIRE SSA1A CREW**

**(in unison)**

**Yes, sir! Understood.**

**Jethra turns on the audio-video monitor for ship to ship communications.**

**JETHRA RAMA**

Captain Collins we are ready to enter.

**CAPTAIN COLLINS (O.S.)**

Roger. Give me a moment for last minute instructions, and we will follow you in.

**JETHRA RAMA**

Roger. Standing by.

**INT. SSA3 -- CONTINUOUS**

**(CAPTAIN COLLINS, CORPORAL SIMEL, JETHRA RAMA, PFC SHULTZ, PRIVATE JACOBSON, SERGEANT LAFFIETTE, U.N. OBSERVER ZERVOS)**

Captain Collins is making last minute instructions to her crew.

**CAPTAIN COLLINS**

Okay. Last minute instructions. Remember we are strictly back-up for the SSA1A. Other than unloading food, we do not communicate with the alien life forms. If they do not perceive you as a leader they will kill you while eating you alive. Don't stray or follow any alien without my direct orders to do so.

**U.N. OBSERVER ZERVOS**

I thought we had a secondary mission here to find the Star Blaster? And, where are the other SSA's? Something's going on that we don't know about!

**CAPTAIN COLLINS**

You're right Mr. Zervos. Something is going on that you don't know about.

**SERGEANT LAFFIETTE**

Captain Collins, what about our unseen guests? Where are they?

**CAPTAIN COLLINS**

They are right here! I am about to instruct them too.

The **SIX LIGHT ELVES** are standing up forward near the Pilot's chair.

**CORPORAL SIMEL**

**What's going on here? Light Elves?**

**CAPTAIN COLLINS**

**I thought everyone had been briefed on the Light Elves and their participation with this mission.**

**PFC SHULTZ**

**I don't know anything about Light Elves either. Do you mind filling us in?**

**CAPTAIN COLLINS**

**Here eat one of these! Then, you will understand. I don't have time to explain all of the new orders. We are to unload food, stay by our SSA and keep our mouths shut. Once the food is unloaded. We leave. During this time, the Light Elves are going to search for the Star Blaster. Unless, they can be seen by the Aliens. If that is the case, then we abort the search and get out of here!**

**She hands Private First Class Shultz a pill who pops one in his mouth and swallows.**

**Not a moment later.**

**PFC SHULTZ**

**(looking down at six elves)**

**Holy Shit! I see six little people giggling and looking at me! Okay, Light Elves! Right!**

**PRIVATE JACOBSON**

**Those aren't exactly our orders, are they Mr. Zervos?**

**U.N. OBSERVER ZERVOS No.**

**However, if these little humanoids which can't be seen by our eyes, can accomplish the mission. Let them! If they can't accomplish the mission, then I will issue new orders.**

**CAPTAIN COLLINS**

**Mr. Zervos, if you screw up this mission, I will personally shoot you! Understood?**

**U.N. OBSERVER ZERVOS**

**Captain Collins. I have no intentions of screwing up this mission. We have specific instructions and a mission to accomplish. Our procedures are very simple and explicit. Zero tolerance for our enemies. If your not with us, then you're against us!**

**CAPTAIN COLLINS**

**Zervos, I have no intentions of standing in your way. But, when I decide to leave, and you fail to follow my orders and your not here! I will leave you and your crew behind. These creatures are just as procedural as you Americans. When it comes to zero tolerances, I do compromise for the safety and security of my crew.**

**U.N. OBSERVER ZERVOS**

**Your crew are Americans and I am their superior. They will do as I say or they will be imprisoned when they return to the United States.**

**CAPTAIN COLLINS**

**Sir, this is a United Nations Peacekeeping mission. This crew isn't even on American soil. Is your country going to try and pull another Zuver situation?**

**U.N. OBSERVER ZERVOS**

**We have new laws to control our citizens overseas. They will do as I say.**

**CAPTAIN COLLINS**

**Oh, I see! You try to impose American laws internationally, huh? Do you send spies out to see if your citizen are breaking American laws when they're in other sovereign nations which has more liberal laws or do pay other governments to spy on your citizens?**

**U.N. OBSERVER ZERVOS**

**Both! I am not here to argue politics with you. I am here to fulfill a mission.**

**CAPTAIN COLLINS** You're right! Well, as long as your Americans unload the food we have on board, until I leave, then you can do whatever mission you've got to do!

**U.N. OBSERVER ZERVOS**  
Agreed. Private Barnes, Jacobson, Bachman, Weeks, Pfc. Shultz, Cpl. Simel and Sergeant Laffiette. Once the food is unloaded. Search for any human captives, while I negotiate a peace treaty with the aliens on behalf of the United States of America.

**SERGEANT LAFFIETTE** Mr. Zervos. I am not American. I am Canadian, whose commanding officer is Captain Collins. I was on the first expedition and know what these creatures are capable of. I will man my weapon and cover the hatch door!

**U.N. OBSERVER ZERVOS**  
Sargent, you will do as I tell you!

Sargent Laffiette immediately pulls his weapon and places it at the temple of U.N. Observer Zervos.

**SERGEANT LAFFIETTE**  
Sir, I told you what my orders are! To fulfill my orders, I will splatter your brain matter all over this compartment before the aliens eat you for breakfast! Comprehendo?

**U.N. OBSERVER ZERVOS**  
You've made your point.

Sergeant Laffiette holsters his laser blaster. Both men look at each other with extreme contempt.

**CAPTAIN COLLINS**  
Jethra we are ready to follow you in!

**JETHRA RAMA (O.S.)**  
Roger! Let's do it!

**EXT. NORTH ATLANTIC OCEANIC TRENCH ALIEN COLONY ENTRANCE -  
MOMENTS LATER**

**(MASTER SARGEANT SAGE)**

The SSA1A enters the bubble stern first. Private Kento, Master Sgt. Sage, and Pfc. Lian have their weapons unlocked and ready to fire as the SSA1A enters.

**INT. ALIEN COLONY CAVERN -- CONTINUOUS**

Aliens are positioned everywhere, on some type of strange laser like artillery pieces mounted in various places around the huge luminous cavern. All weapons are directed at the cavernous opening and on the SSA1A.

**EXT. NORTH ATLANTIC OCEANIC TRENCH ALIEN COLONY ENTRANCE -  
CONTINUOUS**

**(PRIVATE JACOBSON)**

The SSA3 now enters the bubble stern first. Sargent Laffiette, Pfc. Shultz, and Private Jacobson have their laser blasters unlocked and aimed at all alien targets as the SSA3 first enters the huge bubble and then descends down to the cavern floor just forward of the SSA1A.

**INT. SSA3 -- CONTINUOUS**

**(CAPTAIN COLLINS, JETHRA RAMA, LIGHT ELVES 1 THROUGH 6)**

Captain Collins reminds the Light Elves of safety precautions.

**CAPTAIN COLLINS Remember, if you perceive that the aliens can indeed see you. Touch the shoulder of the elf in front of you. That is the signal to return to the ship. Walk slowly backwards towards the ship and do not attempt to talk. Or, the aliens will want to find out if you taste better than humans. Exit after the last human leaves this craft. I will be remaining right here, with a laser blaster in my hand to protect. Understood?**

**LIGHT ELVES 1 THROUGH 6  
(in unison)  
Understood.**

**CAPTAIN COLLINS**

Okay.

**JETHRA RAMA (O.S.)**

Captain Collins. I am about to open the SSA1A hatch and exit.

**CAPTAIN COLLINS**

Roger. We will follow.

**EXT. ALIEN CAVERN FLOOR -- CONTINUOUS**

**(CAPTAIN COLLINS, JETHRA RAMA, U.N. OBSERVER ZERVOS, ZY)**

HUNDREDS OF ALF's come from everywhere in shadowy blurs, and suddenly form two processions, which makes sort of a path way from each SSA which merge as one pathway towards their leader Zy. A tunnel entrance is directly behind the Alien leader.

The hatch doors of the SSA1A and SSA 3 open almost simultaneously.

Captain Jethra Rama exits the SSA1A first. He walks a short distance then stops, to place himself between the alien leader and his crew. His crew begin to unload the food a few meters away from their vessel, which is intended as a peace offering for the aliens.

The alien leader and warriors intently and curiously watch the humans unload their cargo.

U.N. Observer Zervos exits the hatch first from the SSA3. He walks out and observes what Captain Rama has done and proceeds out to a similar distance from the SSA3. His crew exits and step a little aside as the six light elves exit the SSA3. Then, the crew begins to unload the food.

The alien leader and warriors intently watch the humans unload the second ship simultaneously with the first vessel.

The Alien Leader motions the two humans forward by pointing his arm, and a swirl of his wrist.

The Light Elves very slowly walk towards but way behind U.N. Observer Zervos.

Jethra Rama proceeds directly up to the Alien Leader Zy. U.N. Observer Zervos follows his lead and comes up and stands next to Jethra Rama. Jethra maintains his composure.

Zy's long snake like tongue protrudes out and his second mouth speaks.

**ZY**

**Kraaaken. Peace! Rama you come back?**

**JETHRA RAMA**

**Peace! Kraken. I come as leader of humans. Talk Peace.**

**Before U.N. Observer Zervos can say a word, suddenly, the Alien Warriors surround the Light Elves, who are half way between Zervos and the SSA3.**

**An Alien Warrior grabs one of the male Light Elves and bites the upper portion of his body off, chewing with a crunching sound, the instantly dead Light Elf.**

**Jethra notices the commotion and turns to see. There is nothing there. Then he realized the Light Elves must be visible to the Aliens.**

**JETHRA RAMA (CONT'D)**

**Little humanoids not food. Leaders of other human species!**

**Zy looks towards the Light Elves. With a hissing sound and a twirl of his wrist, somehow orders the Alien Warriors to stand back from the remaining Five Elves.**

**The last of the five elves touches the shoulder of the one in front, who in turn touches the next one until all are notified to back up and return to the SSA3.**

**They begin to back up.**

**ZY**

**Why little humanoids return to ship and not come before Zy?**

**JETHRA RAMA**

**Death. Little ones mourn death. They will return. I bring peace offering of new food for you!**

**ZY**

**Where is foood?**

**Jethra turns and points to boxes.**

**JETHRA RAMA**

**There! Inside much food. Humans can supply food. Trade for peace.**

**ZY**

**Much energy. Much food needed. Peace with humans is critical for our survival.**

**Zy looks again at the containers being unloaded. He makes a swirling motion. One of the warriors close by picks a container and brings it before Zy.**

**Zy opens the container. It filled with large jars of peanut butter. Zy opens the jar and taste the nourishment by his second mouth going down and biting a glob of the peanut butter out of the jar.**

**ZY (CONT'D)**

**Fooooood? Food sticks in mouth.**

**JETHRA RAMA**

**Good protein food. Name Peanut butter. Humans supply much food to Zy for peace.**

**U.N. Observer Zervos whose listening to the negotiations begins to speak to Zy and point to himself.**

**U.N. OBSERVER ZERVOS**

**Peace! Kraken. I am a human leader! We trade food for peace.**

**ZY**

**Name?**

**U.N. OBSERVER ZERVOS**

**My name is Zervos. I represent all humans of the United States of America. I come in Peace. Kraken. Food for Peace. We trade food for human captives and peace.**

**U.N. Observer turns and points to the containers by the SSA3.**

**Zy hisses and makes a swirling motion. A second Alien Warrior picks up a container and places it before Zy. Zy opens the container. The container is filled with large jars of Pineapples. Zy opens one jar. His second mouth extends out and bites into the pineapples. A scream screeches out of his second mouth, which has spit the pineapples out. Zy throws the jar breaking it and splattering the contents.**

**ZY**

**No Fooooood. Not Goooood.**

**U.N. Observer Zervos tries to hide his intense fear. He urinates in his trousers from the fright of Zy's intense anger and displeasure.**

**U.N. OBSERVER ZERVOS**

**Humans have many foods. Each food is different. Food for human captives and peace.**

**ZY**

**Humans fooood. Good Fooood. We trade for Peace. Kraken for fooood. I show you Kraken for Fooood.**

**Zy leads Jethra Rama and U.N. Observer Zervos into the tunnel directly behind him.**

**The tunnel leads into an observation deck covered with some kind of strange luminous tinted glass or plastic covering. Below is a large circular room with entrances and one exit. The exit tunnel is also covered with a glass roof like observation area. Everything is empty. Jethra Rama and U.N. Observer are confused at what Zy is trying to show them.**

**Zy points down to the huge circular room, which is almost a hundred yards in circumference.**

**ZY (CONT'D)**

**We show compassion to humans. Watch.**

**The many doors to the circular room open, as Jethra Rama and Zervos observe. Almost a thousand humans enter through the doors.**

**Once the room is filled with human life, all of the doors shut closed. Everyone below is looking around with the fear of death on their faces as they see Rama and Zervos above them with the Alien Leader. The two human leaders can hear many pleas for help from different languages including English.**

**The exit door opens. Suddenly all of the doors from which the humans first entered reopen. Hordes of Aliens pour in and push the humans towards the exit door. Zy escorts the two men further down the glass partition of the exit door and its lower path like hallway. A conveyor belt like contraption is on the floor like a type of horizontal escalator. The humans being pushed in through the exit door, suddenly have a laser zap their head and they fall to the floor of the conveyor belt. They are dead instantly**

**As the conveyor belt takes the body of each human down its path, other strategically positioned lasers, cut off arms, legs, heads, and divide the human torsos into two halves.**

Rama and Zervos look at each other in disgust. Zy is showing them a human meat processing plant where humans are being processed like cattle for food. Zy points downward at the dissected human bodies.

**ZY (CONT'D)**

Fooood. GoodFooood for Kraken.  
Peace!

**JETHRA RAMA**

I understand now! Yes, we trade food for Kraken. Peace.

**U.N. OBSERVER ZERVOS**

Do you know what the hell you're telling this freak of nature?

**JETHRA RAMA**

You negotiate for yourself mister!

Zy's mouth extends out and right in front of U.N. Observer Zervos.

**ZY**

Zervos, you understand now? You leader!  
Do you trade for peace?

**U.N. OBSERVER ZERVOS**

I must counsel with other human leader on my vessel to confirm Peace offer.

**JETHRA RAMA**

Zervos leader of other humans. He does not lead my people. I agree to treaty for only my people and Food for Peace. How much food needed for Peace? Zy understand?

**ZY**

Zy understands. Treaty. We come. We take fooood. We leave food when we don't need. We need much food now. Critical for survival. Peace with humans critical for our survival.

**U.N. OBSERVER ZERVOS**

Zy. Take me back to ship, so I can counsel and give you decision on treaty of food for Peace.

**Zy's mouth protrudes out in front of Zervos' face and hisses.**

**Then, Zy leads the two men back to their vessels.**

**ZY**

**I wait. You must come back with answers.  
Bring little people to make treaty for  
Kraken. We do not tolerate insubordination  
by subspecies.**

**JETHRA RAMA**

**I will return shortly.**

**U.N. OBSERVER ZERVOS**

**I will not be long.**

**The Alien Warriors are still at a kind of attention in rows making a path to the ships. Zy stops at the spot he'd been in when he first greeted Rama and Zervos. Zervos nods to his crew.**

**Jethra Rama and U.N. Observer Zervos enter their respective SSA hatches which are left open. Both crews are still unloading the containers of food.**

**CAPTAIN COLLINS**

**Well, Zervos. Did you make a treaty?  
What's going on?**

**U.N. OBSERVER ZERVOS**

**(psychotic laughter)**

**We're fucking dead! Treaty? I'm not even going to explain his terms for Peace. Collins, I'd input the exact coordinates to shoot this craft out that entrance like a bullet. We're going to show them what Kraken Peace is going to cost them! I have to go back out there with the Light Elves and agree to his terms. He gave us the world tour of a compassionate human meat packing plant.**

**CAPTAIN COLLINS**

**How much time for a decision do you have?**

**U.N. OBSERVER ZERVOS**

**Not Long. If I were you I'd get Jethra on the audio-visual and tell him to input his coordinates. Me and my crew will create a**

diversion, so you and his crew can get out of here.

**CAPTAIN COLLINS**

That's suicidal?

**U.N. OBSERVER ZERVOS**

No. It's suicidal total mutual destruction. We need ten more minutes of diversion before our little nuke container detonates. This species has to learn that we are Americans and we will fight them to the death!

**CAPTAIN COLLINS**

Zervos. Just get your crew into the craft and I'll let Jethra know to set Mark and coordinate for both of us to blast out of here. You will survive.

**U.N. OBSERVER ZERVOS**

Live? They've got seven billion warriors staged to attack. If we don't fight now. We're just going to be compassionately eaten later. No. We stand and fight now.

**CAPTAIN COLLINS**

I'm not going to argue with you. Good Luck!

**JETHRA RAMA (O.S.)**

Collins you there?

**CAPTAIN COLLINS**

Yea. I was just going to contact you. Zervos is going to set up a diversion. Set Mark and coordinates for the entrance.

**JETHRA RAMA (O.S.)**

They're already set. Let's call the crews in! Standby.

**EXT. ALIEN CAVERN FLOOR -- MOMENTS LATER**

**(AH QUIN, CORPORAL MENG, JETHRA RAMA, PRIVATE HUENG)**

Jethra Rama walks up to the hatch. Ah Quin and Private Hueng are just coming in to get another container.

**JETHRA RAMA**

Quin, Hueng, you're all finished unloading.  
Take your seats and man the SSA weapons.

Jethra leans half way out the hatch.

**JETHRA RAMA (CONT'D)**

(loudly)

Comes on in everybody. We have to hold  
counsel for peace treaty.

The rest of Rama's crew enter the SSA1A.

**JETHRA RAMA (CONT'D)**

Get your seat belts on and man all weapons  
systems. On Mark start firing. Corporal  
Meng, on Mark, shut the hatch door!

**CORPORAL MENG**

Yes, sir.

Jethra Rama rushes to the pilot's chair.

**INT. SSA3 -- CONTINUOUS**

(CAPTAIN COLLINS, CORPORAL SIMEL, JETHRA RAMA, PRIVATE  
BACHMAN, PRIVATE BARNES, SERGEANT LAFFIETTE, U.N. OBSERVER  
ZERVOS, ZY)

Private Barnes and Bachman just enter the SSA3 to get another container,  
as Private Weeks and Pfc. Shultz exit the hatch door with one.

**U.N. OBSERVER ZERVOS**

Barnes and Bachman. Get your weapons.  
We going to create a diversion.

**PRIVATE BACHMAN**

Did you make a treaty with them?

**U.N. OBSERVER ZERVOS**

They want food. Human food.

**PRIVATE BARNES**

We can give them our convicts and  
undesirables, can't we? I thought you were  
authorized by the President to make that  
offer?

**U.N. OBSERVER ZERVOS I**  
was going to, until I saw their human  
processing plant. I have a better plan, but  
we're going to have to hurry. Get your  
weapons and then act like your still taking  
more food out! Then stay out there until I  
come out!

**PRIVATE BACHMAN**  
I sure hope you know what your doing  
Zervos!

The two grab their weapons, another container each and exit the craft. One by one, Corporal Simel, Pfc. Shultz, Private Weeks, and Jacobson come in for more containers. Zervos tells them the same thing. Each leaves with a container and their weapons.

**U.N. OBSERVER ZERVOS**  
Okay Collins. Good Luck in the fourth  
future!

**SERGEANT LAFFIETTE**  
Zervos, you don't have to create a  
diversion. This is too fanatical. Get your  
crew and stay in here! Otherwise you're  
dying for no reason at all!

**U.N. OBSERVER ZERVOS No.**  
If there is any chance at all for Peace  
between these Kraken creatures and  
humans. They have to know, we will fight!  
You take these little people and get the hell  
out of here the second I step out the hatch!

**CAPTAIN COLLINS**  
(pauses)  
Good Luck Zervos! Laffiette, set the  
weapon fire controls systems for fully  
automatic. Captain Rama get ready to set  
mark.

**JETHRA RAMA (O.S.)**  
Mark and coordinates set! Ready for your  
command!

U.N. Observer Zervos walks up to the hatch. He has a fully automatic laser blaster hidden behind him, as he jumps out of the hatch.

## **CAPTAIN COLLINS**

**Mark Now!**

**U.N. Observer Zervos, Private Barnes, Jacobson, Bachman and Weeks spray massive fire power at the Alien Leader Zy.**

**The Alien cavern artillery take aim at the human diversionary force to protect their leader Zy as the two ships simultaneously blast straight through the entrance opening to the cavern showering the cavern with a huge amount of fire power.**

**Corporal Simel and Pfc. Shultz spray the entire Alien procession with their fire power as the two SSA crafts take off at the precise moment, when this small elite group start firing.**

**Instantly, even with massive human fire power, the Alien Warriors in hundreds of shadowy blurs counter-attack. Private Jacobson's head is bitten off and her torso falls to the floor. Blood spurting out her neck.**

**Then, Private Barnes falls dead screaming all the way to the floor, as half of her head, neck and right shoulder disappear in the jaws of another Alien Warrior who came from behind her.**

**U.N. Larry Zervos strikes the Alien Leader Zy's head with a grenade, which splatters the alien's head. Just as sudden, an Alien Warrior attacks Zervos, by smashing Zervos' head between its alien hands, spattering his brain matter out of his eye sockets, as he falls to the floor.**

**Another Alien Warrior dives at Pfc. Shultz and leaves a gapping hole which detaches his legs and lower belly from his upper torso. He falls alive bleeding to death.**

**An Alien laser, cut Corporal Simel straight down the middle of her body from her head to her crouch. Each side of her detached body falls in a different direction, like an apple sliced in two.**

**Private Weeks, the last standing human suddenly notices his right arm is missing from a laser blast. Then, his left arm. He stands in helpless shock as another laser cuts through both of his legs and he falls alive armless and legless at the mercy of the Alien Warriors where four ALF's begin munching on his legs and arms.**

**EXT. NORTH ATLANTIC OCEAN -- MOMENTS LATER**

**The SSA3 and the SSA1A rip through the oceanic waters with tremendous speed towards the surface.**

One right after the other, the SSA1A and SSA3 breach the ocean surface and into the Earth's atmosphere.

**EXT. EARTH'S UPPER ATMOSPHERE -- CONTINUOUS**

The SSA3 and the SSA1A continue their projectory escape to the outer planetary upper atmosphere. The Earth stands as a background behind the two spacecraft.

**EXT. OUTERSPACE -- CONTINUOUS**

The SSA3 and the SSA1A race away from the Earth, which is a distance behind them, with its moon majestically positioned, as if standing by the Earth's side.

**DISSOLVE TO:**

**EXT. NEAR EARTH'S MOON -- MOMENTS LATER**

ToothGap-ToothGrinder accelerates past the Earth's moon in a matter of moments at fantastic speed heading towards the Asteroid belt region between Mars and Jupiter.

**INT. TOOTHGAP-TOOTHGRINDER ASGARDIAN SPACECRAFT - LATER**

**(GENERAL BORSSON, JOSE MCFIGUERES FERRER, MAGNI LEIVO)**

General Borsson and Magni Leivo are sitting in the control center of the Asgardian spacecraft ToothGap-ToothGrinder.

**GENERAL BORSSON**

We're in position, Magni. Tune in the hailing frequency of SSA4A.

**MAGNI LEIVO**

I have the frequency locked on! Ready for communication.

General Borsson turns on the microphone and video monitor. Captain Ferrer's face comes into view. His crew can be seen in the background.

**GENERAL BORSSON** Captain

Ferrer, this is General Borsson. Advise Lieutenant Leivo that his son Magni came on an adventure with me and is safe and sound! Okay, we are in position.

**JOSE MCFIGUERES FERRER (V.O.)**

**This is Captain Ferrer. That's a Roger on Magni. Our ETA is less than five minutes General. I sure hope this works!**

**GENERAL BORSSON**

**It's our back-up plan! We have the black hole imploder energized and target area coordinates entered. We must be very precise. I will target the North Atlantic Alien colony with a -20 black hole implosion. This will dematerialize and absorb a spherical 100 miles of Earth and ocean, neutralizing the alien Star Blaster. If the aliens have moved this weapon to another colony and engage in a suicidal total mutual destruction of Earth, then, before the yggdrasil collapses we will have a new earth in the heavens of our solar system. So double check your coordinates.**

**JOSE MCFIGUERES FERRER (V.O.)**

**Roger. We have the Europa orbital path around Jupiter mapped out. The exact bearing at 50% of the elliptical orbit in a projection towards the Earth's orbit, will place the moon Europa 180 degrees opposite the Earth, where the yggdrasil will capture the moon in Earth's orbital path.**

**GENERAL BORSSON**

**If the Aliens destroy the Earth, it will take 40 days and nights for Europa to stabilize in the yggdrasil. My calculations indicate Europa's oceans will liquefy and create an a breathable atmosphere by the end of this time period, where land will be expose for colonization. A second binary planet in the same orbit will not affect the Earth, if our calculations are correct. Europa will never been seen because it will be held in position by the positive and negative fields of Earth yggdrasil exactly 180 degrees away from the Earth. The time continuum is our only major factor and our species will be adaptable to this new planet.**

**JOSE MCFIGUERES FERRER (V.O.)**

**Roger. I will notify you when Europa is positioned for a projectory course towards Earth orbit.**

**GENERAL BORSSON**

**Remember, when I strike Europa's orbital yggdrasil energy field at 180 degrees, Europa will cease to orbit Jupiter. The place of the nuclear explosion is crucial for establishing Europa's projectory course to where we want it. Triple check your coordinates!**

**JOSE MCFIGUERES FERRER (V.O.)**

**We have projectory positioning coming up in thirteen seconds after you fire the black hole imploder, we will detonate the nuclear devise!**

**GENERAL BORSSON**

**Mark, 5,4,3,2,1.**

**DISSOLVE TO:**

**EXT. WEST COAST UNITED STATES OF AMERICA - CONTINUOUS**

**(CONVICT 1, 2, 3, 4, 5, 6, and 7)**

**An high altitude aerial view of the United States West Coast shows a massive alien invasion underway, where they are taking over the land mass at more than blitzkrieg speed and covering the land, like an ant colony, with a bulge of humans fighting near San Francisco over three hundred miles long.**

**Huge amounts of food left by the humans as a peace offering was seized and or immediately eaten by the Aliens as they continued their attack.**

**A closer view of the battle shows hundreds of thousand laser blasts and millions of alien warriors running into pre-positioned human convicts who are counter attacking with millions of rounds of artillery, tanks, lasers, bombs, and bullets, heading towards the aliens, who still keep coming where in some areas hand to hand combat is resulting in aliens massacring the humans.**

**The original two convicts are now joined by over a thousand convicts, who just happened to delegate Convict 1 and 2 as their leaders, because they are in front!**

**CONVICT 2**

**Damn you hear that thunder up ahead?**

**CONVICT 1**

**What's that up over there?**

**A group of twenty five aliens have penetrated, human front lines and begin to attack alien to man, with a blurry shadowy instant speed.**

**Twenty five humans are instant torn to shreds, with arms, legs, heads, missing and the aliens holding the missing parts eating.**

**CONVICT 1 (CONT'D)**

**Fire your weapons!**

**Convict 1, 2 and 973 other convicts begin firing thousands of rounds at the shadowy blurs which seem to be everywhere, and ripping them apart.**

**CONVICT 3**

**What the fuck are these ugly looking things?**

**He is continually firing, as he kicks a dead alien carcass over to reveal a long dangling tongue hanging out its first mouth with a second mouth gaping wide open. Within minutes, all twenty five aliens are dead. The 600 remaining humans are looking over their dead alien bodies and the mass destruction they did to their civilian convict troop battalion.**

**CONVICT 4**

**These son's of bitches just took out four hundred of our men, and there's only twenty five of them!**

**CONVICT 5**

**Let's hope there's not anymore, because we'd be better off fighting those fuckers that sent us here! We might even last longer fighting them!**

**CONVICT 2**

**Yea, you have a no shit on that one. No wonder those assholes told us to pick weapons of our choice. I would have picked a nuke.**

**CONVICT 1**

You and me both. Hey, how far do you think the military has advanced behind us, if we decide to fall back?

**CONVICT 6**

Good question. I bet those chicken shits are waiting for our asses to get shot off first. That would mean, they aren't going anywhere, unless the first line of defense is taken. And, that is us!

**CONVICT 2**

I think you're right! But, if you're wrong and we retreat into our own military, they're going to shoot us!

One of the convicts is looking through binoculars

**CONVICT 7**

Hey, look over there! We're in some deep shit if we stay here!

Convict 1 takes the binoculars and looks over by the horizon.

**CONVICT 1**

(shouting)

Holy fuck! We gonna be dead if we stay here! FALL BACK! There's over a hundred thousand of them coming!

Everyone starts running towards the East.

**CONVICT 2**

Do you know what the hell you're doing? We'll lose our amnesty and be shot if we retreat!

Everyone running in retreat at the fastest human pace.

**CONVICT 3**

(breathing heavily)

You dumb shit! We're going to live longer shooting at our own kind then fighting those ugly ass things! They're still coming and there's only 600 of us, and twenty five of those alien warriors just killed 400 of us! There's a over a hundred thousand of them coming at us! Fuck that, we're out of here!

**EXT. MILITARY SECOND LINE OF DEFENSE -- CONTINUOUS**

**(MILITARY OFFICER 1, MILITARY SERGEANT)**

A sargeant runs up to the military officer who's still processing as many convicts for the front lines as he and the many others can, keeping the human wave rolling towards the west coast.

**MILITARY SERGEANT**

Sir, aerial reconnaissance is coming in and shows a lot of the convicts are retreating.

**MILITARY OFFICER 1**

Prepare the firing line! Shoot any who try to retreat!

**MILITARY SERGEANT** Sir, are you sure that's a valid order? There's more information! Aerial observation places estimated alien troops at over 10 million attacking San Francisco alone! Sir, San Francisco is directly in front of us! We need to give these guys a chance to regroup and fight with us, if there's that many!

**MILITARY OFFICER 1**

You have your orders Sergeant! We have zero tolerance for deserters. I don't know the big picture. I only know I was given lawful orders to hold this line! And, until I see an enemy, convicts will advance without question. And if I do see an enemy there aren't any convicts left!

**MILITARY SERGEANT**

Yes, sir!

The Sergeant takes leave to have his immediate superior officer's orders implemented.

**EXT. AERIAL VIEW OF WEST COAST -- CONTINUOUS**

The Alien invasion as pushed the 300 mile bulge back and has the humans almost surround except for a small corridor with aliens pushing forward deep into North American territory, from Baja California, Mexico, to Southern Alaska.

**EXT. JUST IN FRONT OF THE MILITARY LINE OF DEFENSE --  
CONTINUOUS**

**(CONVICT 1 and 2, CONVICTs 1 THROUGH 100, MILITARY SERGEANT 2)**

**The battalion of convicts which has retreated with a hundred thousand alien warriors closing in fast, comes within a mile of the military line. Both the convicts and the military have each other in sight.**

**Convicts with new weapons and freedom are beginning to block the highway forward, as they are warned.**

**CONVICT 1**

**Retreat and regroup! Those fuckers are never ending! Retreat!**

**The military line now has a firing line ready to shoot the convicts, while making loud speaker orders.**

**MILITARY SERGEANT 2**

**Convicts advance or we will shoot you!  
You are ordered to advance! Now advance  
or we will commence firing!**

**The thousands of convicts which have just passed the military check point turn around confused, as they see the hordes of tens of thousands of alien creatures on the near horizon heading for the second line. All of the convicts begin to retreat in terror!**

**CONVICT 1 THROUGH 100**

**(in unison)**

**Retreat! Retreat! Regroup! But, Retreat!**

**The military begins to open fire!**

**CONVICT 1**

**Fuck this! I guess we're gonna live longer shooting our own kind! Monsters are monsters, some just look different! But, the ones behind us are going to eat our ass alive and the ones in front of us are just going to kill our ass, unless we kill them first.**

**CONVICT 2**

**We're dead, no matter how we work this one! I'm going through that military line,**

**dead or alive, because we're definitely dead  
the other way!**

**Convict 1 takes his L.A.W. and takes out the Sergeant whose dictating suicidal orders on the loud speaker. Convict 2 shoots 6 grenades in succession as they lead the retreating attack against the military.**

**Soon, all of thousands of convicts are counter-attacking the military by returning fire with hundreds of thousands of rounds at the military who are firing on their on species and ignoring the hundreds of thousand aliens coming their way from the horizon.**

**DISSOLVE TO:**

**EXT. WEST, EAST, SOUTHERN, AND NORTHERN COAST AUSTRALIA -  
MORNING**

**An aerial view shows Alien Warriors advancing almost unopposed, from the entire Australian coast line and the humans as well as the land mass is quickly taken over and surrounded by the masses of attacking Alien Warriors.**

**EXT. CHINESE EAST COAST -- MORNING**

**An aerial view of the Chinese coast sees fierce fighting, as the Chinese military are being backed up by the civilian masses in a counterattack against millions of invading alien warriors with millions of humans counter attacking in human waves.**

**EXT. SOLAR SYSTEM - ASTEROID BELT -- CONTINUOUS**

**The Asgardian spacecraft ToothGap-ToothGrinder fires its black hole imploder at Jupiter's moon Europa's orbital energy field exactly 180 degrees from the orbiting moon.**

**CAMERA ON Europa breaking free of Jupiter's orbit and starting to drift.**

**INT. SSA4A - OUTER SOLAR SYSTEM - CONTINUOUS**

**(JOSE MCFIGUERES FERRER, JOSE MCFIGUERES FERRER - ESPANOLA,  
PFC FISCHER, PFC FISCHER - ESPANOLA)**

**Captain Jose Ferrer is piloting the craft. Private First Class Fischer watches over her fire control systems with the finger on the button.**

**JOSE MCFIGUERES FERRER  
Private Fischer ready to fire. 13, 12, 11,  
10,9,8,7,6,5,4,3,2,1, Fire!**

**JOSE MCFIGUERES FERRER - ESPANOLA**  
Fischel estas listo para la detonacion.  
13,12,11, 10,9,8,7,6,5,4,3,2,1, fuego!

**PFC FISCHEL**  
Nuclear Weapon has been fired!

**PFC FISCHEL - ESPANOLA**  
El arma Nuclear ha sido disparada!

**JOSE MCFIGUERES FERRER**  
General Borsson, we have fired the nuclear  
warhead right on the mark!

**EXT. NEAR JUPITER'S MOON EUROPA - MOMENTS LATER**

**CAMERA ON** the nuclear warhead aimed directly towards the projectory  
drift of Jupiter's moon, Europa after being broke free from Jupiter's orbit.

**CAMERA ON** huge nuclear explosion in space, pushing Europa on its  
projectory path towards Earth's orbit around the sun.

**INT. SSA4A - OUTER SOLAR SYSTEM - CONTINUOUS**

**(GENERAL BORSSON, JOSE MCFIGUERES FERRER, JOSE MCFIGUERES  
FERRER - ESPANOLA, PRIVATE BRITTON, PRIVATE BRITTON -  
ESPANOLA)**

Everyone is checking their respective computer data coming in on this  
major event to assure it is a success.

**PRIVATE BRITTON**  
Captain Ferrer, the moon Europa is exactly  
on course!

**PRIVATE BRITTON - ESPANOLA**  
Capitan Ferrer, la Luna de Europa esta en el  
curso exacto!

**JOSE MCFIGUERES FERRER**  
Fantastic. Mission is a success!

**JOSE MCFIGUERES FERRER - ESPANOLA**  
Fantastico. La mision es todo un exito!

**JOSE MCFIGUERES FERRER**

**General Borsson. The moon Europa is on the correct projectory course! Our mission is a success!**

**Everyone in the SSA4A is cheering and happily excited by their success!**

**GENERAL BORSSON (O.S.)**

**Great! You might just have enough time to get back to Kerguelen Island and evacuate everyone you can! Make sure you secure some tools and seeds for crops from the warehouse. Then, get the hell out there. Let me know as soon as your out of Earth's orbit. There's not much time and I have to monitor the peace negotiations very closely to pick the right time to neutralize the Star Blaster. Get going!**

**JOSE MCFIGUERES FERRER**

**Yes, sir! We are on our way!**

**EXT. NEAR JUPITER SSA4A - CONTINUOUS**

**The SSA4A sets a course for Earth with full throttles!**

**EXT. NEAR EARTH OUTERSPACE -- CONTINUOUS**

**(JOSE MCFIGUERES FERRER, KERGUELEN CONTROL TOWER)**

**The SSA4A is just entering Earth's Atmosphere with a projectory for Kerguelen Island.**

**JOSE MCFIGUERES FERRER**

**Kerguelen Control Tower. This is SSA4A we are in a descending projectory and ETA is approximately ten minutes. I'd like to have you contact the Ferrer, Leivo, and Martinez families and have them meet us on the southern runway.**

**KERGUELEN CONTROL TOWER (O.S.)**

**That is a Roger! Your welcoming home party will be on the runway!**

**EXT. KERGUELEN U.N.P.K.F. AIRPORT RUNWAY - MOMENTS LATER**

**(ELIZABETH LEIVO, ELIZABETH LEIVO - ESPANOLA, JOSE MCFIGUERES FERRER, JOSE MCFIGUERES FERRER - ESPANOLA, LIEUTENANT LEIVO,**

**LIEUTENANT LEIVO - ESPANOLA, MARIA FERRER, MARIA FERRER -  
ESPANOLA, PFC FISCHER, PRIVATE BRITTON, PRIVATE SCARLETT)**

**The SSA4A descends and lands on the runway close to the warehouse.  
The ramp extends to the ground and the hatch opens. Captain Ferrer and  
his crew rush to get their families, food, tools and get back on board.**

**JOSE MCFIGUERES FERRER**

**(happily, but fear)**

**Maria, you and Vanessa get on board now.  
We don't have much time!**

**JOSE MCFIGUERES FERRER - ESPANOLA**

**Maria, usted y Vanessa vayan a sobreborda  
ahora. No tenemos mucho tiempo!**

**MARIA FERRER**

**But, what's going on?**

**MARIA FERRER - ESPANOLA**

**Pero, que haremos ahí?**

**Standing with the Ferrer family is Lieutenant Lievo's wife Elizabeth whose  
crying and U.N. Observer Martinez's wife. U.N. Martinez says nothing, but  
firmly and quickly takes his wife's arm after she races up gives him a hug  
and a short kiss.**

**U.N.OBSERVER MARTINEZ**

**Quickly honey! Let's get inside and stay  
out of the way. No questions, please.**

**U.N. OBSERVER MARTINEZ - ESPANOLA**

**Rapido cariño! Salgamos de aquí y  
busquemos otro lugar. No hagas  
preguntas.**

**U.N. Observer Martinez rushes his wife up the ramp and enter the SSA4A.**

**LIEUTENANT LEIVO**

**(smiling, slowly)**

**Elizabeth, where's our son?**

**LIEUTENANT LEIVO - ESPANOLA**

**(sonríe, silenciosamente)**

**Elizabeth, donde está nuestro hijo?**

**Elizabeth starts to cry harder, but looks confused by the unconcerned look  
of her husband.**

**ELIZABETH LEIVO**

I don't know. I have been worried to death.

**ELIZABETH LEIVO - ESPANOLA**

No se. Me preocupa que se muera.

**LIEUTENANT LEIVO**

Just get on board. Our son is doing just fine!

**LIEUTENANT LEIVO - ESPANOLA**

El obtuvo en el barco. Nuestro hijo estaba bien!

**ELIZABETH LEIVO**

What?

**ELIZABETH LEIVO - ESPANOLA**

Que?

As Vanessa starts to get on board she turns and gives Elizabeth, the good news by revealing what her husband already knows.

**VANESSA FERRER**

Mr. Leivo, Magni stowed away onboard General Borsson's vessel. I saw him sneak on board.

**VANESSA FERRER - ESPANOLA**

Mr. Leivo, Magni guardo en el barco al General Borsson's en una vasija. Yo vi una serpiente en el barco.

Jose Ferrer rushes his wife and daughter on board, as Alberto also escorts his wife Elizabeth on board.

Jose Ferrer starts to help with the first load of food, crop seeds, tents, and tools that Sargent Carcha, PFC Fischel, Pvt. Cruz, Pvt. Scarlett, and Pvt. Britton are retrieving from the warehouse.

**LIEUTENANT LEIVO**

Captain Ferrer, I'll be back in a minute. I have medicine and medical equipment we need to take. Private Scarlett please come with me.

**LIEUTENANT LEIVO - ESPANOLA**

**Capitan Ferrer, Yo podria regresar en un minuto. Tengo medicinas y equipo medico y necesito traerlo Private Scarlett acompaneme.**

**JOSE MCFIGUERES FERRER**

**Good idea!**

**JOSE MCFIGUERES FERRER - ESPANOLA**

**Es una buena idea!**

**PRIVATE SCARLETT**

**Yes, Sir.**

**PRIVATE SCARLETT - ESPANOLA**

**Si, Senor.**

**Lieutenant Leivo and Private Scarlett rush over to the warehouse which is next to the food supply warehouse.**

**Lieutenant Leivo and Private Scarlett come back with a fork lift of medical equipment, medicine, some blankets and sheets, and medical utensils.**

**Warrant Officer Taylor, Sargent Carcha, PFC Fischel, Private Cruz, and Private Britton start loading everything on board.**

**A young man races across the runway towards the SSA4A. Private Cruz notices him and races into his arms, kissing him deeply. Then begins dragging him by the hand past the others and into the SSA4A.**

**PRIVATE CRUZ**

**This is my boyfriend! And, he's coming with us!**

**PRIVATE CRUZ - ESPANOLA**

**El es mi novio! Y, el viene con nosotros!**

**Everyone starts laughing at her, as she has a fulfilled female happiness about her now!**

**The entire crew now go back on board the SSA4A. The ramp retracts and the hatch closes.**

**The SSA4A takes off into the atmosphere.**

**EXT. OUTERSPACE NEAR EARTH -- MOMENTS LATER**

**The SSA4A is just clearing Earth's Moon heading towards Mars.**

**INT. TOOTHGAP-TOOTHGRINDER SPACECRAFT - MOMENTS LATER**

**(GENERAL BORSSON, MIDGARD-LOKI, MAGNI LEIVO)**

**General Borsson, just receives word from the SSA1 that they are just leaving the gravity field of Earth's moon.**

**GENERAL BORSSON**

**Okay, Magni. That's the last of the SSA's we can save. Let's hope we can neutralize the Star Blaster and pray that humans prevail in this war against the aliens.**

**MAGNI LEIVO**

**General, many things I don't understand. The aliens claim Kraken is peace and they asked for Peace. Mankind came to them with a peace offering. Both use this word Kraken for Peace. This war then is created by the peacemakers. This is literally a war of the Krakens. Those who sought Peace. Why should their be a war?**

**GENERAL BORSSON**

**The interpretations and terms of Peace are not acceptable. There can be no classifications of sub-species of intelligent beings. Nor can there be a system of zero tolerance, without some form of hope. I have learned this lesson more than any other lesson in my resurrection as an Asgardian god.**

**Magni just realizes what General Borsson is saying. He changes the subject.**

**MAGNI LEIVO**

**I have the coordinates double checked and inputted the data. We are ready to fire the black hole imploder. General we have a hailing message from U.N. High Command at Kerguelen Island.**

**GENERAL BORSSON**

**Right at countdown time! Go ahead and Mark 15. Damn, Let me turn on the monitor and microphone.**

In the background Magni counts down for firing the black hole imploder. Midgard-Loki appears on the monitor screen.

**MAGNI LEIVO**

Mark 15,14,...

**MIDGARD-LOKI**

General Borsson. It's you who changes the third destiny, and creates the fourth, isn't it? I had to look into your face, just once.

**GENERAL BORSSON**

I'm the son of Bor and Bestla. Vodthin [Whoa-dith-in]. My friends call me Odin. Yes, I'm the third destiny which creates the fourth and saves your planet and creates a new earth in our heavens, if what I am doing doesn't stop the aliens from destroying Earth first!

**MAGNI LEIVO**

3,2,1, Mark.

General Borsson fires the black hole imploder at the North Atlantic Alien Colony.

**INT. ZY ALIEN RESIDENCE COUNCIL ROOM - NORTH ATLANTIC - CONTINUOUS**

**(ZY)**

**TWENTY-FIVE ALIEN WARRIORS** race into the Alien leader Zy's council room. He is informed that the humans have counter-attacked the alien warriors on all continents in a suicidal total mutual mass destruction manner. Zy walks over to a small control panel and pushes a huge red button.

**EXT. OUTERSPACE NEAR EARTH -- MOMENTS LATER**

**CAMERA ON EARTH** as the black hole imploder beam races down through the atmosphere towards the North Atlantic ocean enclave of the Alien Colony. Simultaneously a small spherical ball appears under the ocean depths, which appears to be neutralized by the imploder until they collide.

**CAMERA ON** a HUGE sheet of rainbow colored spectrums of lights in the form of a window pane glass like energy spreading out cutting the EARTH directly in half. Each side of the planet begins to drift apart, with the oceans dissipating in the void of outerspace, and Earth's internal lava core

spews out like a fountain cooling from hot red liquid, like water being poured from a drink.

The Earth's moon is thrust with a greater speed along Earth's yggdrasil energy path surrounding the sun with a loud thunderous rumble like a bowling ball following its path in the gutter of a bowling lane. The moon unlike a planet, does not turn on its axis or revolve. It just follows a lone new path in silence.

**EXT. OUTERSPACE OPPOSITE SIDE OF THE SUN - EARTH'S YGGDRASIL -  
- CONTINUOUS**

The Jupiter Moon Europa is suddenly directly seized by the Earth's energy field, as its projectory is lined up with Earth's orbital path.

Europa first tilts on its axis, where West becomes East and East becomes West, then stabilizes and begins to revolve, like the Earth. The ice sheets covering Europa's oceans immediately begin to melt and a firmament of clouds are created from the sun's warming of the oceans and evaporation process. Land is now exposed.

The Earth's moon in its new projectory course around the sun, soon meets up with Europa, where it is captured by the new planet's gravity field and begins to revolve around the new planet, as if it were the original Earth.

**EXT. NEW EARTH'S ORBIT - OUTERSPACE -- TWO MONTHS LATER**

SIX SSA'S and the Asgardian spacecraft ToothGap-Toothgrinder are continually orbiting the new Earth which has majestically positioned and stabilized itself, finding its new place as a new world of oceans, clouds, and land masses. And, with a moon!

**INT. TOOTHGAP-TOOTHGRINDER SPACECRAFT - OUTERSPACE -- TWO  
MONTHS LATER**

**(ALL SIX SSA CAPTAINS, GENERAL BORSSON, LIEUTENANT MORRISON,  
MAGNI LEIVO)**

**GENERAL BORSSON**

Magni, it's time we begin to scout, the new planet for colonization. Turn on the hailing frequencies for all SSA craft.

Magni reaches over on the console and flicks a switch. The visual monitor is divided into six sections, showing each of the Captains of the SSA vessels.

**MAGNI LEIVO**

**Hailing Frequencies are on!**

**GENERAL BORSSON** Captain  
Collins, Ferrer, Dundee, Putin, Rama, and  
Morrison, it's time we explore our new  
planet for colonization! Let's head in!

**ALL SIX SSA CAPTAINS (O.S.)**  
(simultaneously)  
**Aye, Aye, General!**

**LIEUTENANT MORRISON (O.S.)**  
General, what are we going to call our new  
Earth? Europa?

**GENERAL BORSSON**  
Our new Earth in the heavens of our solar  
system shall be renamed, Gimli in honor of  
a new paradise prepared for our survival.

**EXT. GIMLI, THE NEW PLANET -- MOMENTS LATER**

The Asgardian spaceship ToothGap-Toothgrinder leads the way for the other six ships descent into the atmosphere of a beautiful blue oceanic planet, almost as if it were the Earth itself.

**EXT. OUTERSPACE - NEAR OUR SOLAR SYSTEM -- LATER**

The Utgardian vessel Starkadhr enters our solar system materializing near Utgard.

It continues a journey towards the new third planet and descends into the Gimli atmosphere.

**EXT. GIMLI OCEAN -- CONTINUOUS**

The Spacecraft Starkadhr hovers over one of Gimli's oceans. Suddenly, two Nidhøgggs are released from the Utgardian spacecraft with many kinds of species of fishes and other aquatic life which originated from the Earth.

Starkadhr ascends up into the atmosphere and heads towards one of the land masses.

The Seven ships have landed and set up a small human village on a beautiful, but barren peninsula near the equator of Gimli.

**Starkadhr hovers over a close by region, and with the retractor beam, lowers an unbelievable surprise. Entire farms of animals, trees, grass, with a large group of humans. And, Vanessa Ferrer's two friends, Emily and Skye are among the humans, as well as Emily's farm.**

**The Spacecraft then descend up into the atmosphere leaving this new planet to itself.**

**EXT. OUTERSPACE - GIMLI'S UPPER ATMOSPHERE -- CONTINUOUS**

**Starkadhr speeds out of Gimli's atmosphere on its journey towards Jotunheim, home of the Jotuns.**

**INT. STARKADHR -- CONTINUOUS**

**(CAPTAIN YMIR, LOGI, SURT)**

**Surt is at the Command Control Panel talking with Logi and Captain Ymir.**

**SURT**

**I think the humans will have a new beginning on the new planet. How do you think Vodthin reappeared from the past?**

**CAPTAIN YMIR**

**Who knows? But he saved our planet! His actions show that he finally realized that we are all brothers of this solar system who want to live in Peace.**

**LOGI**

**You're right Captain Ymir! If it wasn't for him, even Jotunheim would have been destroyed.**

**CAPTAIN YMIR**

**We can monitor how well they're doing, and give them a helping hand in the future if they need it. For now, let's leave them alone. It's time to head for home!**

**FADE OUT:**
